CAWSTON, F. GORDON. Recent progress in the cure of bilharzia disease in South Africa	1
REDIKORZEV, V. A parasite of <i>Sciuropterus volans</i> L. (With 1 Figure in the Text)	4
BERGHE, LOUIS VAN DEN. On a new coccidium, <i>Eimeria raiaarum</i> sp.n., with special reference to the biology of the oocysts. (With Plate I and 1 Figure in the Text)	7
DUKE, H. LYNDBURST. Studies of the effect on <i>T. gambiense</i> and <i>T. rhodesiense</i> of prolonged maintenance in mammals other than man; with special reference to the power of these trypanosomes to infect man. V. The effect of prolonged maintenance away from man on the infectivity of <i>T. rhodesiense</i> for man	12
DUKE, H. LYNDBURST. Studies of the effect on <i>T. gambiense</i> and <i>T. rhodesiense</i> of prolonged maintenance in mammals other than man; with special reference to the power of these trypanosomes to infect man. VI. Strain "Kahondera" from Southern Rhodesia, and concluding observations on this series of papers	35
HOARE, CECIL A. and BENNETT, S. C. J. Morphological and taxonomic studies on mammalian trypanosomes. III. Spontaneous occurrence of strains of <i>Trypanosoma evansi</i> devoid of the Kinetonucleus. (With 1 Map and 7 Text-figures)	43
BISHOP, ANN. Further observations upon <i>Entamoeba aulastomi</i> Nöller. (With Plates II and III, containing Figs. 1-54)	57
SMITH, KENNETH M. Studies on a virus found in the roots of certain normal-looking plants. (With Plates IV and V and 1 Figure in the Text)	70
SMITH, KENNETH M. Further studies on a virus found in the roots of certain normal-looking plants. (With Plate VI)	86
HADDOW, A. J., and THOMSON, R. C. MUIRHEAD. Sheep myiasis in south-west Scotland, with special reference to the species involved. (With 3 Figures in the Text)	96
RAY, HARENDRA NATH and DAS GUPTA, MATIRANJAN. A new coccidian, <i>Wenyonella hoareï</i> n.sp. from an Indian Squirrel. (With Plate VII, containing Figs. 1-19)	117
BAYLIS, H. A. On the ascariids parasitic in seals, with special reference to the genus <i>Contracaecum</i> . (With 5 Figures in the Text)	121
MELLANBY, HELEN. Experimental work on reproduction in the tsetse fly, <i>Glossina palpalis</i> . (With 2 Figures in the Text)	131
MELLANBY, KENNETH. The reproductive cycle in <i>Glossina morsitans</i> and <i>Glossina swynnertoni</i>	142

PARASITOLOGY is published about four times a year. The numbers afterwards are issued in volumes each containing four numbers.

Papers for publication should be sent to Professor D. KEELIN, Sc.D., F.R.S., Molteno Institute, Downing Street, Cambridge. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editors for publication are understood to be offered to *PARASITOLOGY* alone, unless the contrary is stated.

Contributors receive twenty-five copies of their papers free. Additional copies, not exceeding one hundred (except in special cases), may be had at cost price: these should be ordered when the final proof is returned.

The subscription price is £2. 15s. per volume (post-free), payable in advance; single numbers 18s. 6d. net (double number 37s. net). Subscriptions may be sent to any Bookseller, or to The Cambridge University Press, Fetter Lane, London, E.C. 4.

The Cambridge University Press has appointed the University of Chicago Press agent for the sale of *Parasitology* in the United States of America.
