

**JOURNAL OF THE
ROYAL STATISTICAL SOCIETY
SERIES B – METHODOLOGICAL**

Vol. 36, No. 1

1974

Inference from complex samples (with Discussion) *L. Kish and M. R. Frankel*

Comparison of probability distributions *J. K. Lindsey*

On the method of maximum-likelihood for dependent observations *B. R. Bhat*

Explicit form of the distribution of the Behrens–Fisher *d*-statistic *M. Rahman and
A. K. M. E. Saleh*

Asymptotic properties of the Wiener–Kolmogorov predictor *R. J. Bhansali*

Some discrete approximations to continuous time stochastic models *J. D. Sargan*

The mean and variance of Watson’s distribution *W. T. Dent and J. D. Broffitt*

Scale mixtures of normal distributions *D. F. Andrews and C. L. Mallows*

Generalizations of mean square error applied to ridge regression *C. M. Theobald*

Comments and Queries

On sum of squares in non-full rank general linear hypotheses *J. A. John and T. M. F. Smith*

Alternative derivation of the sum of squares in a non-full rank general linear hypothesis
R. W. M. Wedderburn

Corrigendum: ‘A Bayesian significance test for multinomial distributions’ *I. J. Good*

Issued three times per year. Annual subscription £6 (U.S. \$15.00)

All enquiries should be addressed to:

The Secretary, Royal Statistical Society, 21 Bentinck Street, London W1M 6AR, U.K.
