To the Rescue

NEW **ZOLL M** Series Defibrillator Monitor Pacemaker

Smaller. Lighter. Brighter. And Really Tough.

Life on the road is rough. You need a defibrillator that can handle it. Lightweight. Fast and ready. You need the M Series. Eleven pounds of power. Packaged to meet rigorous military design standards. With an FED display that is unmatched. View it from any angle. In any light. Anywhere. The M Series Defibrillator Monitor Pacemaker. New from ZOLL. Take it on the road. **Call 800-348-9011** or visit www.zoll.com

13th World Congress on Disaster+Emergency Medicine

Melbourne, Australia
6 - 10 May 2003

www.wcdem2003.com

WADEM invites practitioners, researchers, educators, administrators and government officials involved in disaster medicine, from the perspectives of pre-hospital care, emergency medicine, disaster planning and relief, military or humanitarian medicine, to Melbourne for WCDEM-13. You will have an opportunity to benefit from stimulating and informative scientific sessions, workshops, networking and the associated social events.

The Congress Program will explore and contribute to the WADEM Task Forces:

- + Disaster Planning
- + Refugees & Displaced Populations
- + Medical Response to Terrorism
- + Emerging Infections
- + Disaster Public Health
- + Psychosocial Aspects of Disasters
- + NBC Hazards
- + Landmines
- + Children in Disasters

Main Congress themes will also include:

- + WADEM's Utstein Template for evaluating disaster management response
- + Recent international emergencies and disasters
- + Natural disasters and disaster medicine in the Oceania region
- + Effective models for international and inter-disciplinary responses in emergencies and disasters
- + The role of military health teams in emergencies and disasters
- + Telehealth and communication technologies in disasters
- + Bio-ethics in disasters
- + Mass Gatherings
- + Research, education, information/data clearing houses and new technologies in disaster medicine
- + Focused sessions for nurses, paramedics, fire and rescue personnel, local government officials and emergency services volunteers

Register your interest, obtain more information and submission dates for abstracts at www.wcdem2003.com

Organization of Scientific Papers

Abstract—Concise summaries in the following format: **Introduction:** need for the study; **Hypothesis:** what was tested (experimental studies only) If qualitative, statement of problem addressed; **Methods:** summary of methods used with subsections as appropriate (type of subjects, number of subjects, study design, statistical tests; **Results:** summary of principal findings; **Conclusion:** implications of findings. If the work is qualitative, the types of instruments used and the scope and type of work must be annotated. If a disaster is involved, the dates, type, scope, location, and numbers of casualties and deaths must be summarized in tabular form for indexing. Do not exceed 375 words.

Introduction—Provide justification for the effort with appropriate references annotated. If quantitative, the concluding sentence should define the hypothesis. If qualitative, the problem should be stated clearly.

Methods—Descriptive to a degree that other investigators would be able to reproduce the study. Statistical methods used must be annotated. Approval by an Institutional Review Committee must be included when appropriate.

Results—Results must be written in text and may be accompanied by tables and figures. The text must explain all data included in tables and figures, but should not be unnecessarily redundant. All direct results from the study must appear in this section. No discussion of the results may be included.

Discussion—The Discussion should provide an interpretation of the Results in terms of meaning and application. Results should not be repeated. Computations or extrapolations that may help explain the results may be provided. Limitations of the study should be defined and suggestions for future research should be included. References that support or negate explanations provided are appropriate.

Conclusion—The findings in terms of implications for the practice of prehospital, emergency, and/or disaster (humanitarian) medicine should be summarized in a few sentences.

General Submission Requirements

Manuscripts—Manuscripts are preferred in electronic form (disk, CD, or e-mail) with a cover letter, cover page and manuscript. However, if electronic format is not available, we will accept manuscripts in paper form only. Electronic format: the cover letter, cover page, and manuscript should be sent as separate electronic files on one diskette or CD in WordPerfect or Word as Rich text Format (RTF) files. Please label the diskette or CD and include the paper's title and the primary author's surname. Electronic files may be submitted to our office via e-mail to the following address: pdm@medicine.wisc.edu. If the manuscript is submitted by mail, please include paper version of the cover letter, cover page, and one paper copy of the manuscript to accompany the disk. If submitting the article in paper form only, please send 1 cover letter, and 3 copies of the cover page and manuscript.

Previous Publication—A manuscript will be considered only if it has not been published previously and is not under consideration for publication elsewhere.

Copyrights—After acceptance for publication, the copyright to the manuscript rests with *Prehospital and Disaster Medicine*.

Cover Letter—Each manuscript should be accompanied by a cover letter from the primary author who attests to the original nature of the material, that the paper has not been published elsewhere, is not under consideration by any other publication, and that the authors agree to transfer copyright to *Prehospital and Disaster Medicine* if accepted for publication. The institution(s) in which the work was performed, the sponsoring institution(s), and the respective departments must be annotated. If the work was supported all or in part by grants or endowments, the granting institution(s) should be indicated. If the paper has been, or is to be presented in a forum orally or as a poster, indicate the title of the forum, sponsoring institution, and the date of presentation. Specify the name of the author with whom any correspondence should be directed, and, correspondence street address, telephone number, telefacsimile (FAX) number, and e-mail address if appropriate.

Cover Page—Include a cover page that includes the title of the paper, first names, middle initials, last names, and highest academic degrees of all authors. Reiterate from the cover letter the name of the author with whom any correspondence should be directed and the street address, telephone number, telefacsimile (FAX) number, and e-mail address if appropriate. Do not indicate author names or institutions anywhere in the manuscript other than on the cover page.

Language—All manuscripts must be submitted in English.

Paper, Margins, and Type Style—Manuscripts should be submitted on plain white paper, paper size up to A4, 8.27" by 11.69" (210 mm by 297 mm). *Do not right justify the margins.* Use standard type styles. Do not use bold, italicized, superscript, or subscript characters, and make no extraneous marks on the printed manuscript page. Double space all text.

Key Words—On a separate page, show the title of the manuscript and eight or more key words or phrases to facilitate indexing or electronic searches.

Generic Names—Whenever possible, use generic names. Brand names may be indicated parenthetically and the name and location of the manufacturer must be provided in parentheses followed by a generic description of the medication, drug, product, or equipment. Also, do not use *We* or *Our* when describing the researchers. The fact that the research was conducted by the authors is implicit.

References—References should be cited in the sequential order in which they appear in the text. All references should be parenthetically cited by full-sized Arabic numbers in the text, tables, and legends for illustrations. Titles of journals referenced must be annotated using standard *Index Medicus* abbreviations and must be underscored. Unpublished data or

personal communications should be indicated in parentheses directly following the reference and should include the dates of such correspondence (Personal Communication, Safar P, October 1989). The following format for references should be used:

Journals—White SJ, Hamilton WA, Veronesi JF: Comparison of field techniques used to pressure infuse intravenous fluids. *Prehospital and Disaster Medicine* 1991;6: 429–434.

Books—Schwartz GR, Safar P, Stone JH, et al, eds: *Principles and Practice of Emergency Medicine*. 2d ed. Philadelphia: W. B. Saunders Co., 1985, pp 1198–1202.

Chapters—Lindberg R: Pathology of Head Injuries. In: Cowley RA, Trump BF (eds), *Pathophysiology of Shock*. Baltimore: Williams and Wilkins, 1982, pp 588–592.

Abbreviations—Abbreviations for groups of words may be used only for unusually cumbersome titles or for commonly accepted abbreviations. Whenever such abbreviations are used, they must be annotated with the initial mention of words within the manuscript followed by the abbreviation in parentheses. Standard scientific abbreviations may not be sub- or super-scripted.

Tables—Tables must be numbered as referenced in the text and each typed on a separate page, placed at the end of the manuscript. Do not include tables in the body of the text.

Figures—Illustrative materials must be of professional quality and camera ready (e.g., glossy camera-ready reproductions or PMTs). All such materials should be submitted as large as possible, up to 8.27" by 11.69" (A4 210 mm by 297 mm) and be at least 600 dpi resolution for clarity when subsequently reduced to 3-inch margin size. Color illustrations must be discussed with the editor. Legends of figures are to be typed with double spacing on a separate page with reference to the number of the figure. The manuscript title, figure number, and an arrow to indicate the top of the illustration must be annotated on the back of each figure. All graphs, or charts submitted in an electronic format, must be at least 600 dpi, and submitted in a PICT or JPG format. (Power Point or Excel graphs and charts must be saved in a PICT or JPG format.)

Permissions—Illustrations or tables from other publications must be accompanied by written permission from the author and publishers of the document in which they originally appeared. Computer generated figures must have a resolution of 300 dpi or greater. jpeg format is preferred.

Publication Schedule—Manuscripts should be published within 6 to 9 months of acceptance and receipt of revisions.

Additional Information

Contact Marvin L. Birnbaum, MD, PhD, Editor, *Prehospital and Disaster Medicine*, Clinical Science Center (E5/615), 600 N. Highland, Madison, WI 53792 USA, (609) 263-9641; E-mail: mlb@medicine.wisc.edu.

Subscription and Business Information *for the readers of* Prehospital and Disaster Medicine

SUBSCRIPTION PRICES*

	(4 issues)
Institutional	[US] \$120
Individual	\$75.

NOTE: "Institutional Subscribers" are defined as multiple reader subscribers and include public and private libraries, schools, hospitals, and clinics; city, county, and state, Provincial, and national government bureaus and departments; and all commercial and private institutions and organizations.

Individual subscriptions must be in the name of, billed to, and paid by individuals.

Canadian subscribers and all other subscriptions from outside of the U.S.A. add \$6 per year for postage and handling.

Send all subscription orders to: **Prehospital and Disaster Medicine, P.O. Box 55158, Madison, WI 53705-8958 USA.**

Subscription by E-mail: pdm@medicine.wisc.edu or call (01)608-263-2069; Fax (01)608-265-3037. Credit cards are welcome.

CHANGE OF ADDRESS or MISSING ISSUES

Please let our central office know as soon as possible when you plan to move. We need four to six weeks advance notice for uninterrupted service. Send us 1) your old address; 2) your new address; and 3) effective date of change.

If you have other questions about your subscription, please address them to: central office, Prehospital and Disaster Medicine at the above contact addresses.

BACK ISSUES

A limited supply of back issues not included in your subscription is available. In order to complete your library, contact the central office. Back issues that are available are listed on the PDM webpage:

<http://pdm.medicine.wisc.edu/> or a list can be obtained without charge by contacting the PDM office.

ABSTRACTS

All of the abstracts of papers through Volume 16 are available on the PDM webpage.

EDITORIAL and SUBSCRIPTION INFORMATION

Please address all manuscripts and editorial inquiries and comments to: Marvin L. Birnbaum, Editor, *Prehospital and Disaster Medicine*, E5/613 Clinical Sciences Center.

600 Highland, Madison, WI 53792 USA:

(01) 608-263-9641 or (01)608-263-2069; FAX: (01)608-265-3037. See *Instruction to Authors* included in this issue. Papers accepted for publication generally will be published within six months of receipt of the revised manuscript.

INDEXES AND ABSTRACTS

PDM is indexed by National Library of Medicine (Medline), CINAHL; HealthStar, and on the PDM Website: <http://pdm.medicine.wisc.edu>

ADVERTISING GUIDELINES

Advertising Policy and Guidelines

General Statement

Prehospital and Disaster Medicine (PDM) is a scientifically based, peer-reviewed, medical journal. It is the policy of the editorial office of PDM that all advertising material be sound scientifically, and thus, meet the following guidelines:

- 1) Claims must be supported scientifically, and references provided — either within the advertisement or made available upon request;
- 2) Every effort must be directed to minimize the likelihood of possible erroneous interpretations of the claims; and
- 3) Advertisements should be aimed at a sophisticated, medical audience. Further information and rates available at our Internet site: <http://pdm.medicine.wisc.edu>

Review

Each advertisement considered for publication is submitted to the Editorial Office for review. Any advertisement that does not meet the guidelines will be returned to the advertiser with suggestions for revisions; the Editorial Office is available for consultation at any time.

Use of these guidelines and the process used for review add to the credibility of PDM and of the product.

Questions may be directed to Marvin L. Birnbaum, MD, PhD, Editor-in-Chief; 01-608-263-9641; E-mail: mlb@medicine.wisc.edu

PREHOSPITAL and DISASTER MEDICINE

The Official Journal of
The World Association for Disaster and Emergency Medicine (WADEM)
and the
Nordic Society of Disaster Medicine

Prehospital and Disaster Medicine is a peer-reviewed international medical journal devoted to the publication of Disaster and Humanitarian Medicine research and education. The principal mission of *Prehospital and Disaster Medicine* (PDM) is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster medicine, and public health and safety. PDM provides an international forum for the reporting and discussion of scientific studies, both quantitative and qualitative, that have relevance to the above practices. Its major objectives are: (1) the improvement of the types and quality of the care delivered to patients with perceived medical emergencies and to victims of multicasualty accidents or disasters, including the public health and safety aspects of such events; and (2) the prevention and/or mitigation of the occurrence of such events and of the effects of these events upon the human population and environment.

Subscription rates [US\$]:	One Year (4 Issues)
Individual (non-WADEM member)	\$75*‡
Institutional	\$120*

*Outside the USA add \$6 [US] for international shipping charges

‡WADEM Affiliated Organization members receive 25% off individual subscription prices.

Affiliated Organizations include:

- Association de Medicine Liberaux Sapeur (AMELISAP)
- Japanese Medical Team for Disaster Relief
- Mediterranean Club for Burns and Fire Disasters
- Nordic Society for Disaster Medicine
- Pan American Society for Disaster and Emergency Medicine
- Save Accident Victims Association of Nigeria (SAVAN)
- Society of Emergency Medicine-Singapore
- Swedish Society of Disaster Medicine

Please send inquiries to:
