

# Environmental Conservation

International Journal of Interdisciplinary Environmental Science

Published for the Foundation for Environmental Conservation

## Editor

Nicholas V. C. Polunin, University of Newcastle, UK

*Environmental Conservation* is one of the longest-standing, most highly-cited of the interdisciplinary environmental science journals. It includes research papers, reports, comments, subject reviews, and book reviews addressing environmental policy, practice, and natural and social science of environmental concern at the global level, informed by rigorous local level case studies. The journal's scope is very broad, including issues in human institutions, ecosystem change, resource utilisation, terrestrial biomes, aquatic systems, and coastal and land use management. *Environmental Conservation* is essential reading for all environmentalists, managers, consultants, agency workers and scientists wishing to keep abreast of current developments in environmental science. Selected papers are made freely available online as part of **EC Perspectives**.

# Antarctic Science

Published on behalf of Antarctic Science Ltd, Cambridge

## Editors

David W. H. Walton, British Antarctic Survey, Cambridge, UK  
Alan P. M. Vaughan, British Antarctic Survey, Cambridge, UK  
Christina L. Hulbe, Portland State University, USA

*Antarctic Science* provides a truly international forum for the broad spread of studies that increasingly characterize scientific research in the Antarctic. The journal attracts papers from all countries currently undertaking Antarctic research. Whilst emphasising interdisciplinary work, the journal publishes papers from environmental management to biodiversity, from volcanoes to icebergs, and from oceanography to the upper atmosphere. No other journal covers such a wide range of Antarctic scientific studies.

# The Lichenologist

Published on behalf of The British Lichen Society

## Senior Editor

Peter D. Crittenden, University of Nottingham, UK

*The Lichenologist* is the premier scientific journal devoted exclusively to the study of lichens worldwide. As the leading forum for the dissemination of new concepts and topical reviews, *The Lichenologist* reaches more scientists concerned with the study of lichens and lichen symbionts than any other single journal. All aspects of lichenology are considered including systematics and phylogenetics; molecular biology; ultrastructure, anatomy and morphology; secondary chemistry, effects of pollutants and use as bioindicators; biogeography.

# Oryx

The International Journal of Conservation

Published for Fauna & Flora International

**Editor**

Martin Fisher, Fauna & Flora International, UK

*Oryx -- The International Journal of Conservation* is a quarterly peer-reviewed journal of biodiversity conservation, conservation policy and sustainable use, and the interaction of these subjects with social, economic and political issues. The journal has a particular interest in material that has the potential to improve conservation management and practice, supports the publishing and communication aspirations of conservation researchers and practitioners worldwide and helps build capacity for conservation. Besides articles and short communications, *Oryx* regularly publishes reviews, forum sections and letters, and every issue includes comprehensive reporting of international conservation news.

# Bird Conservation International

Published on behalf of BirdLife International

## Editor-in-Chief

Phil Atkinson, British Trust for Ornithology, UK

*Bird Conservation International* is a quarterly peer-reviewed journal focusing on the conservation of birds and their habitats. The official journal of BirdLife International, it provides stimulating, international and up-to-date coverage of a broad range of conservation topics, using birds to illuminate wider issues of biodiversity, conservation and sustainable resource use. *Bird Conservation International* publishes original papers and reviews, including specifically targeted articles and recommendations by leading experts.

*Bird Conservation International* is available online at:  
<http://journals.cambridge.org/bci>

# THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

## TERMS OF MEMBERSHIP FOR 2011

Annual members, receiving the Journal – online only, per annum	£55.00*
Annual members, receiving the Journal – print only, per annum	£95.00*
Annual members, receiving the Journal – print and online, per annum	£115.00*
Annual members, without the Journal, per annum	£35.00*
Corporate members, receiving the Journal – online only, per annum	£360.00
Corporate members, receiving the Journal – print and online, per annum	£425.00
Student members, with the Journal – online only, per annum (non-voting)	£30.00
Student members, with the Journal – print only, per annum (non-voting)	£45.00
Student members, without the Journal, per annum (non-voting)	£20.00

The Association is a registered charity and was founded in 1884 to promote accurate researches leading to the advancement of zoological and botanical science and to increase our knowledge of the food, life, conditions and habits of British fish. The work of the Association is controlled by the Council elected annually by its subscribing members.

The Marine Biological Association, under the direction of its Council, has undertaken research in all branches of marine science and many of the results have been published in this Journal. An account of the history of the first hundred years of the Association and Journal may be found in Volume 67 (pp. 463 and 465). Summaries of the activities and research of the Association are given annually in the Report of the Council, sent to members in April, and to other subscribers with a later issue of the *JMBA*.

Since its foundation the Association has been supported by grants from Research Councils and by subscriptions and donations from private members, universities, learned societies, the Fishmongers' Company and other public bodies.

The Plymouth Laboratory was opened in June 1888 and, since that date, considerable additions have been made to the buildings, including a library, resource centre, extensive laboratory accommodation and seawater facilities.

In 1988 an agreement was reached between the MBA Council and the Natural Environment Research Council (NERC) to merge a large part of the Plymouth Laboratory with the NERC's Institute for Marine Science which had been in Plymouth since 1971. This new institute was called the Plymouth Marine Laboratory (PML) based at both Citadel Hill and West Hoe sites. In 2001 the MBA and PML re-established separate identities funded by Grants-in-aid from NERC. The Association and the research programme are based entirely at the Citadel Hill Laboratory. The building is shared with SAHFOS (Sir Alister Hardy Foundation for Ocean Science). The research organizations are part of the Plymouth Partnership

which includes PML, the University of Plymouth and the NMA (National Marine Aquarium). Active collaboration and shared resources mutually enhance the marine research programmes of the participants.

The Marine Biological Association retains the lease of the building on Citadel Hill and continues as a very active scientific learned society with a large international membership. The MBA manages a research programme carried out by research fellows (partly funded by NERC) together with scientific visitors, publishes an International Journal, Annual Report, Newsletters and organizes scientific meetings.

Subscriptions can be paid by cash/cheque, direct debit from a UK bank account or credit card. \*Subscriptions are reduced by £5 per annum if paying by direct debit.

Members of the Association have the following rights and privileges: they elect the Officers and Council annually; they are entitled to receive the Journal of the Association at the members' rate; they receive the biannual Newsletter, they have the option to apply to the Director for research facilities at the laboratory; and they have access to the resources in the library at Plymouth during working hours. Corporate members have significant additional rights and privileges, details of which can be supplied on request. Student members do not have voting rights. The Commissioners of Inland Revenue have approved the Association for the purposes of Section 16, Finance Act, 1958, and that the whole of the annual subscriptions paid by a member who qualifies for relief under the section will be allowable as a deduction from his emoluments assessable to income tax.

All correspondence should be addressed to: The Membership Secretary, Marine Biological Association, The Laboratory, Citadel Hill, Plymouth, PL1 2PB, UK (Tel: +44 (0) 1752 633207; Fax: +44 (0) 1752 633102; e-mail: membership@mba.ac.uk).

## CONTENTS

POPULATIONS		
LAWRENCE, J.M., KEESING, J.K. & IRVINE, T.R.	Population characteristics and biology of two populations of <i>Archaster angulatus</i> (Echinodermata: Asteroidea) in different habitats off the central-western Australian coast	1577
CHOE, N. & DEIBEL, D.	Life history characters and population dynamics of the boreal larvacean <i>Oikopleura vanhooffeni</i> (Tunicata) in Conception Bay, Newfoundland	1587
GHARBI, A. & SAID, K.	Genetic variation and population structure of <i>Holothuria polii</i> from the eastern and western Mediterranean coasts in Tunisia	1599
FEEDING AND REPRODUCTION		
NAVARRO, J.M., GONZÁLEZ, L.P. & CHAPARRO, O.R.	Filtering capacity and endoscopic analysis of sympatric infaunal and epifaunal bivalves of southern Chile	1607
PIRES, D.O., SEGAL, B. & CAPARELLI, A.C.	Reproductive effort of an endemic major reef builder along an inshore-offshore gradient in south-western Atlantic	1613
SAL MOYANO, M.P., GAVIO, M.A. & CUARTAS, E.I.	Copulatory system of the spider crab <i>Libinia spinosa</i> (Crustacea: Brachyura: Majoidea)	1617
CAPAPÉ, C. & REYNAUD, C.	Maturity, reproductive cycle and fecundity of the spiny dogfish <i>Squalus acanthias</i> (Chondrichthyes: Squalidae) off the Languedocian coast (southern France, northern Mediterranean)	1627
MORPHOLOGY AND TAXONOMY		
MORTON, B. & DINESEN, G.E.	The biology and functional morphology of <i>Modiolarca subpicta</i> (Bivalvia: Mytilidae: Musculinae), epizootically symbiotic with <i>Ascidia aspersa</i> (Urochordata: Ascidiacea), from the Kattegat, northern Jutland, Denmark	1637
GODDARD, J.H.R.	<i>Palio dubia</i> (Nudibranchia: Doridina) from the north-west Atlantic Ocean: is its morphology at hatching consistent with settlement one day later?	1651
EVSEEV, G.A., KOLOTUKHINA, N.K. & KULIKOVA, V.A.	Morphological structures of the shell of <i>Mytilus trossulus</i> and <i>Crenomytilus grayanus</i> in early ontogenesis and their importance in the taxonomy of Mytilinae (Bivalvia: Mytilidae)	1655
BENAÍM, N.P. & ABSALÃO, R.S.	Discriminating among similar deep-sea <i>Yoldiella</i> (Pelecypoda: Protobranchia) species with a morphometric approach	1665
PARASITOLOGY		
PRINZ, K., KELLY, T.C., O'RIORDAN, R.M. & CULLOTY, S.C.	Factors influencing cercarial emergence and settlement in the digenetic trematode <i>Parorchis acanthus</i> (Philophthalmidae)	1673
VARISCO, M. & VINUESA, J.	Infestation of the squat lobster <i>Munida gregaria</i> (Anomura: Galatheidae) by <i>Pseudionae galacantha</i> (Isopoda: Bopyridae) in San Jorge Gulf, Argentina	1681
FISHERIES		
KOUBAA, A., ABDELMOULEH, A., BOUAIN, A. & BOUDHRIOUA MIHOUBI, N.	Experimental and statistical investigations of the global chemical composition of six trawling fish of the Gulf of Gabès (Mediterranean Sea)	1689
FERREIRA, R.L., MARTINS, H.R., BOLLEN, A.B., SANTOS, M.A. & ERZINI, K.	Influence of environmental and fishery parameters on loggerhead sea turtle by-catch in the longline fishery in the Azores archipelago and implications for conservation	1697
Errata and Corrigenda		1707
