Reducing the hidden costs of nosocomial UTI

Are you even on the map?

The BARDEX® I.C. Foley Catheter can save your hospital up to \$322,000 per year.¹

There are over 900,000 NUTIs each year, costing an average of \$3,800 apiece in non-reimbursable expenses.² These costs often remain hidden because of the complexity of tracking NUTIs.

The silver and hydrogel-coated BARDEX® I.C. Foley Catheter has been proven to reduce the incidence of costly NUTIs by 22-80%. The individual examples shown are just a few of the more than 500 success stories involving hospitals that significantly reduced infection rates – and costs – after converting to the BARDEX® I.C. system.

For more information on the BARDEX® I.C., contact your BARD Representative or call 1-800-526-4455. You can also visit our website at www.bardmedical.com.

Ingelwood, CA
11,381 annual admissions
Annual projected savings
\$187,704
48% reduction in NUTI

Hawthorne, CA
5,000 annual admissions
Annual projected savings
\$119,147
77% reduction in NUTI

Alexandria, LA
9,000 annual admissions
Annual projected savings

Infection Control Practitioner

The University of Maryland Medical System (UMMS), a standard-setting academic teaching hospital located in downtown Baltimore, has a challenging opportunity for an infection control and education specialist.

Qualified candidate will have a bachelor's degree in nursing, microbiology, epidemiology or a related field and a minimum of 3 years experience as an Infection Control Practitioner. Certification from the Association for Practitioners in Infection preferred. UMMS offers a highly competitive compensation package.

Our modern campus is within walking distance of the famous Baltimore Inner Harbor, Oriole Park at Camden Yard, Raven's Stadium, and many outstanding restaurants and specialty shops.

Send resumes to **UMMS, Employment Services, Dept. LC-ICP/ICHE, 22 S. Greene St., Baltimore, MD 21201.** Fax: (410) 328-0117. Phone: (410) 328-2757. E-mail (ASCII): jobs@hr2.ummc.umaryland.edu. EOE, M/F/D/V.

www.um.edu

ATTEND ON-LINE OR IN PERSON DUAL LICENSURE FOR PRACTICING HEALTH CARE PROFESSIONALS

The five year curriculum program (FYCP) leading to an MD degree is presently available to working adult professionals who cannot attend classes at our campus in Antigua because of work, family or other commitments. Information regarding the FYCP may be accessed via our web site at: <http://www.uhsa.ag/five-year/> and the OLBSLP at: <http://www.uhsa.ag/olbslp/> and OLCLP at <http://www.uhsa.ag/online/>.

The Flexible Medical Curriculum for Professionals (FMCP) allows the participants to attend classes at our campus in Antigua. Information regarding the FMCP may be accessed via our web site at: <http://www.uhsa.ag/pstudent/fmcp> and OLCLP at <http://www.uhsa.ag/online/>.

The hospital attendance during the clinical phase of both programs is mandatory and cannot be fulfilled on-line. Clinical Clerkships can be done at our affiliated teaching hospitals or may be done within students work schedule or arranged with the hospital(s) if currently associated with one. **There is a reason Professionals educate here. Excellent track record for 18 years.**

A Call for SHEA Board of Directors Nominations

Here's your chance to help lead the society dedicated to furthering the profession of healthcare epidemiology. SHEA is currently seeking members to serve in leadership positions on its Board of Directors.

Candidates should have demonstrated commitment to SHEA and the field of healthcare epidemiology, and have experience in committee and volunteer work.

If you are interested in serving or know of other members interested in serving, please obtain a Nominations Form by visiting the SHEA Website (www.shea-online.org) or write to Stuart Cohen, SHEA Nominations Committee Chair c/o SHEA Executive Office, 19 Mantua Road, Mt. Royal, NJ 08061.

The Society for Healthcare Epidemiology of America

2000 SHEA/CDC Training Course in Hospital Epidemiology

Program

The program will be held October 14-17, 2000 at the Cincinnati Marriott at RiverCenter, Covington, Kentucky. Timothy W. Lane, M.D., Julie Gerberding, M.D., and Gina Pugliese, R.N., M.S., will co-chair the program. This program, developed by the Society for Healthcare Epidemiology of America (SHEA), and the Centers for Disease Control and Prevention (CDC), is intended for infectious disease fellows and new hospital epidemiologists. It emphasizes hands-on exercises in which participants work in small groups to detect, investigate, and control epidemiological problems encountered in the hospital setting. These work sessions are supplemented with lectures and seminars covering fundamental aspects of hospital epidemiology and surveillance, epidemic investigation, transmission and control of nosocomial infections, disinfection and sterilization, employee health, isolation systems, regulatory compliance, and quality improvement.

Who Should Attend

You should attend if you are a hospital epidemiologist or an infection control practitioner or if you are looking for a course that will provide you with the most current information concerning infection control practices and epidemiological methods in health care. This fundamental program will provide you with opportunities to find solutions to real situations that will occur in the hospital setting. Intensive problem solving sessions are supplemented with lectures and seminars presented by leading authorities.

Scholarships

Scholarships in the amount of \$1,000 will be awarded to infectious disease fellows for the program to defray the special course fee for fellows of \$400 and expenses incurred in attending the training program.

Interested fellows must submit a letter of no more than one page describing why they would like to have additional training in hospital epidemiology. A letter from the fellow's program director outlining the applicant's qualifications and suitability

for the course also is required. The deadline for receipt of scholarship applications for the course is September 1, 2000. The SHEA Educational Activities Committee will select the scholarship recipients based on review of these letters. Winners will be notified in late September.

Nominations

Please send scholarship applications to:

Timothy W. Lane, M.D.
c/o The Society for Healthcare Epidemiology of America
19 Mantua Road
Mt. Royal, NJ 08061

Fees

Individual Registrants	\$575
Fellows in Infectious Disease	\$400

Credits

The Society for Healthcare Epidemiology of America (SHEA) is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The Society for Healthcare Epidemiology of America designates this continuing education activity for up to 23 hours in Category 1 of the Physician's Recognition Award of the American Medical Association.

General Course Information

Information regarding the schedule, hotel and travel accommodations, discount airfare, and course fees are available from SHEA (856) 423-7222. Note that application for a scholarship does not constitute enrollment in the program. This must be done separately.

Scholarship Awards provided in part by an educational grant from Pfizer Pharmaceuticals.
