ISSN 0004-9727

# BULLETIN Volume 20 (1979)
# of the Australian Mathematical Society
## Number 2

"Please note a variation in the intended rate of production of the Bulletin. ONLY ONE volume (volume 20) will be published in 1979, although subscribers paid for two volumes (volumes 20 and 21). This change will be rectified in 1980 when volumes 21 and 22 will appear AND subscribers will be charged for VOLUME 22 ONLY in respect of that year.
We much regret any inconvenience caused to our customers by the above re-scheduling, and would like to emphasize that these changes have been made necessary by causes beyond our control".

| | | |
|---|---|---|
| V. N. Singh | *The inverse of a certain block matrix* | 161 |
| Shalom Feigelstock | *The additive groups of subdirectly irreducible rings* | 165 |
| Peter E. Kloeden | *On Sharkovsky's cycle coexistence ordering* | 171 |
| P. Srivastava and S. C. Srivastava | *Fixed point theorems for nonexpansive mappings in a locally convex space* | 179 |
| John M. S. Rassias | *Weak and semi-strong solutions of the Schneider-Tricomi problem in the euclidean plane* | 187 |
| Ivan Singer | *A Fenchel-Rockafellar type duality theorem for maximization* | 193 |
| Andre de Korvin and Charles E. Roberts, Jr | *Interchange of vector valued integrals when the measures are Bochner or Pettis indefinite integrals* | 199 |
| J. P. Glass | *Bitangents of plane quartics* | 207 |
| V. K. Srinivasan | *On some Gelfand-Mazur like theorems in Banach algebras* | 211 |
| John M. S. Rassias | *A uniqueness theorem for the Chaplygin-Frankl problem* | 217 |
| Sribatsa Nanda and Ujagar Patel | *A nonlinear complementarity problem for monotone functions* | 227 |
| Sribatsa Nanda and Sudarsan Nanda | *A nonlinear complementarity problem in mathematical programming in Hilbert space* | 233 |
| P. R. Scott | *A family of inequalities for convex sets* | 237 |
| V. K. Srinivasan and Hu Shaing | *A theorem in Banach algebras and its applications* | 247 |
| E. N. Dancer and Brailey Sims | *Weak star separability* | 253 |
| B. J. Gardner | *The lower radical construction for non-associative rings: Examples and counterexamples* | 259 |
| M. Adelman | *Points in topoi of sheaves over distributive lattices* | 273 |
| George M. Rassias | *On the Morse-Smale characteristic of a differentiable manifold* | 281 |
| David T. Yost | *On geometric duality for state-constrained control problems* | 301 |
| T. R. Jefferson and G. H. Scott | *Best approximation and intersections of balls in Banach spaces* | 285 |
| Abstracts of Australasian PhD theses | | |
| G. R. Pain | *Normal Fitting classes of finite groups* | 313 |
| Graeme William King | *Computation of lateral hydrodynamic forces during ship interactions in shallow water* | 317 |
| E. M. Casling | *Slender planing surfaces* | 319 |

**BULLETIN OF THE AUSTRALIAN MATHEMATICAL SOCIETY**

Editor: Sidney A. Morris (from Volume 21)
Deputy Editor: K. R. Pearson

Honorary Editor: B. H. Neumann

**Associate Editors**

R. S. Anderssen
A. L. Andrew
B. D. Craven
B. A. Davey
Gary Davis
J. R. J. Groves
D. A. Holton
David C. Hunt
J. S. Maritz
Rodney Nillsen
A. J. van der Poorten
Ian Robinson
R. F. C. Walters
J. H. Rubinstein
Leon Simon
G. Szekeres
D. G. Tacon
C. J. Thompson
H. B. Thompson

**Assistant Editors**

R. S. Anderssen
M. S. Brooks

## INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Manuscripts must be in their final, publishable form when submitted, and no revision of manuscripts will be allowed. Each paper (which is not itself an abstract) must include an abstract of not more than 200 words.

Authors should submit THREE clean, high quality copies to

The Editor,
Bulletin of the Australian Mathematical Society,
Department of Pure Mathematics,
La Trobe University,
Bundoora, Victoria 3083, Australia.

Authors should retain the original typescript of their papers.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after being evaluated by the Editor and an Associate Editor or another expert. However some meritorious papers will have to be rejected because speed of publication involves space limitations. Papers are welcomed in which

(i) the results are interesting and (except in the case of an expository paper) new,
(ii) the exposition is clear and attractive, and
(iii) the manuscript is in publishable form, without revision.

Responsibility for the correctness of results published in the BULLETIN remains with the author(s).

Details of editorial policy are listed on the inside back cover.
