<b>Introduction</b> Graeme Laurie	1
<b>PART I CONCEPTS, TOOLS, PROCESSES</b>	
<b>SECTION IA CONCEPTS</b>	
Introduction Annie Sorbie	13
<b>1 Vulnerability</b> Wendy A. Rogers	17
<b>2 Autonomy: Relational Conceptions</b> Natalie Stoljar	27
<b>3 Proportionality in Health Research Regulation</b> Owen Schaefer	37
<b>4 Social Value</b> Johannes J. M. van Delden and Rieke van der Graaf	46
<b>5 Solidarity in Health Research Regulation</b> Katharina Kieslich and Barbara Prainsack	56
<b>6 The Public Interest</b> Annie Sorbie	65
<b>7 Privacy</b> David Townsend	73

8	<b>Trustworthy Institutions in Global Health Research Collaborations</b> Angeliki Kerasidou	81
9	<b>Vulnerabilities and Power: The Political Side of Health Research</b> Iain Brassington	90
	<b>SECTION IB TOOLS, PROCESSES AND ACTORS</b>	
	Introduction Edward Dove and Nayha Sethi	99
10	<b>Consent</b> Jane Kaye and Megan Prictor	103
11	<b>Forms of Engagement</b> Mhairi Aitken and Sarah Cunningham-Burley	112
12	<b>Participatory Governance in Health Research: Patients and Publics as Stewards of Health Research Systems</b> Kim H. Chuong and Kieran C. O'Doherty	121
13	<b>Risk-Benefit Analysis</b> Carl H. Coleman	130
14	<b>The Regulatory Role of Patents in Innovative Health Research and Its Translation from the Laboratory to the Clinic</b> Dianne Nicol and Jane Nielsen	139
15	<b>Benefit Sharing: From Compensation to Collaboration</b> Kadri Simm	148
16	<b>Taking Failure Seriously: Health Research Regulation for Medical Devices, Technological Risk and Preventing Future Harm</b> Mark L. Flear	158
17	<b>Rules, Principles and the Added Value of Best Practice in Health Research Regulation</b> Nayha Sethi	167
18	<b>Research Ethics Review</b> Edward Dove	177
19	<b>Data Access Governance</b> Mahsa Shabani, Adrian Thorogood and Madeleine Murtagh	187
20	<b>Is the Red Queen Sitting on the Throne? Current Trends and Future Developments in Human Health Research Regulation</b> Stuart G. Nicholls	197
21	<b>Regulatory Authorities and Decision-Making in Health Research: The Institutional Dimension</b> Aisling M. McMahon	205

22	<b>The Once and Future Role of Policy Advice for Health Regulation by Experts and Advisory Committees</b> Eric M. Meslin	215
<b>PART II REIMAGINING HEALTH RESEARCH REGULATION</b>		
<b>SECTION IIA PRIVATE AND PUBLIC DIMENSIONS OF HEALTH RESEARCH REGULATION</b>		
	Introduction Graeme Laurie	227
23	<b>Changing Identities in Disclosure of Research Findings</b> Emily Postan	229
24	<b>Health Research and Privacy through the Lens of Public Interest: A Monocle for the Myopic?</b> Mark Taylor and Tess Whitton	239
25	<b>Mobilising Public Expertise in Health Research Regulation</b> Michael M. Burgess	248
26	<b>Towards Adaptive Governance in Big Data Health Research: Implementing Regulatory Principles</b> Effy Vayena and Alessandro Blasimme	257
27	<b>Regulating Automated Healthcare and Research Technologies: First Do No Harm (to the Commons)</b> Roger Brownsword	266
<b>SECTION IIB WIDENING THE LENS</b>		
	Introduction Agomoni Ganguli-Mitra	275
28	<b>When Learning Is Continuous: Bridging the Research–Therapy Divide in the Regulatory Governance of Artificial Intelligence as Medical Devices</b> Calvin W. L. Ho	277
29	<b>The Oversight of Clinical Innovation in a Medical Marketplace</b> Wendy Lipworth, Miriam Wiersma, Narczyz Ghinea, Tereza Hendl, Ian Kerridge, Tamra Lysaght, Megan Munsie, Chris Rudge, Cameron Stewart and Catherine Waldby	287
30	<b>The Challenge of ‘Evidence’: Research and Regulation of Traditional and Non-Conventional Medicines</b> Nayeli Urquiza Haas and Emilie Cloatre	296
31	<b>Experiences of Ethics, Governance and Scientific Practice in Neuroscience Research</b> Martyn Pickersgill	306

32	<b>Humanitarian Research: Ethical Considerations in Conducting Research during Global Health Emergencies</b> Agomoni Ganguli-Mitra and Matthew Hunt	315
33	<b>A Governance Framework for Advanced Therapies in Argentina: Regenerative Medicine, Advanced Therapies, Foresight, Regulation and Governance</b> Fabiana Arzuaga	324
	<b>SECTION IIC TOWARDS RESPONSIVE REGULATION</b>	
	Introduction Catriona McMillan	333
34	<b>Human Gene Editing: Traversing Normative Systems</b> Rosario Isasi	335
35	<b>Towards a Global Germline Ethics? Human Heritable Genetic Modification and the Future of Health Research Regulation</b> Sarah Chan	344
36	<b>Cells, Animals and Human Subjects: Regulating Interspecies Biomedical Research</b> Amy Hinterberger and Sara Bea	356
37	<b>When Is Human? Rethinking the Fourteen-Day Rule</b> Catriona McMillan	365
38	<b>A Perfect Storm: Non-evidence-Based Medicine in the Fertility Clinic</b> Emily Jackson	373
39	<b>Medical Devices Regulation: New Concepts and Perspectives Needed</b> Shawn H. E. Harmon	382
	<b>Afterword: What Could a Learning Health Research Regulation System Look Like?</b> Graeme Laurie	391
