FALL 2019 ULTRASOUND COURSES

EMERGENCY DEPARTMENT TARGETED ULTRASOUND

VANCOUVER

October 19-20

TORONTO

November 9-10

MONTREAL

December 5-6

This course is designed to provide physicians with a strong foundation in emergency ultrasound. It facilitates the completion of the required 50 supervised scans in each of the four areas (aorta, cardiac, abdomen, and pelvis).

EDTUx RESUSCITATION & DIAGNOSTICS

OTTAWA

November 18

This course is an advanced point of care ultrasound course that covers a broad range of modules, including resuscitative, diagnostic, and procedural applications. It encompasses applications for problems you encounter on every shift.
