TABLE OF CONTENTS

The theory of quaternality. By W. H. GOTTSCHALK	193
Quantification theory and empty individual-domains. By THEODORE HAILPERIN	197
Banishing the rule of substitution for functional variables. By LEON HENKIN	201
Systems of transfinite types involving λ -conversion. By MAURICE L'ABBÉ	209
A problem in recursive function theory. By R. L. GOODSTEIN	225
Note on a paradox. By ROBERT L. STANLEY	233
Strict implication, deducibility and the deduction theorem. By RUTH BARCAN MARCUS	234
The M -valued calculus of non-contradiction. By ALAN ROSE	237
Systems of syntactic analysis. By NOAM CHOMSKY	242
Reviews	257

The **JOURNAL OF SYMBOLIC LOGIC** is the official organ of the Association for Symbolic Logic, Inc., published quarterly, in the months of March, June, September, and December. The **JOURNAL** is published for the Association by *N.V. Erven P. Noordhoff, Publishers, Groningen, The Netherlands*. The subscription price is five dollars annually, for current subscriptions. New subscriptions must begin with the first number of the current volume, as determined by the date of receipt of the subscription. Completed volumes are sold at six dollars. Members of the Association of three years standing may purchase back volumes of the **JOURNAL** at reduced rates for their personal use (except volume 1).

Applications for membership in the Association, subscriptions to the **JOURNAL**, changes of address, and all business correspondence should be addressed to:

Joshua Barlaz, Secretary-Treasurer, Rutgers University, New Brunswick, New Jersey

Articles for publication in the **JOURNAL** should be sent to *S. C. Kleene, North Hall, University of Wisconsin, Madison 6, Wisconsin* or to *Alice A. Lazerowitz, 31 Langworthy Road, Northampton, Massachusetts*. All manuscripts should be typewritten with wide margin and wide spacing between the lines, and the author should keep a complete copy; footnotes should be numbered consecutively and should also be typed with wide margin and wide spacing (preferably on a separate sheet). If an article is of more than thirty-two (printed) pages in length, the editors reserve the right to divide it between two or more, not necessarily consecutive, numbers. Authors receive fifty reprints of each article, with covers, and additional reprints may be purchased if desired.

Attention is called to the fact that the **JOURNAL** invites submission of (1) original technical papers in the field of symbolic logic, (2) expository papers in this field, (3) philosophical papers which bear upon this field or make use of its methods, and (4) studies in the history of logic in which modern technical developments are taken into account.

Authors and publishers are requested to send, for review, copies of books and reprints of articles in journals to *Alonzo Church, Fine Hall, Princeton University, Princeton, New Jersey*.
