New Online Manuscript Submission System Goes Live!

Introducing Editorial Manager®

The Society for American Archaeology is pleased to announce the launch of a new online manuscript submission and tracking system, Editorial Manager®, for *Latin American Antiquity*. Editorial Manager is a Web-based manuscript submission and peer review system developed by Aries Systems Corporation for scholarly journals, reference works, and conference proceedings; more than 3,000 publications currently use workflow solutions from Aries Systems.

Editorial Manager is simple to use, and tutorials and instructions are available to acquaint authors and reviewers with the procedures. Using the system, authors submit original and revised manuscripts, editorial staff send manuscripts out for peer review, reviewers conduct reviews and return comments, and editors make final decisions.

Authors are now required to use Editorial Manager for all submissions of new manuscripts.

For *Latin American Antiquity*, the system can be accessed at <http://www.editorialmanager.com/laq>.
