2012 Neuroimaging In Dementia Workshop

**7 June 2012
Coimbra, Portugal**

Save the Date

This one-day, highly interactive workshop incorporates an audience voting system to help reinforce and apply imaging techniques and diagnosis. It is recommended for geriatric psychiatrists, old age psychiatrists, neurologists, geriatricians, primary care physicians with an interest in the elderly, and other dementia specialists as well as trainees in these areas.

Chair

John O'Brien (United Kingdom)

Faculty

Klaus Ebmeier (United Kingdom), Karl Herholz (United Kingdom), Giorgos Karas (Netherlands), Ian McKeith (United Kingdom), and Leonardo Pantoni (Italy)

Program

- Introduction, Objectives, Imaging and Current Guidelines for Dementia
- CT and MR: Basic Introduction, Advantages and Disadvantages, How Images are Formed and Current Imaging Methods
- Usefulness of CT Scanning in Dementia
- Use of MR Imaging in clinical practice
- PET and SPECT: Basic Principles, How Images are Formed, Advantages and Disadvantages
- Use of Perfusion Imaging in the Differential Diagnosis of Dementia
- FP-CIT (DaTSCAN) SPECT Imaging: A New Diagnostic Tool for the Assessment of DLB
- FP-CIT SPECT Imaging: How to Rate and Interpret Scans
- PET in Dementia: Current and Future Applications Including Amyloid Imaging

Watch www.ipa-online.org for more details.

Supported by an educational grant from GE Healthcare.

IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)

The only resource you need for all members of your team!

An IPA Members Benefit*

***IPA members have access online at no additional charge!**

The *IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)* was revised in 2010, based on the BPSD Educational Pack. This comprehensive resource has modules that provide a useful overview of the presentation and causes of BPSD, offering constructive guidance on treatment interventions.

BPSD are recognizable, understandable and treatable. The recognition and appropriate management of BPSD are important factors in improving our care of dementia patients and their caregivers.

These modules will provide a useful overview of the presentation and causes of BPSD offering:

- Module 1 An introduction to BPSD
- Module 2 Clinical issues
- Module 3 Etiology
- Module 4 Role of family caregivers
- Module 5 Non-pharmacological treatments
- Module 6 Pharmacological management
- Module 7 Cross-cultural and transnational considerations

Currently in revision – release 2012
Primary Care Physicians
Nurses

Currently in development
Long Term Care

Encourage a Colleague to Join

The International Psychogeriatric Association (IPA) is the leading multi-disciplinary, international organization dedicated to the advancement of geriatric mental health knowledge.

Benefits of IPA Membership Include

- An opportunity to **interact with colleagues** around the world who share an interest in advancing research, education, and theory about mental health in older people.
- **Education and meetings** reflecting the many disciplines in Psychogeriatrics and the collective expertise of the world; IPA members receive special “members only” rates for all our meetings and activities.
- A subscription to ***International Psychogeriatrics***, IPA’s peer-reviewed monthly journal, which includes any additional special-focus supplements.
- The ***IPA Bulletin***, an informative electronic newsletter.
- **IPA Online** – the IPA website – including member area with special features including access to fellow members, and the IPA Learning Portal.
- Support the **growth of Psychogeriatrics around the world**.
- **Behavioral and Psychological Symptoms of Dementia (BPSD) Education Materials** are available to IPA members in electronic format at no charge. The BPSD materials include the *newly revised* seven module *IPA Complete Guide to BPSD*. The *Primary Care Physician’s Guide to BPSD*, and the *Nurses’ Guide to BPSD* are currently in revision with a release date in 2012. Currently in development - *Long Term Care*.

IPA’s membership dues have been adjusted to accommodate the needs of a wide variety of colleagues worldwide. To find out what the membership rates are for your country, please visit www.ipa-online.org.

*To join or to obtain a membership application,

MSc in Advanced Care in Dementia

Institute of
Psychiatry

at The Maudsley

KING'S
College
LONDON

We are looking for highly motivated health and social care professionals who care passionately about improving the lives of people with dementia and wish to advance their careers in this important area. Delivered by world class experts in the field, we offer the only dementia care MSc pathway in the south of England.

Using a blended approach (eLearning, discussion, group work, lectures and project dissertation), you will learn:

- how to integrate biological, psychological and social models of dementia in to your clinical practice
- person-centred approaches to dementia care
- to critically evaluate research evidence and reflect on clinical practice to improve dementia care
- skills and knowledge to undertake research in the area of dementia care

Apply now to start in September 2012

Full or part-time attendance available

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.478 (2010). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website journals.cambridge.org/ipg. Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.

CONTENTS

- Guest Editorial** 683 **Lifestyle and late life cognitive health: sufficient evidence to act now?**
Bruce Barber, David Ames, Kathryn Ellis, Ralph Martins, Colin Masters and Cassandra Szoeki (Australia)
- Reviews** 689 **Statistical analysis, trial design and duration in Alzheimer's disease clinical trials: a review**
P. A. Thompson, D. E. Wright, C. E. Counsell and J. Zajicek (UK)
- 698 **A systematic review of adverse events in the placebo arm of donepezil trials: the role of cognitive impairment**
Martina Amanzio, Fabrizio Benedetti (Italy) and Lene Vase (Denmark)
- Original Research Articles** 708 **Quality of life in Alzheimer's disease: different factors associated with complementary ratings by patients and family carers**
Pascalle R. Bosboom, Helman Alfonso, Joanna Eaton and Osvaldo P. Almeida (Australia)
- 722 **The relationship between small-scale care and activity involvement of residents with dementia**
Dieneké Smit, Jacomine de Lange, Bernadette Willemse and Anne Margriet Pot (the Netherlands)
- 733 **A comparison of verbal communication and psychiatric medication use by Greek and Italian residents with dementia in Australian ethno-specific and mainstream aged care facilities**
Susannah J. Runci, Barbara J. Eppingstall and Daniel W. O'Connor (Australia)
- 742 **An analysis of the relationships among engagement, agitated behavior, and affect in nursing home residents with dementia**
Jiska Cohen-Mansfield (USA/Israel), Maha Dakheel-Ali, Barbara Jensen, Marcia S. Marx and Khin Thein (USA)
- 753 **Perceptions of family and staff on the role of the environment in long-term care homes for people with dementia**
Linda J. Garcia, Michèle Hébert, Jean Kozak, Isabelle Sénécal, Susan E. Slaughter, Farnak Aminzadeh, William Dalziel, Jocelyn Charles (Canada) and Misha Eliasziw (USA)
- 766 **The Mini-Cog versus the Mini-Mental State Examination and the Clock Drawing Test in daily clinical practice: screening value in a German Memory Clinic**
Monika Milian, Anna-Maria Leiherr, Guido Straten, Stephan Müller, Thomas Leyhe and Gerhard W. Eschweiler (Germany)
- 775 **Impact of familiar and unfamiliar settings on cooking task assessments in frail older adults with poor and preserved executive functions**
Véronique Provencher, Louise Demers, Lise Gagnon and Isabelle Gélinas (Canada)
- 784 **Instrumental activities of daily living performance in healthy and cognitively intact seniors from a Brazilian sample and its relation to age and other socio-demographic variables**
Pedro Fonseca Zuccolo, Renata Ávila, Eduardo Y. Nakano, Júlio Litvoc, Marcos A. Lopes and Cássio M. C. Bottino (Brazil)
- 794 **A driving cessation program to identify and improve transport and lifestyle issues of older retired and retiring drivers**
Louise Gustafsson, Jacki Liddle, Phyllis Liang, Nancy Pachana, Melanie Hoyle, Geoff Mitchell and Krissy McKenna (Australia)
- 803 **A survey of geriatric psychiatry training across Europe**
Sandeep Toot, Martin Orrell (UK), Joanna Rymaszewska (Poland) and Ralf Ihl (Germany)
- 809 **Accuracy of estimation of time-intervals in psychogeriatric outpatients**
Jeremia Heinik (Israel)
- 822 **Effects of age-related differences in empathy on social economic decision-making**
Janelle N. Beadle, Sergio Paradiso, Christopher Kovach, Linnea Polgreen, Natalie L. Denburg and Daniel Tranel (USA)
- 834 **Passive movement therapy in severe paratonia: a multicenter randomized clinical trial**
Johannes (Hans) S. M. Hobbelen, Frans E. S. Tan, Frans R. J. Verhey, Raymond T. C. M. Koopmans and Rob A. de Bie (The Netherlands)
- Case Report** 845 **Serotonin syndrome during treatment with low dose of escitalopram associated with miconazole mucoadhesive tablet: a suspected drug interaction**
Grégory Baptista, Céline Eiden, Paul Monguillot, Christelle Philibert and Claude Jeandel (France)
- Letter** 848
- Thanks to reviewers** 850
