

Important Journals from Cambridge

Economic Policy

Editors: Georges de Menil and Richard Portes

Published on behalf of the Centre for Economic Policy Research and La Maison des Sciences de l'Homme, *Economic Policy* offers a uniquely independent, non-partisan European forum for analysis of topical issues in economics. Articles are commissioned

from leading international economists and policy advisers and are discussed by a panel of eminent economists whose comments in summary follow each paper. The journal discusses the entire range of macro- and microeconomic issues. *Two parts per year.*

Econometric Theory

Editor: Peter Phillips

Econometric Theory is an international journal dedicated to advancing theoretical research in econometrics. In addition to articles on original theoretical research, the journal publishes historical studies on the evolution of econometric thought. Each

issue contains a 'Problems and Solutions' section and publishes pedagogical papers dealing with educational issues and which discuss new approaches to teaching econometrics. *Three parts per year.*

Economics and Philosophy

Editors: Daniel M. Hausman and Michael S. McPherson

Papers in *Economics and Philosophy* explore the foundations of economics as both a predictive/explanatory enterprise and a normative one. They examine the relevance of economic techniques, methods

and conclusions to philosophical questions in ethics and social theory. The journal fosters collaboration between economists and philosophers and bridges the artificial boundaries between them. *Two parts a year.*
