

# WESFARMERS

SPECIALISTS IN POLAR SHIPPING

Over 30 years providing ice-strengthened ships for expeditions to the Arctic and Antarctic - for charter - for purchase

Our service includes all other types of survey vessels

Contact: Polar Department, Wesfarmers (UK) Limited, Lowndes House  
1-9 City Road, London EC1Y 1AA. Telephone 01-628 3422. Telex 886819

Member of the Baltic Exchange

## ANNOUNCEMENTS

*POLAR RECORD* BACK NUMBERS 1931-87 (1-147) are available from Bluntisham Books, Oak House, East Street, Bluntisham PE17 3LS, UK, Tel (1487) 840 449. Prices: Pre-1982 (1-129) £2.50 each; 1982-85 (130-141) £5.00 each; 1986-87 (142-47) £10.00 each. Postage extra.

CARLETON UNIVERSITY FIELD TRAINING COURSE ON GLACIOLOGY AND GLACIER HYDROLOGY, Place Glacier, Coastal Mountains, BC, Canada, 25 Jul-5 Aug 1988. Dr Gunnar Ostrem (Norwegian Water Resources and Energy administration) will lead this course in field techniques, data collection and analysis as applied to behaviour of glaciers, water release, effects of climate and influence of glaciers on topographic and other environmental factors. Relevant for hydrologists, geographers, civil engineers in environmental, geotechnical or resource development etc; credit or non-credit. Contact F. Frankling, Geotechnical Science Laboratories, Geography Dept., Carleton University, Ottawa K1S 5B6 Canada, Tel. (613)564-4424.

Charge for announcements: £2.00 per line

## ADVERTISING IN *Polar Record*

Quarter page (118 x 81 mm) : £50.00 (US\$90.00)

Half page (240 x 81 mm or 118 x 165) : £70.00 (US\$130.00)

Whole page (240 mm x 165 mm) : £100.00 (US\$180.00)

Flier (A4 or A5) : £100.00 (US\$180.00)

Announcements: £2.00 per column line

VAT of 15% is payable on all UK orders. Please send payment or an official order form with your order. There are negotiable discounts for running the same advertisement in three successive issues. We make up advertisements and fliers (from £20.00) and print fliers (from £50.00) by arrangement.

# THE ICE

*A Journey to Antarctica*

Stephen J. Pyne

Combines a geophysical examination of the ice with an inspirational survey of how one of the most alien landscapes of our planet has shaped and affected man's life on earth throughout the ages.

'sheer compelling significance'

*Ruth Kirk, The New York Times*

'successful and well worth reading'

*David Rootes, Scott Polar Research Institute*

'a scientist's Antarctica made intelligible for the layman... most enjoyable'

*Sir Ranulph Fiennes*

Available from Arlington Books Ltd  
15-17 King Street, London SW1Y 6QU  
£12.95

# ANTARCTIC BIBLIOGRAPHY

with particular reference to the legal and political issues of co-operation and the regime on mineral resources compiled by

**Francisco Orrego  
Vicuña**

An up-to-date reference source covering the broad spectrum of Antarctic co-operation, with special emphasis on the regime on mineral resources currently being negotiated, and other resource regimes, under the Antarctic Treaty System

Published by the  
Institute of International Studies  
of the University of Chile  
1987

## PIPELINES AND PERMAFROST

Science in a cold climate

Enlarged, updated edition

Carleton University Press, Ottawa, Canada  
137 pp illustrated. ISBN 0-88629-056-2

When the giant oil and gas projects for the Arctic regions were proposed in the seventies, knowledge of the natural conditions proved deficient—particularly concerning the behaviour of the freezing soils. The manner in which this came to light, the consequences and the implications politically and internationally, make a fascinating story.

"a genuine ... thriller on a highly controversial issue." *New Civil Engineer*

"Who should read Pipelines and Permafrost? Every politician who has to make a pipeline-related decision, every journalist ..." *Northern Engineer*

"... un excellent ouvrage de vulgarisation" *Annales de Géographie*

"... peels back the layers of knowledge ... lucidly ... without jargon or formulae"  
*Offshore Engineer*

AVAILABLE FROM OXFORD UNIVERSITY PRESS CANADA, 70 Wynford Drive,  
Don Mills, Ont., Canada M3C 1J9 or through your bookseller, £5.95 approx.

# Geological Magazine

**Editors: W. B. Harland, C. P. Hughes and R. S. Sparks**  
*Department of Earth Sciences, Cambridge*

*The Geological Magazine* is the earth sciences periodical subscribed to by universities, institutes and serious geologists worldwide. It has the tradition of publishing papers of real scientific merit by established authors famous for their research and controversial ideas. The complete spectrum of geological topics is covered by a collection of articles, essay reviews, correspondence and book reviews. The journal has a large format and articles are complimented by numerous diagrams, maps, photographs and photomicrographs.

**Recent Papers Have Included:**

**CRIMES, T. P.**

Trace fossils and correlation of late Precambrian and early Cambrian strata

**NICHOLS, G. J.**

Syntectonic alluvial fan sedimentation, southern Pyrenees

**MURPHY, F. C.**

Late Caledonian granitoids and timing of deformation in the lapetus suture zone of eastern Ireland

**WANG FUXING**

Palaeoenvironmental setting of the Kangdian area, southwest China, in Proterozoic Datian Meidang time

**TIPPER, J. C.**

On the directional nature of stratigraphic correlation

**COOPER, D. J. W.**

Hamrat Duru Group: revised stratigraphy of a Mesozoic deep-water passive margin in the Oman Mountains

**CORRESPONDENCE AND NOTES**

Systematic status of *Pseudohibolites* Blüthgen, 1936 (Belemnitida, Coleoidea) from Kong Karls Land, Svalbard: P. DOYLE

Skeletal microfauna of Meishucunian and Qiongzhusian (Precambrian-boundary) age from the Grange Valley, Lesser Himalaya, India: G. KUMAR, D. K. BHATT & B. K. RAINA

Supposed Precambrian trace fossils from Jersey, Channel Islands: B. H. BLAND, G. EVANS, R. GOLDRING, A. E. MOURANT, J. T. RENOUF & A. D. SQUIRE

**ESSAY REVIEW**

**W. B. HARLAND**

## Journal of The Marine Biological Association of the United Kingdom

Published for the Marine Biological Association of the United Kingdom

*Editor: E.J. Denton, CBE FRS - Director of the Marine Biological Laboratory, Plymouth.*

The Journal of Marine Biology publishes original research papers in marine biology including work on the taxonomy, morphology and life history of marine animals and plants. It announces the results of surveys, ecological and population studies of oceanic, coastal and shore communities in European and North Atlantic waters, and chemical and physical oceanographic work relating closely to the biological environment.

\*\*\*

Papers are also published on the rapidly developing techniques employed at sea for sampling, recording capture and observation of marine organisms, and chemical analysis of sea water. Papers are received from authors in many countries and distribution of the Journal is worldwide.

\*\*\*

### Papers of special interest;

A.R. Martin & M.R. Clarke. *The diet of Sperm Whales (Physeter macrocephalus) captured between Iceland and Greenland. Volume 66.4*

J. Davenport & A. Stene. *Freezing resistance, temperature and salinity tolerance in eggs, larvae and adults of capelin (Mallotus villosus), from Balsfjord. Volume 66.1*

J. Davenport & e. Kjorsvik. *Buoyancy in the lump-sucker (Cyclopterus lumpus). 66.1*

These back volumes may be ordered from the address below. 1988 subscriptions for volume 68; £122 (\$265), per part £34 (\$73), airmail £23 extra. Cheques payable to Cambridge University Press. To subscribe, send payment to;

The Journals Publicity Department,  
Cambridge University Press,  
The Edinburgh Building,  
Shaftesbury Road,  
Cambridge CB2 2RU.

## From Woods Hole Oceanographic Institution, a journal devoted to Marine Science and Policy

(distributed by Cambridge University Press):

### Oceanus

edited by Paul Ryan

Oceanus is published quarterly by Woods Hole Oceanographic Institution, one of the most active and reputable centres of ocean sciences in the world; thus it is in a unique position to monitor significant ocean research and marine policy worldwide. Every issue of Oceanus contains articles written by the world's leading marine scientists. Articles that will keep you up-to-date and inform you of all the latest developments in areas that interest you.

Subscriptions for 1988 (volume 31) are only £20 for individuals and £37 for institutions - to obtain your copy, send payment to the address below (cheques payable to Cambridge University Press)

To subscribe, send payment to;

England.

Still available - Vol. 29:1

### The Arctic Ocean

Its frozen. Its remote. But, scientists, the military, lawyers, corporations, governments and investors are paying particular attention to the Arctic. Some call it a stampede. Find out who, why, and what it means.

Topics include exploration, U.S and Soviet security, sea ice, climate, shipping, pollution and policy.

*"For any one who loves the sea and whatever moves upon it, OCEANUS seems to me a 'must'. It is written for the layman, but its articles carry the authority of that great research institution at Woods Hole"*

SCIENCE EDITOR, NEW YORK TIMES.

### Advice to contributors

*Polar Record* publishes original articles (2000 to 8000 words) and notes (usually less than 2000 words) of current and historic polar interest. Manuscripts, maps and photographs are accepted on the understanding that they are original, do not infringe copyright, and are not currently being offered elsewhere. Receipt is acknowledged; manuscripts are submitted to referees and any rejected will normally be returned to the author within six to eight weeks. Where the subject matter is appropriate, the Editor is usually prepared to advise authors on ways of making their material acceptable.

**Presentation.** Typescripts should be double-spaced with 3 cm margins, on one side only of A4 or similar paper. Send two copies and keep one for reference. Give name, affiliation and address of each author on the title page, noting which author the Editor corresponds with. Follow the style of articles and notes in the most recent issue of *Polar Record*.

**Articles** should start with an abstract of 150–250 words and a table of major headings; secondary and tertiary headings are not listed. Indicate in margins where tables and illustrations fit. Footnotes are discouraged; places where they are considered essential are marked in text with a superscript number, and the footnotes are listed at the end before the References.

**Notes** are short articles, generally of less than 2000 words. They do not require an abstract or table of headings, but either the first or the final paragraph should summarize the content.

**References** (essential ones only, please) are cited in text; full references appear in the listing under References at the end; for forms of citations and references see the most recent issue of *Polar Record*. **Authors alone are responsible for the accuracy of their references.** References to privately printed or other unpublished reports and data are not accepted unless copies of the material are freely available from a named library or similar repository.

**Tables** should be kept as simple as possible and typed on separate sheets. They will normally be fitted across the single- or double-column page, only exceptionally lengthwise. Drawings, maps and diagrams must be of professional standard, with lettering and numbers pencilled in clearly. Authors may be charged for re-drawing if an illustration is inadequate. They should if possible allow for about one-third reduction in width to fit a column (8.2 cm) or page (16.5 cm).

**Photographs** (black and white only) that add substantially to the material are welcome. Glossy prints with high contrast, about one-third oversize, generally reproduce well.

ISSN 0032-2474

VOLUME 24 NUMBER 148 JANUARY 1988

## CONTENTS

### ARTICLES

- Attraction of polar bears *Ursus maritimus* to off-shore drilling sites in the Beaufort Sea.  
*I. Stirling* p 1
- Greenland: a country in transition. *T. Høyem* p 9
- Humpback whales *Megaptera novaeangliae* and southern right whales *Eubalaena australis* in Gerlache Strait, Antarctica. *G. S. Stone and W. M. Hamner* p 15
- The Soviet career of the schooner *Polar Bear*, 1925-28. *W. Barr* p 21
- Reindeer and caribou *Rangifer tarandus* in the wild and under pastoralism. *R. Paine*  
p 31
- Antarctic marine research in winter: the Winter Weddell Sea Project 1986. *G. Hempel*  
p 43
- Sea ice conditions during an early spring voyage in the eastern Weddell Sea, Antarctica.  
*H. Eicken, T. C. Grenfell and B. Stonehouse* p 49
- The Arctic portraits of Stephen Pearce. *I. R. Stone* p 55

### NOTES

- The Antarctic Minerals Regime negotiations. *P. J. Beck* p 59
- Early investigations of the Western Arctic: a symposium. *L. Titus* p 61
- Sources of error in investigating the food requirements of seals. *E. S. Nordøy and A. Schytte Blix* p 62
- Signatory governments of the Antarctic Treaty. *R. K. Headland* p 64
- Thirty-ninth Annual Meeting of the International Whaling Commission, June 1987. *G. P. Donovan* p 65
- Arctic swims. *W. R. Keatinge* p 67
- Soviet proposals for the Arctic: a policy declaration by Mr Gorbachev. *T. E. Armstrong*  
p 68

### CORRECTION p 69

### REVIEWS

- Antarctica: soils, weathering processes and environments. *L. B. Campbell and G. G. C. Claridge. R. Lewis Smith* p 70; Siberia: problems and prospects for regional development. *A. Wood* (editor). *G. Fondahl* p 70; Siberia and the Soviet far east: strategic dimensions in multinational perspective. *R. Swearingen* (editor). *G. Fondahl* p 70; Ship in the wilderness. *J. Snyder and K. Shackleton. B. Stonehouse* p 71; Wildlife and wilderness: an artist's world. *K. Shackleton. B. Stonehouse* p 71; Pipelines and permafrost: science in a cold climate. *P. J. Williams. A. Palmer* p 71; Taxonomy and biogeography of Macquarie Island seaweeds. *R. W. Ricker. R. K. Headland* p 72; Antarctic science. *D. W. H. Walton* (editor). *B. Stonehouse* p 72; Ice seamanship. *G. Q. Parnell. C. R. Elliott* p 73; The Antarctic Treaty system: law, politics and democracy. *J. D. Myrhe. P. Birnie* p 73; The Antarctic Treaty Regime: law, environment and resources. *G. D. Triggs* (editor). *P. Birnie* p 73; Brief reviews p 74

### IN BRIEF

- Bay of Whales disappears; Albert P. Crary Professorship of Physics; SPRI acquires head in bronze of R. W. Richards GC; Operations review of the Norman Wells Pipeline; Bottles in Antarctic seas; New Director for SPRI p 76
