

NOTICES

The International Commission on Zoological Nomenclature has received the following **Applications**, which were published recently in the *Bulletin of Zoological Nomenclature*. Comment or advice on them is invited for publication in the *Bulletin*, and should be sent to the Executive Secretary, ICZN, c/o The Natural History Museum, Cromwell Road, London SW7 5BD, UK.

Case 2810. *Rhabdomeson* Young & Young, 1874 (Bryozoa): proposed designation of *Rhabdomeson progracile* Wyse Jackson & Bancroft, 1995 as the type species.

Abstract. The purpose of this application is to conserve the current understanding of the name *Rhabdomeson* Young & Young, 1874 which is in established usage for a genus of Carboniferous bryozoans. Young & Young misidentified as *Millepora gracilis* Phillips, 1841 the single species that they included in the genus. We (1995) have named the taxon *Rhabdomeson progracile* and propose that this be designated as the type species.

Case 2984. *Monograptus riccartonensis* Lapworth, 1876 (Graptolithina): proposed designation of a neotype.

Abstract. The purpose of this application is to propose a neotype for *Monograptus riccartonensis* Lapworth, 1876,

a graptolite upon which Tullberg (1882) based the *M. riccartonensis* Zone of Wenlock (Silurian) age. Pribyl (1948) designated as lectotype one of Lapworth's type specimens which belongs to another species and is from strata significantly older than the *M. riccartonensis* Zone.

The following **Opinions** have been published recently in the *Bulletin of Zoological Nomenclature*. Copies of these **Opinions** can be obtained free of charge from the Executive Secretary, ICZN, c/o The Natural History Museum, Cromwell Road, London SW7 5BD, UK.

Opinion 1803. *Robulina nodosa* Reuss, 1863 (currently *Lenticulina nodosa*; Foraminiferida): neotype confirmed as the name-bearing type.

Opinion 1804. *Cristellaria humilis* Reuss, 1863 (currently *Astacolus humilis*; Foraminiferida): neotype replaced by rediscovered lectotype, and *Rotalia schloenbachi* (currently *Notoplanulina? schloenbachi*; Foraminiferida): placed on the Official List.

Opinion 1806. *Ammonites nodosus* (currently *Ceratites nodosus*; Cephalopoda, Ammonoidea): specific name attributed to Schlotheim, 1813, and a lectotype designated.
