INFECTION CONTROL^{AND}

Protection is our line.

Artist interpretation of microorganisms.

Protection. The key to our superior glove line.

At Johnson & Johnson Medical, Inc., we have a reputation that spans more than 20 years — years dedicated to the research and development of quality gloves that provide maximum protection, optimum fit and excellent touch sensitivity.

We engineer quality into every aspect of our gloves beginning with 100 percent on-line visual inspection of all latex gloves, and quality standards that far exceed those recommended by the FDA.

Our protective lines include NEUTRALON[®] Brown Surgical Gloves, MICRO-TOUCH[™] Latex Surgical Gloves, MICRO-TOUCH[™] Latex Medical Gloves, DISPOS-A-GLOVE[™] Examination Gloves and both the new MAXXUS[®] Orthopaedic Surgical Gloves, and the longer cuff MICRO-TOUCH[™] XP Latex Medical Gloves.

Protection and Johnson & Johnson Medical, Inc. — an unbeatable combination.

PRACTICE SELF-DEFENSE

YOUR LIFE MAY DEPEND ON IT

With AIDS cases escalating, on-the-job self-defense has never been more important. Although the risk of seroconversion is low, to date, 60% of the reported seroconverted healthcare workers had occupational HIV exposure from needlestick injuries.¹ In addition, an estimated 200 healthcare workers die each year from hepatitis B viruses.*

IMPROVED TUBEX™ INJECTOR SECURELY GRIPS CARTRIDGE

Now, the "HANDS-OFF" Injector, TUBEX, has been improved to provide a more secure grip on the cartridge within the Injector. And it's faster and easier than ever to load. The improved TUBEX Injector still offers the same safety advantages: it puts nurses farther from the needle and cartridge than any other injector system. There's no need to touch, shake, manipulate, or angle the needle or cartridge upon disposal.

For the best self-defense injection system against needlestick injuries, use the TUBEX Injector.. *your life may depend on it.*
