# IRISH JOURNAL OF PSYCHOLOGICAL MEDICINE

Vol 11 No 1 March 1994 ISSN 0790-9667

## CONTENTS

### EDITORIAL

- An appreciation of Dr. Mark Hartman, founder and editor-in-chief of the Irish Journal of Psychological Medicine** .....4  
*Roy McClelland*

### ORIGINAL PAPERS

- The effects of relocation on long-stay psychiatric patients** .....5  
*Marie A Ferrari, Elizabeth A Corbett, Margaret M Cole, Brid Corkery, David F Dunne, Eugene Morgan, Marie O'Sullivan, Mary E Buckley*
- The clinical characteristics of patients with obsessive compulsive disorder: a descriptive study of an Irish sample** .....11  
*James V Lucey, Gerard Butcher, Anthony W Clare, Timothy G Dinan*
- Telephone consultancy in adolescent psychiatry: an audit** .....15  
*Declan Finnian Sheerin*

### CLINICAL AND BRIEF REPORTS

- Monosymptomatic hypochondriacal psychosis treated with paroxetine: a case report** .....21  
*J Justin Brophy*
- A liaison psychiatry experience of epilepsy** .....22  
*Alan P Byrne*
- Obsessive compulsive disorder and multiple sclerosis: a case report implicating serotonergic dysfunction** .....26  
*Aideen Freyne, Rory K Shelley*

- Depression in anabolic steroid withdrawal** .....27  
*Colin B Cowan*
- Musical hallucinosis: auditory Charles Bonnet syndrome?** .....29  
*Gary Hosty*
- Delusional disorder in tropical spastic paraparesis** .....30  
*Ahmed Mahmood, Anthony Brennan, Anne Stanley, Clive G Ballard, Athar Malik, Ramalingham NC Mohan*

- Canine Capgras** .....31  
*Barry Wright, Richard Mindham, Wendy Burn*

- Familial dementia with Pick's cells: a case report of probable familial Pick's disease** .....34  
*Fiona Gaughran, Catherine Keohane, Mary Buckley*

### PERSPECTIVE

- Presenting your results clearly in a scientific paper** .....39  
*Ronan M Conroy*

### PRACTICE REVIEWS

- Audit of new long-stay patients in a district general hospital** .....42  
*Mathew Kurian, Shobha George, Clive G Ballard, Ramalingham NC Mohan, Stuart Cumella*
- Attitudes of general practitioners to the psychiatric services** .....44  
*Liam Watters, Miriam Gannon, Denis Murphy*

### BOOK REVIEWS

- John Dunne Medal** .....51

# Bright prospects in mind

**LUSTRAL\***, a 5-HT re-uptake inhibitor designed with patients in mind, is now available to GPs.

**LUSTRAL** reduces depressive symptoms as effectively as amitriptyline in short-term therapy,<sup>1,2</sup> and prevents relapse and recurrence of depression.<sup>3</sup>

But unlike tricyclics, **LUSTRAL** does not burden patients with a high level of anticholinergic, cardiovascular or CNS side-effects.<sup>1-3</sup>

And with vulnerable patients in mind, **LUSTRAL** has low toxicity in overdose.<sup>4</sup>

**50mg once daily**

# LUSTRAL\*

sertraline

## Taking care of depressed patients

**Abbreviated Prescribing Information: LUSTRAL (sertraline)**

**Indications:** Treatment of symptoms of depressive illness. Prevention of relapse or recurrence of depressive episodes. **Dosage:** LUSTRAL should be given as a single daily dose with food. The initial dose is 50mg and the usual therapeutic dose is 50mg or 100mg daily. Dosage can be further increased, if appropriate, to 150mg or a maximum of 200mg daily. Patients should be maintained on the lowest effective dose. **Use in children:** Not recommended. **Use in the elderly:** Usual adult dose. **Contra-indications:** Sensitivity to LUSTRAL. Hepatic insufficiency, unstable epilepsy and convulsant disorders, pregnancy and lactation. Do not use with, or within two weeks of ending treatment with, MAOIs. At least 7 days should elapse before starting any MAOI following discontinuation of LUSTRAL. **Precautions, Warnings:** Renal insufficiency, ECT, epilepsy, driving. LUSTRAL should not be administered with benzodiazepines or other tranquilizers in patients who drive or operate machinery. The patient should be monitored for signs of suicide or mania. LUSTRAL has not been observed to produce dependence. **Drug Interactions:** Administer with caution in combination

with other centrally active medication (e.g. lithium, tryptophan). Although LUSTRAL has been shown to have no adverse interaction with alcohol, concomitant use with alcohol is not recommended. The potential for LUSTRAL to interact with other highly protein bound drugs should be borne in mind. The potential of LUSTRAL to interact with e.g. propranolol and phenytoin has not been fully assessed. **Side-Effects:** Dry mouth, nausea, diarrhoea/loose stools, ejaculatory delay, tremor, increased sweating and dyspepsia. **Legal Category:** S1A. **Package Quantities:** 50mg tablet (PA 19/46/4) Calendar pack of 28; 100mg tablet (PA 19/46/5) Calendar pack of 28. **References:** 1.
