

INDEX OF AUTHORS

- ALLEN, L. A., BLEZARD, N. and WHEATLAND, A. B. Formation of cyanogen chloride during chlorination of certain liquids. Toxicity of such liquids to fish. (With 3 Figures in the Text), 184
- ANDERSON, E. S. and RICHARDS, H. G. H. An outbreak of typhoid fever in the Middle East, 164
- BABUDIERI, B. and BOCCIARELLI, D. Electron-microscope studies on relapsing fever spirochaetes. (With Plate 16), 438.
- BACHI, R., *see* OLITZKI, L.
- BARDSLEY, DORIS A. A study of coliform organisms in the Melbourne water supply and in animal faeces, with observations on their longevity in faeces and in soil, 269
- BARNETT, S. A. Rat control in a plague outbreak in Malta. (With Plates 1 and 2 and 2 Figures and 1 Map in the Text), 10
- BILLINGTON, N. S. The warmth of floors—a physical study. (With 9 Figures in the Text), 445
- BISSET, K. A. Seasonal changes in the normal bacterial flora of fresh-water fish. (With 1 Figure in the Text), 94
- BISSET, K. A. Nuclear reorganization in non-sporing bacteria. (With Plate 7 and 11 Figures in the Text), 173
- BISSET, K. A. Observations upon the bacterial nucleus. (With Plate 9 and 7 Figures in the Text), 264
- BISSET, K. A. Natural antibodies in the blood serum of fresh-water fish, 267
- BLEZARD, N., *see* ALLEN, L. A.
- BOCCIARELLI, D., *see* BABUDIERI, B.
- BØE, JOHS, *see* VOGELSANG TH. M.
- BRUCE, H. M. and EMMENS, C. W. The feeding and breeding of laboratory animals. VII. Methods of testing the adequacy of diets for breeding mice, 315
- BRUCE, H. M. & PARKES, A. S. Feeding and breeding of laboratory animals. VIII. Breeding of guinea-pigs. (With 6 Figures in the Text), 434
- BROOKSBY, J. B., *see* HENDERSON, W. M.
- CHRENKO, F. A., *see* MUNRO, A. F.
- CHU, C. M. Studies on vaccinia haemagglutinin.
I. Some physico-chemical properties. (With 1 Figure in the Text), 42
II. Some immunological properties. (With 3 Figures in the Text), 49
- CHU, C. M. Agglutination of red blood cells of different animals by influenza and Newcastle disease viruses, 239
- CHU, C. M. Inactivation of haemagglutinin and infectivity of influenza and Newcastle disease viruses by heat and formalin, 247
- COOMBS, R. R. A. and HOLE, N. H. The conglutination phenomenon. IV. The importance of the choice of complement when examining antisera for the presence of complement-fixing or complement-absorbing antibodies. (With 18 Figures in the Text), 296
- COOMBS, R. R. A., CROWHURST, R. C., DAY, F. T., HEARD, D. H., HINDE, I. T., HOOGSTATEN, J. and PARRY, H. B. Haemolytic disease of newborn foals due to iso-immunization of pregnancy. (With Plate 14 and 2 Figures in the Text), 403
- CRONE, P. B. The counting of surface colonies of bacteria, 426
- CROWHURST, R. C., *see* COOMBS, R. R. A.
- DAVIDSON, W. H. *Surgeon Lt.-Commander, see* DONALD, KENNETH, W.
- DAY, F. T., *see* COOMBS, R. R. A.
- DICKINSON, LOIS. The serological relationship between vaccinia and ectromelia viruses, 378
- DIXON, C. W. Smallpox in Tripolitania, 1946: an epidemiological and clinical study of 500 cases, including trials of penicillin treatment. (With Plates 12 and 13 and 9 Figures in the Text), 351
- DONALD, KENNETH W., DAVIDSON, W. M. *Surgeon Lt.-Commander and SHELFORD, W. G. Commander. Submarine escape breathing air. (With 4 Figures in the Text), 176*
- DOWNIE, A. W., GLENNY, A. T., PARISH, H. J., SPOONER, E. T. C., VOLLUM, R. L. and WILSON, G. S. Combined active and passive immunization against diphtheria, 34
- EMMENS, C. W., *see* BRUCE, H. M.
- EVANS, R. J. A simple method for the determination of bacterial sensitivity to sulphonamides by the use of blotting paper disks. (With Plate 15), 422
- FENNER, FRANK. The epizootic behaviour of mousepox (infectious ectromelia of mice). II. The course of events in long-continued epidemics. (With 3 Figures in the Text), 383
- GILES, C. and SANGSTER, G. An outbreak of infantile gastro-enteritis in Aberdeen. The association of a special type of *Bact. coli* with the infection, 1
- GLENNY, A. T., *see* DOWNIE, A. W.
- GRASSET, E., *see* ORDMAN, DAVID.
- GUTHRIE, K. J. and MONTGOMERY, GEORGE L. Seven-year study of pneumococcus type incidence in the Royal Hospital for Sick Children, Glasgow. (With 2 Figures in the Text), 123
- HEARD, D. H., *see* COOMBS, R. R. A.
- HENDERSON, W. M. and BROOKSBY, J. B. The survival of foot-and-mouth disease virus in meat and offal. (With 1 Figure in the Text), 394
- HINDE, I. T., *see* COOMBS, R. R. A.
- HOBBS, BETTY. A study of the serological type differentiation of *Staphylococcus pyogenes*, 222
- HOBSON, W. A dietary and clinical survey of pregnant women with particular reference to toxæmia of pregnancy. (With 3 Figures in the Text), 198
- HOLE, N. H., *see* COOMBS, R. R. A.
- HOOGSTATEN, J., *see* COOMBS, R. R. A.
- JACOBS, S. E., *see* JORDAN, R. C.
- JORDAN, R. C. and JACOBS, S. E. Studies in the dynamics of disinfection. XII. The effect of variation in pH on the rate of disinfection at 51° C. of standard cultures of *B. coli*. (With 6 Figures in the Text), 136

- JORDAN, R. C. and JACOBS, S. E. Studies in the dynamics of disinfection. XIII. The nature of the probit-log survival-time relationship in disinfection of standard cultures of *Bact. coli* at 51° C. under various conditions of pH. (With 5 figures in the Text), 280
- JORDAN, R. C. and JACOBS, S. E. Studies in the dynamics of disinfection. XIV. The variations of the concentration exponents for hydrogen and hydroxyl ions with mortality level, using standard cultures of *Bact. coli* at 51° C. (With 2 Figures in the Text), 289
- KALLNER, G., see OLITZKI, L.
- KLENEBERGER-NOBEL, EMMY. Capsules and mucoid envelopes of bacteria. (With Plates 10 and 11), 345
- LAUGHTON, NANCY. The bacteriological interpretation of vaginal smears. (With Plate 8), 262
- LUMB, G. D., see PULVERTAFT, R. J. V.
- M McNALLY, P. A. The inhibitory action of the monoethyl esters of *S-n*-alkylthiomalic acids and the monoethyl esters of alkane sulphonyl succinic acids on the growth of *Mycobacterium tuberculosis*, 60
- MOLE, R. H. The diagnostic value of the Widal test in the inoculated. (With 1 Figure in the Text), 98
- MONTGOMERY, GEORGE L., see GUTHRIE, K. J.
- MUNRO, A. F. and CHRENKO, F. A. The effects of air temperature and velocity and of various flooring materials on the thermal sensations and skin temperature of the feet. (With 6 Figures in the Text), 451
- MUSHIN, ROSE. An outbreak of gastro-enteritis due to *Salmonella derby*, 151
- MUSHIN, ROSE, see Errata, 465
- NAYLOR, G. R. E. Some observations on the reaction between horse serum and a pool of rabbit antihorse serum. I. The relative inhibition effect of excess antigen and excess antiserum. (With 2 Figures in the Text), 129
- NEAL, R. A. *Entamoeba histolytica* in wild rats caught in London. (With Plate 4 and 1 Figure in the Text), 90
- OBERMER, E. Wartime rationing and nutrition in pregnancy. First communication, 325
- OLITZKI, L., BACHI, R. and KALLNER, G. Infective hepatitis among civilians in Palestine. (With 8 Figures in the Text), 101
- OLITZKI, L., see SHELUBSKY, M.
- ORDMAN, DAVID and GRASSET, E. Combined *pertussis*-diphtheria prophylactic antigens. An experimental study to determine the specific immunizing value of these antigens used in combination, 117
- PARISH, H. J., see DOWNIE, A. W.
- PARKES, A. S., see BRUCE, H. M.
- PARNELL, R. W. Notes on climate and morbidity, 311
- PARRY, H. B., see COOMBS, R. R. A.
- PULVERTAFT, R. J. V. and LUMB, G. D. Bacterial lysis and antiseptics. (With Plate 3), 62
- REYNELL, P. C. A food-borne outbreak of streptococcal infection. (With 2 Figures in the Text), 148
- RICHARDS, H. G. H., see ANDERSON, E. S.
- ROGERS, LEONARD. Further work on forecasting small-pox epidemics in India and British tropical countries based on previous climatic data. (With 3 Figures and 2 Maps in the Text), 19
- RUBBO, SYDNEY P. Cross-infection in hospital due to *Salmonella derby*. (With plates 5 and 6 and 3 Figures in the Text), 158
- SAINSBURY, H. The problem of diabetes mellitus in school medical administration. (With 1 Figure in the Text), 440
- SANGSTER, G., see GILES, C.
- SHELFORD, W. G. *Commander*, see DONALD, KENNETH W.
- SHELUBSKY, M. and OLITZKI, L. The labile antigens of *Shigella dysenteriae* Shiga, 65
- SPOONER, E. T. C., see DOWNIE, A. W.
- STEWART, F. H. Experiments on adaptive variation and rejuvenation. *Bacillus dysenteriae* Flexner, grown on media containing sulphanilamide, acriflavine, argyrol, neosalvarsan and no drug, 331
- VAN TIEL, N. The toxicity of methallyl chloride and methyl bromide towards white rats. (With 1 Figure in the Text), 217
- VAN TIEL, N. The retention of methallyl chloride and methyl bromide by fumigated grain, 431
- VOGELANG, TH. M. and BØE, JOHS. Temporary and chronic carriers of *Salmonella typhi* and *Salmonella paratyphi* B, 252
- VOLLUM, R. L., see DOWNIE, A. W.
- WALKER, A. R. P. The absorption of fat during the consumption of whole-grain and white breads, 194
- WEBB, J. LEWIS and WEBB, A. M. LILLY. A first record of *Brucella abortus* (Bang) in the cattle of Mauritius; and data on the possible occurrence locally of undulant fever in man. (With 1 Figure in the Text), 419
- WEBB, A. M. LILLY, see WEBB, J. LEWIS
- WHEATLAND, A. B., see ALLEN, L. A.
- WILLIAMS SMITH, H. Investigations on the typing of staphylococci by means of bacteriophage:
 - I. The origin and nature of lysogenic strains, 74
 - II. The significance of lysogenic strains in staphylococcal type designation, 82
- WILSON, G. S., see DOWNIE, A. W.
- WILSON, W. JAMES. The production of H₂S-negative strains of *Salmonella*, 70
