

CONTENTS OF No. 335, SEPTEMBER 1981

	<i>page</i>
M. K. WELLS and J. F. W. BOWLES: The textures and genesis of metamorphic pyroxene in the Freetown Intrusion	245
C. J. STANLEY and D. J. VAUGHAN: Native antimony and bournonite intergrowths in galena from the English Lake District	257
J. G. FITTON and D. J. HUGHES: Strontian melilite in a nephelinite lava from Etinde, Cameroon	261
A. G. COUPER, M. H. HEY, and R. HUTCHISON: Cosmochlore—a new examination	261
G. CAVARRETTA, A. MOTTANA, and F. TECCE: Cesanite $\text{Ca}_2\text{Na}_3(\text{OH})(\text{SO}_4)_3$, a sulphate isotypic to apatite, from the Cesano geothermal field (Latium, Italy)	269
A. J. TULLOCH: Gahnite and columbite in an alkali-feldspar granite from New Zealand	275
W. B. JONES: Chemical effects of deuteric alteration in some Kenyan trachyte lavas	279
E. J. W. WHITTAKER, B. A. CRESSEY, and J. L. HUTCHISON: Edge dislocations in fibrous grunerite	287
I. M. TYLER and J. R. ASHWORTH: Garnet zoning and re-equilibration in the Strontian area, Scotland	293
C. SIVAPRAKASH: Zoned garnets in some Scottish Dalradian pelites	301
G. M. BIGGAR and D. J. HUMPHRIES: The plagioclase, forsterite, diopside, liquid equilibrium in the system $\text{CaO}-\text{Na}_2\text{O}-\text{MgO}-\text{Al}_2\text{O}_3-\text{SiO}_2$	309
F. E. LLOYD: Upper-mantle metasomatism beneath a continental rift: clinopyroxenes in alkali mafic lavas and nodules from south-west Uganda	315
S. P. VARNAVAS and D. S. CRONAN: Partition geochemistry of sediments from DSDP 424 in the Galapagos Hydrothermal Mounds Field	325
E. H. NICKEL and J. E. WILDMAN: Hydrohonesite—a new hydrated Ni-Fe hydroxy-sulphate mineral; its relationship to honessite, carrboydite, and minerals of the pyroaurite group	333
D. L. BISH and A. LIVINGSTONE: The crystal chemistry and paragenesis of honessite and hydrohonesite: the sulphate analogues of reevesite	339
D. R. HUDSON and M. BUSSELL: Mountkeithite, a new pyroaurite-related mineral with an expanded interlayer containing exchangeable MgSO_4	345
W. A. WOOSTER: Atomic arrangements on the twin boundaries of orthoclase twins	351
D. M. H. ALDERTON and F. MOORE: New determinations of tin and tungsten in granites from south-west England	354
D. J. BARBER: Demountable polished extra-thin sections and their use in transmission electron microscopy	357
G. M. CORRIGAN and F. G. GIBB: A modification of the wire-loop technique to reduce alkali loss during 1-atmosphere experiments	360
P. QUINTANA and A. R. WEST: Synthesis of $\text{Li}_2\text{ZrSi}_6\text{O}_{15}$, a zektzerite-related phase	361
Book reviews	363

UNIVERSITY PRESS, OXFORD, ENGLAND
