Manuscripts should be double spaced throughout (including footnotes, etc.) and should be typed on one side of the paper with ample margins. Contributors with word processors are requested to underline rather than use an italic font, and to avoid justification of right margins, automatic hyphenation and bold face type.

Footnotes should be numbered consecutively and be typed, double spaced, on separate pages at the end. Musical examples, figures, tables, etc. should also be supplied on separate sheets.

Contributors who wish to reproduce photographs should provide good black and white prints, full details of the source and the full address of the copyright holder if this differs. Photographs will not normally be considered unless they are an intrinsic part of the contribution, and their inclusion will always be at the discretion of the editors. The full address of the copyright holder should also be provided for any other material used in which the contributor does not hold copyright.

Punctuation should follow standard British practice. Single quotation marks should be used with double reserved for quotations within quotations. Punctuation that is not part of the quoted material should be outside closing quotation marks, as should footnote indicators. Longer quotations should be indented left without quotation marks and double spaced. Prose citations should be in English unless the original is of particular importance, unpublished or inaccessible, in which case the original should be followed by a translation in square brackets. Verse citations should be in the original language followed by a prose translation in square brackets.

Editorially added ellipses should be placed within square brackets [...] to distinguish them from any ellipses in quoted text and from the Italian punctuation ... . Dates should be on the following model: c. 1740, 1840s, 5 February 1943. References should be to: Act I scene 2, op. 1 no. 2 in E major, Ex. 12 and Exx. 12–14, Fig. 3 and Figs. 6–9, motif(s) and leitmotif(s). For precise identification of pitch, use this system:
