

# British Journal of Nutrition

Published online by Cambridge University Press

**BJN** An International Journal of Nutritional Science

Volume 102 Number 1 14 July 2009

Published on behalf of The Nutrition Society by Cambridge University Press

ISSN 0007-1145

**Aims and Scope**

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at [journals.cambridge.org/bjn](http://journals.cambridge.org/bjn)

Tables of contents and abstracts are available free at the same website.

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: [office@nutsoc.org.uk](mailto:office@nutsoc.org.uk)

## Contents

**Editorial**

- Participating in peer review is both a privilege and a professional duty.  
P. C. Calder 1–2

**Short Communication**

- Effects of *Enterococcus* sp. isolated from deep seawater on inhibition of allergic responses in mice.  
M. Kondoh, A. Hayashi, M. Okamori, C. Motonaga, T. Enomoto, L. Cheng & T. Shimada 3–7

**Nutritional Genomics**

- Genetic lactase non-persistence, consumption of milk products and intakes of milk nutrients in Finns from childhood to young adulthood.  
M. M. L. Laaksonen, V. Mikkilä, L. Räsänen, R. Rontu, T. J. Lehtimäki, J. S. A. Viikari, O. T. Raitakari & the Cardiovascular Risk in Young Finns Study Group 8–17

**Molecular Nutrition**

- Copper deficiency in rodents alters dopamine  $\beta$ -mono-oxygenase activity, mRNA and protein level.  
K. T. Nelson & J. R. Prohaska 18–28
- A comparison of the effects of soya isoflavonoids and fish oil on cell proliferation, apoptosis and the expression of oestrogen receptors  $\alpha$  and  $\beta$  in the mammary gland and colon of the rat.  
F. Kramer, I. T. Johnson, J. F. Doleman & E. K. Lund 29–36

**Metabolism and Metabolic Studies**

- Protein level affects the relative lysine requirement of growing rainbow trout (*Oncorhynchus mykiss*) fry.  
N. Bodin, B. Govaerts, T. Abboudi, C. Detavernier, S. De Saeger, Y. Larondelle & X. Rollin 37–53
- Pomegranate seed oil consumption during a period of high-fat feeding reduces weight gain and reduces type 2 diabetes risk in CD-1 mice.  
B. K. McFarlin, K. A. Strohacker & M. L. Kuehl 54–59
- Soya protein reverses dyslipidaemia and the altered capacity of insulin-stimulated glucose utilization in the skeletal muscle of sucrose-rich diet-fed rats.  
M. E. Oliva, A. G. Chicco & Y. B. Lombardo 60–68
- Fatty acid metabolism (desaturation, elongation and  $\beta$ -oxidation) in rainbow trout fed fish oil- or linseed oil-based diets.  
G. M. Turchini & D. S. Francis 69–81
- Ruminal biohydrogenation as affected by tannins *in vitro*.  
V. Vasta, H. P. S. Makkar, M. Mele & A. Priolo 82–92
- Influence of dietary phytosterols and phytosteranols on diastolic blood pressure and the expression of blood pressure regulatory genes in SHRSP and WKY inbred rats.  
Q. Chen, H. Gruber, E. Swist, C. Pakenham, W. M. N. Ratnayake & K. A. Scoggan 93–101
- Attenuation of diabetic complications by C-phycoerythrin in rats: antioxidant activity of C-phycoerythrin including copper-induced lipoprotein and serum oxidation.  
B. Soni, N. P. Visavadiya & D. Madamwar 102–109
- Effects of creatine supplementation on homocysteine levels and lipid peroxidation in rats.  
R. Deminice, G. V. Portari, H. Vannucchi & A. A. Jordao 110–116
- The thickness of the intestinal mucous layer in the colon of rats fed various sources of non-digestible carbohydrates is positively correlated with the pool of SCFA but negatively correlated with the proportion of butyric acid in digesta.  
M. S. Hedemann, P. K. Theil & K. E. B. Knudsen 117–125

**Nutritional Immunology**

- Anti-inflammatory effect of lycopene on carrageenan-induced paw oedema and hepatic ischaemia–reperfusion in the rat.  
L. Bignotto, J. Rocha, B. Sepodes, M. Eduardo-Figueira, R. Pinto, M. Chaud, J. de Carvalho, H. Moreno & H. Mota-Filipe 126–133

**Human and Clinical Nutrition**

- Platelet aggregation, eicosanoid production and thrombogenic ratio in individuals at high cardiovascular risk consuming meat enriched in walnut paste. A crossover, placebo-controlled study.  
A. Canales, S. Bastida, J. Librelotto, M. Nus, F. J. Sánchez-Muniz & J. Benedi 134–141
- Impact of nutritional status at the onset of elementary school on academic aptitude test achievement at the end of high school in a multicausal approach.  
D. M. Ivanovic, M. d. P. N. Rodríguez, H. T. Pérez, J. A. Alvear, A. F. Almagià, T. D. Toro, M. S. C. Urrutia, A. L. Cruz & R. M. Ivanovic 142–154

Validity of resting energy expenditure estimated by an activity monitor compared to indirect calorimetry. <i>J. E. Dellava &amp; D. J. Hoffman</i>	155–159
Acute consumption of fish oil improves postprandial VLDL profiles in healthy men aged 50–65 years. <i>G. C. Burdge, J. Powell, T. Dadd, D. Talbot, J. Civil &amp; P. C. Calder</i>	160–165
<b><i>Dietary Survey and Nutritional Epidemiology</i></b>	
Food balance sheet and household budget survey dietary data and mortality patterns in Europe. <i>A. Naska, M.-A. Berg, C. Cuadrado, H. Freisling, K. Gedrich, M. Gregorič, C. Kelleher, E. Leskova, M. Nelson, L. Pace, A.-M. Remaut, S. Rodrigues, W. Sekula, M. Sjöström, K. Trygg, A. Turrini, J. L. Volatier, G. Zajkas, A. Trichopoulou &amp; on behalf of Data Food Networking (DAFNE) participants</i>	166–171
