

# PLASMON

## NATURE'S NUTRIENT.

Soluble, Digestible, Natural Albumen.  
Pure, Tasteless, Odourless, Nutritious, Cheap.

\*\*\*\*\*  
**PLASMON** is the only soluble Proteid or Albumen free from  
Chemicals—therefore highly digestible and safe.

**PLASMON** is the outcome of modern systematic research on proteids.

**PLASMON** is a highly concentrated milk proteid food of great  
merit. It is a soluble Albumen, and being prepared by a  
mechanical process only, is free from chemicals and therefore  
easily digested and safe.

\*\*\*\*\*  
**Professor W. PRAUSNITZ, M.D.**, Principal of the Hygienic Institute, and  
Principal of the State Department for Investigation of Food, said at the  
meeting of the German Scientific Association in Munich:

“Plasmon possesses the highest assimilative value known for any albumen food.

“There is no food preparation known to us equal to Plasmon, either as regards  
constancy of composition, as guaranteed by its source, or in respect to the proportion,  
solubility, and digestibility of the nutritive constituents.”

**Professor F. HOFMANN, M.D.**, Privy Medical Councillor and President of the  
Hygienic Institute, Leipzig University, says:

“The Plasmon taken fully replaced the albumen of ordinary meat diet.

“Plasmon is an albumen preserve which contains in a minimum space the  
maximum quantity of indispensable food.”

**Dr. G. VIRCHOW, of Berlin.** After a systematic trial of the nutrient value of  
Plasmon, including nineteen days' experiment upon himself, Dr. VIRCHOW  
expresses himself as follows:

“From my experience I can recommend the administration of Plasmon. Plasmon  
is an albumen preparation containing a very high proportion of nitrogen and ex-  
tremely digestible. As practical trials have demonstrated, *it can replace all other  
animal albumen foods and is superior even to meat in nutrient value.* Plasmon,  
moreover, maintains the physical strength of workmen engaged in the most  
laborious tasks, and therefore at its low price it can be strongly recommended as of  
inestimable value in the kitchens of the working classes.”

**Dr. W. CASPARI**, Physiological Institute of the German Board of Agriculture,  
says:

“The dietetic experiments show that more flesh is put on when dieted with  
Plasmon than with meat food.”—*FORSCHRITTE DER MEDICIN*, XVII, No. 19.

*A complete Pamphlet of Scientific Reports will be furnished on  
application, together with Free Samples, by*

**THE PLASMON SYNDICATE, LTD.,**  
56, DUKE STREET, GROSVENOR SQUARE, W.

## Male Nurses' (TEMPERANCE) Co-operation,

Only Address—10, THAYER STREET, MANCHESTER SQUARE, W.

Superior Trained MALE NURSES for Medical, Surgical, Mental, Dipsomania, Fever, and Travelling Cases supplied at a moment's notice, Day or Night. All Nurses supplied by this Association are TOTAL ABSTAINERS. SKILLED MASSEURS supplied. *The only Temperance Association of Nurses in the Kingdom.* Terms: £1 11s. 6d. to £2 2s. or upwards per week. Nurses to receive their own fees. F. ROUSE, Secretary.

*Telegraphic Address: "Assuaged, London." Telephone 538 Paddington.*

**CAUTION.**—Certain persons having no connection with this Association are copying our Business Cards and Advertisements, adding a different Address.

*Now ready, **Second Edition**, considerably enlarged (with additional chapters on "Special Instruction," etc.). Crown 8vo. Illustrated, 5s. net.*

**MENTALLY DEFICIENT CHILDREN: their Treatment and Training.**  
By G. E. SHUTTLEWORTH, B.A., M.D. etc., Medical Examiner of Defective Children, School Board for London; late Medical Superintendent, Royal Albert Asylum for Idiots and Imbeciles of the Northern Counties, Lancaster; formerly Assistant Medical Officer, Earlswood Asylum.

"Is a book that should be in the hands of all physicians, as well as those who have the special care of these defectives. . . . We commend the book cordially to our readers."—*Alienist and Neurologist*, April, 1900.

London: H. K. LEWIS, 136, Gower Street, W.C.  
Philadelphia: P. BLAKISTON, SON, & CO.

Specimens Post Free.		<b>John Bale, Sons, &amp; Danielsson,</b> <b>LIMITED,</b> 83—89, GREAT TITCHFIELD STREET, LONDON, W. BRAIN-DIAGRAMS, etc., for Clinical Records, etc. <b>Medical Printing and Illustrations a Speciality.</b> CONTRACTORS TO H.M. CIVIL MED. DEP.

ALWAYS USE

# REFLEX

## FLOOR POLISH

REQUIRES NO MIXING WHATEVER.

**Brilliantly Polishes Floors, Linoleums, Floorcloths, &c.**

*Economical, Cleanly, Healthful; Maximum of Lustre for Minimum of Labour.*

**GEO. T. COX & SONS, Ltd., 35, EASTCHEAP, E.C.**

*This Polish is specially adapted for use in Public Institutions and other large establishments. Samples Free on application.*

*All business communications relating to Advertisements to be addressed to  
Messrs. J. H. Booty & Son, 30, Holborn, E.C.*

Telegrams: "ATKINSON COMPANY, LONDON."

Telephone: 700 HOP.

# **ATKINSON & CO.,**

**GOVERNMENT CONTRACTORS,**

**198, 200, 202, 204, 206, 208, 210, 212,  
WESTMINSTER BRIDGE ROAD, LONDON,**

Have the honour to hold some of the largest Contracts in the Kingdom from Asylums, Unions, Hospitals, and Government Departments. The magnitude of their Contracts enables them to employ Manufacturers solely for their demands, thus affording a direct charge to the Consumer.

NUMEROUS SPECIALITIES IN

**HOSPITAL BEDSTEADS, CHAIRS, SEATS, MATTRESSES, LOCKERS,  
&c. &c.**

**NAPIER MATTING, LINOLEUMS, AND VARIOUS FLOOR COVERINGS**

Made in Special Widths and Qualities to meet exceptional wear.

**"ATKINSON'S" PINE FIBRE MATTRESS** is specially recommended because—

It is healthful—the faint odour of the pine is beneficial in catarrh and diseases of the lungs, and conduces to sleep.

It is antiseptic and vermin-proof—no insects will harbour in it.

It will not decay nor collect dampness, neither will it break up nor pack.

It is better than common hair or vegetable fibres that cost much more.

It is durable—found sweet and fresh thirteen years old.

PRICES ON APPLICATION.

**ATKINSON & CO.** undertake to supply any quantity of Goods as specified below by the quarter, half-year, or year, viz.:

**Bedsteads in Wood or Iron, Iron Bedsteads with Patent Spring Mesh Bottoms, Woven Wire and other Mattresses, Coir, Fibre, Horsehair, Flocks, and every other Material for Bedding.**

**Blankets, Bugs, Counterpanes.**

**Sheeting, Waterproof ditto.**

**Flannels, Calicoes, Prints, Woollen Cloths of all qualities.**

**Corduroys, Fustians, &c.**

**Men and Women's Under and Upper Clothing.**

**Ready-made Garments, in all Sizes and for both Sexes.**

**Hats, Caps, Bonnets, &c.**

**Hosiery and Haberdashery.**

**Uniforms, &c.**

**FURNITURE, CARPETS, and every Requisite supplied on the Shortest Notice for Board Rooms, Offices, Masters' Houses, &c.**

**ILLUSTRATED CATALOGUES AND ESTIMATES FREE.**

Secretaries and Clerks of Institutions are respectfully requested, when issuing Contracts, to forward a Form of Tender to ATKINSON & Co.

**SPECIAL CATALOGUE POST FREE ON APPLICATION.**

*All business communications relating to Advertisements to be addressed to Messrs. J. H. Booty & Son, 30, Holborn, E.C.*

# THE THYROID TREATMENT

and the Preparations Manufactured by  
**ALLEN & HANBURY'S LTD.**

**Myxœdema.**—The relief afforded to cases of Myxœdema by the use of the Thyroid Gland during the last five years has marked a totally new departure in the history of medicine. We are beginning to understand the physiological importance of Internal Secretions to the animal economy.

Myxœdema has been recognised as long ago as 1874 by Sir Wm. Gull as a distinct disease, and before that time it had been found that animals invariably succumbed after total extirpation of the Thyroid.

Cretinism, too, had long been recognised to be connected with congenital absence or deficiency in the glandular structure of the Thyroid.

Time enough has now elapsed to prove that those cases of Myxœdema which have been restored to health maintain that condition as long as they continue to take the gland or efficient preparation of its extract.

**Sporadic Cretinism.**—As regards Sporadic Cretinism, we cannot do better than refer the reader to an original article which appeared in the *Lancet*, with Photographs, by W. W. O.—M.D. Oxon., M.R.C.P. London, November 4th, 1893, p. 1113.

All these cases were treated by Allen and Hanburys' Thyroidin Tablets. The results are perhaps more remarkable than those obtained in the allied condition of Myxœdema. The writer observes that these Preparations have given entire satisfaction. The Photographs speak for themselves.

The success attending the use of Thyroid Extract in the Myxœdematous condition of the skin and its appendages has suggested its employment in various skin lesions.

**Psoriasis.**—Very good results have been attained in some cases of obstinate psoriasis by using Thyroidin Tablets.

In a recent number of the *Lancet* three of these cases are reported. After treatment with iodide of potassium and arsenic internally, and chrysophanic acid ointment locally, showed no improvement, but, on the other hand, the disorder was in some cases aggravated, developing a general dermatitis of the face with febrile disturbance.

But on the treatment being changed, and TABLETS OF THYROID GLAND (ALLEN AND HANBURY'S) being administered, the writer observes:

Case 1.—“The improvement was very striking. . . the scales were completely gone, and all that was left was a slight discoloration of the skin where the disease had appeared.”

Case 2.—“The scalp and limbs were nearly clear. . . The patient, who has suffered from the disease for nineteen years past, has had no discomfort from the remedy, and says that nothing has ever acted so rapidly upon his disease.”

Case 3.—“The result was astonishing, for in three days there was a marked improvement, and no further spread of the disease had taken place. No discomfort was experienced from the remedy.”

For full details of the above quotations see the *Lancet*, January 6th, 1894, p. 19.

Whilst formerly liquid extracts and the raw gland were used, ALLEN AND HANBURY'S were the first to offer the active principles of the Thyroid Gland in the compressed form, which is now the favourite mode of administration. The glands are dissected and carefully examined and separated from all blood, fat, and inert tissue, which readily decompose and produce gastric disturbances, vomiting, &c., and which give to some preparations on the market a most repulsive smell, especially when they have been kept for a short time.

## THYROIDIN TABLETS

Readily disintegrate when swallowed, and from their shape and size are taken without difficulty. If preferred, they may be dissolved in a little water before being swallowed.

One Tablet equals 5 grs. of Gland. Dose: 1 or 2.

## THYROIDIN CACHETS

Contain 5 grs. of Thyroidin in each. Dose: 1 or 2. A very suitable and convenient mode of taking Thyroidin.

## ELIXIR THYROIDIN

Is a very palatable, slightly sweet preparation, of which one fluid ounce represents one Gland (average). It will be found to keep well without change. Dose: 1 to 4 fluid drachms.

The above are put up in 1s., 2s. 6d., and 4s. 6d. packages (retail), or 8s., 21s., and 40s. per doz. to the Profession.

SAMPLES SUPPLIED TO THE PROFESSION ON APPLICATION.

**ALLEN & HANBURY'S LTD.,**  
Plough Court, Lombard Street, LONDON.

**DR. HEPBURN'S IMPROVED  
CRANIOMETER CALIPERS (PATENT).**

For Segmenting Cranial Diameters in connection with Craniometry; and for determining the exact amount of Cranial Asymmetry in the Post-mortem Room.

The Instrument is well finished in brass, nickel-plated. The graduated bar is of German silver.

**Price Complete £3 10s.**

Full particulars from  
the Sole Maker—

**ANDREW H. BAIRD,**  
Scientific Instrument Maker, 37 to 39, Lothian Street, Edinburgh.

**COMPRESSED PAPER FANCY AND HOUSEHOLD GOODS.**

Leading Doctors of Lunatic Asylums who have tested these goods and found same most satisfactory and suitable for use in asylums (copies of their testimonials on inquiry) request us strongly to advertise our

**COMPRESSED PAPER FLOWER POTS, VASES, WALL  
PLAQUES, TRAYS, and GENERAL FANCY GOODS**

in High-class Ornamental Finishes, or plain suitable for Oil-painting purposes.

*These articles are highly recommended for decorative purposes in Asylums.*

**COMPRESSED PAPER HOUSEHOLD GOODS, BASINS, JUGS,  
BUCKETS, TUBS, etc., stamped out in one piece.**

SPECIALITY: CHAMBERS WITH OR WITHOUT HANDLES.

**BY USING THESE ARTICLES ALL ACCIDENTS ARE PREVENTED**

*The goods are perfectly acid proof, almost indestructible, and wash like china.*

**SAMPLE ORDERS PROMPTLY EXECUTED.**

For further particulars please write to

**C. BOST & MATTING,  
33, RENFIELD STREET, GLASGOW.**
