Life Sciences
Books and Journals from Cambridge University Press

Cambridge is one of the leading publishers in ecology and conservation biology and publishes high quality texts and research across the breadth of the life sciences, focusing particularly on animal behaviour, biological anthropology, evolutionary biology, computational and systems biology, as well as statistics and professional development titles for biologists.

We also have an extensive portfolio of established journals in agriculture, ecology and conservation, and animal science.

For further details visit: cambridge.org/core-life-sciences
The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

The institutional rates (excluding VAT) are:

This journal is published 6 times per year.

Twin Research and Human Genetics

The title Twin Research and Human Genetics was adopted from the beginning of Volume 8 in 2005 and is a translation of Acta Geneticae Medicae et Gemellologiae. Luigi Gedda’s predecessor, Medicae et Gemellologiae, which was founded in 1952 by Luigi Gedda. He edited it until its cessation in 1998, with Paolo Parisi as Acting Editor and then Executive Editor from 1968 to 1999. In 1999, the successor journal to ISTS when the society was established in 1974. The subtitle Twin Research was adopted in 1979. It was published by The Meridian Institute in Rome, except for the years 1979 to 1983, when it was published jointly with Alan R. Liss in New York.
