Mobie.™
Powerful.
Portable.
Personal.

And It's From Everest & Jennings.

You may not be able to get around as much as you'd like to anymore. Perhaps because of MS, emphysema, heart problems, arthritis...or you just aren't able to walk long distances anymore.

But you aren't willing to settle for an immobile lifestyle either. Now you don't have to.

Mobie takes you wherever you want to go.

Mobie has the power, mobility and portability to take you wherever you want to go. It should. It's from Everest & Jennings, the world leader in personal, electric-powered mobility.

Mobie is a three-wheeled, electric-powered scooter that gives you safe, dependable, powered mobility and support. Mobie's 24-volt gel cell batteries are so efficient that they will take you 20 miles between charges* and are sealed to prevent acid spills. But Mobie gives you more than that. Mobie gives you independence.

Quick. Quiet, Easy.

Mobie dismantles into five parts which easily fit in the trunk of the smallest of sub-compact cars. Reassembly is quick and easy. No tools are required. And the heaviest piece weighs only 25 pounds and is easily lifted by even those with somewhat limited strength.

Mobie has all the features, power, dependability and quality you expect from the best. Visit your nearest Everest & Jennings dealer and see for yourself. But be prepared to drive one home.
