Table of Contents

Volume 19, 2008

Fetal neuroimaging <i>RK Pooh and KH Pooh</i>	1
The current role of fetal magnetic resonance imaging <i>MJ Reeves, EH Whitby, MNJ Paley and PD Griffiths</i>	33
Current aspects of fetal cardiovascular function <i>Hikoro Matsui and Helena Gardiner</i>	61
Haemodynamic contributions to the pathogenesis of preeclampsia and eclampsia <i>Ira M Bernstein and Marilyn J Cipolla</i>	85
Genetics of cardiac malformations <i>Sha Tang and Taosheng Huang</i>	105
The application of microarray based comparative genomic hybridization in prenatal diagnosis <i>Kwong Wai Choy, PO Ting Tsang, Tak Yeung Leung, Chi Chiu Wang and Tze Kin Lau</i>	119
Prenatal diagnosis of skeletal dysplasias <i>Lyn S Chitty and David Griffin</i>	135
Repeat antenatal corticosteroids: should it be prescribed and if so when and how? <i>Tak Yeung Leung and Daljit Singh Sahota</i>	165
The antenatal causes of cerebral palsy – genetic and viral associations <i>Catherine S Gibson, Alastair H Maclellan, Paul N Goldwater and Gustaaf A Dekker</i>	181
Respiratory distress syndrome <i>Anne Greenough and Vadivelam Murthy</i>	203
Classification and management of growth restricted fetuses <i>Jason Picconi and Giancarlo Mari</i>	227
Gestational diabetes mellitus <i>Rinat Gabbay Ben-Ziv and Moshe Hod</i>	245
Pre-eclampsia as a marker of cardiovascular disease <i>La Magee, J Newstead, J Ng, Am Côté and P Von Dadelszen</i>	271
Is shoulder dystocia with brachial plexus injury preventable? <i>Emily F Hamilton, Antonio Ciampi, Alina Dyachenko, Henry M Lerner, Louise Miner and Herbert F Sandmire</i>	293
Fetal pain <i>Phebe N Adama van Scheltema, Sem Bakker, FPHA Vandenbussche and D Oepkes</i>	311
Intrapartum ST analysis <i>Håkan Norén and Karl G Rosén</i>	325

Pre-eclampsia Etiology and Clinical Practice

Edited by *Fiona Lyall, University of Glasgow, Scotland*
and *Michael Belfort, University of Utah, USA*

- Pre-eclampsia is one of the leading causes of death and disability in mothers and babies
- Over four million women worldwide will develop the disorder every year
- This text reviews the current research, focusing on both the scientific basis and the practical management of this common and life-threatening disorder
- Edited by a scientist and a clinician

Cambridge Pocket Clinicians

£27.99 | PB | 978-0-521-70934-7

Maternal-Fetal Medicine

Edited by *Mary E. D'Alton, Columbia University College of Physicians and Surgeons, USA*
Errol Norwitz, Yale University School of Medicine, USA
and *Thomas McElrath, Harvard Medical School, USA*

- An evidence-based approach to obstetric management
- Provides the busy clinician with precisely the information needed where and when it is needed
- Includes clinical questions that will challenge providers both in the outpatient setting and on labor and delivery wards

Fetal and Maternal Medicine Review

VOLUME 19 NUMBER 4 NOVEMBER 2008

CONTENTS

Pre-Eclampsia as a Marker of Cardiovascular Disease

*La Magee, J. Newstead, J. Ng, Am Côté
and P. Von Dadelszen* 271

Is Shoulder Dystocia with Brachial Plexus Injury Preventable?

*Emily F. Hamilton, Antonio Ciampi,
Alina Dyachenko, Henry M. Lerner,
Louise Miner and Herbert F. Sandmire* 293

Fetal Pain

*Phebe N. Adama Van Scheltema, Sem Bakker,
FPHA Vandebussche and D. Oepkes* 311

Intrapartum St Analysis

Håkan Norén and Karl G. Rosén 325
