

## Scope and contributions

*International Psychogeriatrics* is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 1.93 (2014). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites ([journals.cambridge.org/ipg](http://journals.cambridge.org/ipg) and [www.ipa-online.org](http://www.ipa-online.org)).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website [journals.cambridge.org/ipg](http://journals.cambridge.org/ipg). Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

**Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.**

## Important Addresses

Office of the Editor-in-Chief  
Nicola T. Lautenschlager Editor-in-Chief,

## CONTENTS

- Guest Editorial 1053 Pre-existing cognitive impairment and post-operative cognitive dysfunction: should we be talking the same language?**  
Lisbeth Evered, Brendan Silbert and David A. Scott (Australia)
- Commentary 1057 Clarifying dementia risk factors: treading in murky waters**  
Halima Amjad and Esther S. Oh (USA)
- Paper of the Month 1059 Risk factors for dementia diagnosis in German primary care practices**  
Anke Booker (Germany), Louis EC Jacob (France), Michael Rapp, Jens Bohlken and Karel Kostev (Germany)
- Review Article 1067 Understanding the world of dementia. How do people with dementia experience the world?**  
Sandra A Zwijsen, Eva van der Ploeg and Cees M.P.M. Hertogh (the Netherlands)
- Original Research 1079 The biopsychosocial (BPS) model of dementia as a tool for clinical practice. A pilot study**  
**Articles**  
Catherine Revolta, Martin Orrell and Aimee Spector (UK)
- 1091 Evaluating the capabilities model of dementia care: a non-randomized controlled trial exploring resident quality of life and care staff attitudes and experiences**  
Wendy Moyle (Australia), Lorraine Venturato (Canada), Marie Cooke, Jenny Murfield, Susan Griffiths (Australia), Julian Hughes (UK) and Nathan Wolf (Australia)
- 1101 General life satisfaction predicts dementia in community living older adults: a prospective cohort study**  
Lorraine Peitsch, Suzanne L. Tyas, Verena H. Menec and Philip D. St. John (Canada)
- 1111 Examination of level of knowledge in Italian general practitioners attending an education session on diagnosis and management of the early stage of Alzheimer's disease: pass or fail?**  
Federica Veneziani, Francesco Panza, Vincenzo Solfrizzi, Rosa Capozzo, Maria Rosaria Barulli, Antonio Leo, Madia Lozupone, Andrea Fontana, Simona Arcuti, Massimiliano Copetti, Valentina Cardinali, Alessandra Grasso, Marianna Tursi, Annalisa Iurillo, Bruno Pietro Imbimbo, Davide Seripa and Giancarlo Logroscino (Italy)
- 1125 Cross-cultural study of caregiver burden for Alzheimer's disease in Japan and Taiwan: result from Dementia Research in Kumamoto and Tainan (DeReKaT)**  
Masateru Matsushita (Japan), Ming-Chyi Pai, Cai-Ying Jhou (Taiwan), Asuka Koyama and Manabu Ikeda (Japan)
- 1133 A path analysis of patient dependence and caregiver burden in Alzheimer's disease**  
J. Garre-Olmo, J. Vilalta-Franch, L. Calvó-Perxas, O. Turró-Garriga, L. Conde-Sala and S. López-Pousa, on behalf of the CoDep-AD Study Group (Spain)
- 1143 Regional functional synchronizations in dementia with Lewy bodies and Alzheimer's disease**  
Luis R. Peraza, Sean J. Colloby, Liam Deboys, John T. O'Brien, Marcus Kaiser and John-Paul Taylor (UK)
- 1153 Disease-specific anxiety symptomatology in Parkinson's disease**  
Nadeeka N. W. Dissanayaka, John D. O'Sullivan, Nancy A. Pachana, Rodney Marsh, Peter A. Silburn, Elizabeth X. White, Elizabeth Torbey, George D. Mellick, David A. Copland and Gerard J. Byrne (Australia)
- 1165 Facial emotion recognition and its relationship to cognition and depressive symptoms in patients with Parkinson's disease**  
J. Pietschnig, L. Schröder, I. Ratheiser, I. Kryspin-Exner, M. Pflüger, D. Moser, E. Auff, W. Pirker, G. Pusswald and J. Lehrner (Austria)
- 1181 Characteristics of neurocognitive functions in mild cognitive impairment with depression**  
Hyun-Seok Dong, Changsu Han, Sang Won Jeon, Seoyoung Yoon, Hyun-Ghang Jeong, Yu Jeong Huh, Chi-Un Pae (Korea), Ashwin A. Patkar and David C. Steffens (USA)
- 1191 Differences in depression between unknown diabetes and known diabetes: results from China health and retirement longitudinal study**  
Huaqing Liu (China), Xiaoyue Xu, John J. Hall (Australia), Xuesen Wu and Min Zhang (China)
- 1201 Antidepressant use and mortality in very old people**  
Gustaf Boström, Carl Hörnsten, Jon Brännström, Mia Conradsson, Peter Nordström, Per Allard, Yngve Gustafson and Håkan Littbrand (Sweden)
- 1211 Prevalence of psychotic symptoms among older adults in an Asian population**  
Mythily Subramaniam, Edimansyah Abdin, Janhavi Vaingankar, Louisa Picco, Shazana Shahwan, Anitha Jeyagurunathan, Yunjue Zhang, Swapna Verma and Siow Ann Chong (Singapore)
- 1221 Psychometric evaluation of the DMSS-4 in a cohort of elderly post-operative hip fracture patients with delirium**  
Dimitrios Adamis (Ireland), Rikie M. Scholtens, Annemarieke de Jonghe, Barbara C. van Munster, Sophia E.J.A. de Rooij (The Netherlands) and David J. Meagher, (Ireland)
