

CLAY MINERALS

VOLUME 21, NUMBER 2, JUNE 1986

CONTENTS

J. BEN BRAHIM, N. ARMAGAN, G. BESSON et C. TCHOUBAR. Methode diffractometrique de caracterisation des états d'hydratation des smectites stabilité relative des couches d'eau inserées	111
S. KOMARNENI and R. ROY. Topotactic route to synthesis of novel hydroxylated phases: I. Trioctahedral micas	125
T. HOLTZAPFFEL et H. CHAMLEY. Les smectites latées du domaine Atlantique depuis le Jurassique superieur: gisement et signification	133
S. BOUDA and K. P. ISAAC. Influence of soil redox conditions on oxidation of biotite	149
J. F. ALCOVER et R. F. GIESE. Energie de liaison des feuillets de talc, pyrophyllite, muscovite et phlogopite	159
Y. NOACK and F. COLIN. Chlorites and chloritic mixed-layer minerals in profiles on ultrabasic rocks from Moyango (Ivory Coast) and Angiquinho (Brazil)	171
H. STANJECK and R. FRIEDRICH. The determination of layer charge by curve-fitting of Lorentz- and polarization-corrected X-ray diagrams	183
P. CAMBIER. Infrared study of goethites of varying crystallinity and particle size: I. Interpretation of OH and lattice vibration frequencies	191
P. CAMBIER. Infrared study of goethites of varying crystallinity and particle size: II. Crystallographic and morphological changes in series of synthetic goethites	201
S. P. BRAIDE and W. D. HUFF. Clay mineral variation in Tertiary sediments from the eastern flank of the Niger Delta	211
Notes	
M. CREACH, A. MEUNIER and D. BEAUFORT. Tosudite crystallization in the kaolinized granitic cupola of Montebbras, Creuse, France	225
A. BIRNIE, D. R. CLARK and E. PATERSON. A semi-micro method for the examination of selected soil components by transmission electron microscopy	231
