New York 10994-2133
USA

Publisher: Katy Christomanou

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Katy Christomanou at the Cambridge address for further details. E-mail: kchristomanou@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2009 comprise Volume 101, the twelve issues starting July 2009 comprise Volume 102.

Annual subscription rates:

Volumes 101/102 (24 issues):
Internet/print package £917/\$1788/€1469
Internet only: £803/\$1566/€1283
Print only: £874/\$1704/€1420

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies

supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutrition society.org> (an abbreviated Notes for Authors can be found inside the back cover).

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file and a voucher copy of the issue in which their paper has been published. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

Disclaimer: The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. Neither the Society nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

British Journal of Nutrition is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

**CAMBRIDGE
UNIVERSITY PRESS**

(Contents continued from back cover)

Dietary Surveys and Nutritional Epidemiology

- Vitamin D status among immigrant mothers from Pakistan, Turkey and Somalia and their infants attending child health clinics in Norway.
A. A. Madar, L. C. Stene & H. E. Meyer 1052–1058

Nutritional Supplementation

- Effects of eicosapentaenoic acid ethyl ester on visfatin and apelin in lean and overweight (cafeteria diet-fed) rats.
N. Pérez-Echarri, P. Pérez-Matute, B. Marcos-Gómez, J. Alfredo Martínez & M. J. Moreno-Aliaga 1059–1067
- The addition of high manganese to a copper-deficient diet further depresses copper status and growth of cattle.
S. L. Hansen, M. S. Ashwell, L. R. Legleiter, R. S. Fry, K. E. Lloyd & J. W. Spears 1068–1078

Nutritional Energetics

- Impact of energy deficit calculated by a predictive method on outcome in medical patients requiring prolonged acute mechanical ventilation.
C. Faisy, N. Lerolle, F. Dachraoui, J.-F. Savard, I. Abboud, J.-M. Tadie & J.-Y. Fagon 1079–1087

Behaviour

- The effects of a reduced-sodium, high-potassium salt substitute on food taste and acceptability in rural northern China.
N. Li, J. Prescott, Y. Wu, F. Barzi, X. Yu, L. Zhao, B. Neal & for the China Salt Substitute Study Collaborative Group 1088–1093

Appetite

- Reproducibility of energy intake, gastric emptying, blood glucose, plasma insulin and cholecystokinin responses in healthy young males.
N. S. Nair, I. M. Brennan, T. J. Little, D. Gentilcore, T. Hausken, K. L. Jones, J. M. Wishart, M. Horowitz & C. Feinle-Bisset 1094–1102

Obesity

- Eating behaviours of non-obese individuals with and without familial history of obesity.
A.-M. Paradis, G. Godin, S. Lemieux, L. Pérusse & M.-C. Vohl 1103–1109

Book Review

- P. John* 1110–1111

Corrigendum

1112

Directions to Contributors - Concise Version

(Revised August 2007)

The *British Journal of Nutrition* is an international peer-reviewed journal that publishes original papers, review articles, technical notes and short communications in English in all branches of nutritional science. **Prospective authors should note that they (or their institutions) now retain the copyright of their material published in the *British Journal of Nutrition*.** As a contributor you are asked to follow the guidelines set out below. For detailed information on the presentation of the technical content of your paper please see the full version of the **Directions to Contributors**, which can be downloaded from the Nutrition Society website (<http://www.nutrition-society.org>). Prospective authors may also contact the Publications Office directly on + 44 (0)20 7605 6555 (telephone), +44 20 7602 1756 (fax), or edoffice@nutsoc.org.uk (email).

Papers should be accompanied by a statement to the effect that the conditions laid down in the full Directions to Contributors are accepted. The statement should affirm that the submission represents original work that has not been published previously and which is not currently being considered by another journal. It should also confirm that each author has seen and approved the contents of the submitted paper. At the time of acceptance the authors should provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer). The Licence to Publish is available on the Nutrition Society website (<http://www.nutrition-society.org>). All relevant financial interests should be declared.

Text. Papers should be submitted with 1.5 line spacing and margins of at least 2 cm on each side. Text should be printed without underlining, bold or italics (except for scientific names). Standard abbreviations (e.g. Fig. and Figs.) and SI units should be used. **Typescripts can be submitted as Word, WordPerfect, EPS, Text, Postscript or RTF files. A Word processing format is required for production purposes once papers have been accepted. When substantial revisions are required to typescripts, authors are given the opportunity to do this once only, the need for any further changes should at most reflect any minor issues.**

Title Page. The first page should include a concise, informative title together with the names and addresses of the authors. A contact name for correspondence should be given and telephone, fax and email addresses provided. Authors should supply three or four key words or phrases (each containing up to three words). A short title of up to 45 characters is required as a running head.

Abstract. Each paper should commence with an accurate and informative abstract, written as a single paragraph. It should be complete in itself and intelligible without reference to the text or figures, and should not exceed 250 words.

Tables. Tables should be reduced to the simplest form, and should not duplicate information in the text or figures. They should be typed on separate pages, one page for each Table, at the end of the article and carry headings describing their content.

Illustrations. The original illustrations should accompany the submitted typescript. Text figures, line drawings, computer-generated figures and graphs should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable where they clearly contribute to the text. All figures should be numbered and legends should be provided.

Note that authors will be charged 350 GBP for the publication of colour figures. Authors from countries entitled to free journal access through HINARI will be exempt from these charges.

References. References should be based on the numbered (Vancouver) system. **When an article has more than ten authors, only the names of the first three should be given followed by *et al.*; give abbreviated journal titles and conform to the following styles:**

- Goel V, Cheema SK, Agellon LB, Ooraikul B & Basu TK (1999) Dietary rhubarb (*Rheum rhabarbarum*) stalk fibre stimulates cholesterol 7 α -hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice. *Br J Nutr* **81**, 65–71.
- Jenkins DJ, Kendall CW, Marchie A, *et al.* (2003) The effect of combining plant sterols, soy protein, viscous fibres, and almonds in treating hypercholesterolemia. *Metabolism* **52**, 1478–1483.
- Brandtzaeg P (2003) Role of local immunity and breast-feeding in mucosal homeostasis and defence against infections. In *Nutrition and Immune Function*, pp. 273–320 [PC Calder, CJ Field and HS Gill, editors]. Wallingford, Oxon: CAB International.
- Stock M & Rothwell NJ (1982) *Obesity and Leanness: Basic Aspects*. London: John Libbey.

Citations should be numbered consecutively in the order in which they first appear in the text using superscript Arabic numerals in parentheses, e.g. 'The conceptual difficulty of this approach has recently been highlighted^(1,2-4). If a reference is cited more than once the same number should be used each time.

Referees. Authors are asked to submit the names of up to four scientists who would be well-qualified to review the paper; however, no more than one such reviewer will be used. The email addresses and institutions of the named reviewers should be given.

Proofs. PDF page proofs will be emailed to authors for checking, and should be returned within 3 days (by fax or Express mail) to the BJN Production Editor, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, UK; fax +44 1223 325802, email bjnproduction@cambridge.org

Typescripts. The *British Journal of Nutrition* operates an on-line submission and reviewing system (eJournalPress). Authors should submit to the following address: <http://bjn.msubmit.net/> If any difficulties are encountered please contact the Publications Office (details above) immediately.

Contents

Review Article

- Cocoa: antioxidant and immunomodulator.
E. Ramiro-Puig & M. Castell 931–940
- The influence of carbohydrate on cognitive performance: a critical evaluation from the perspective of glycaemic load.
M. B. Gilsenan, E. A. de Bruin & L. Dye 941–949

Systematic Review

- Evaluation of quality of life related to nutritional status.
C. Wanden-Berghe, J. Sanz-Valero, V. Escribà-Agüir, I. Castelló-Botia, R. Guardiola-Wanden-Berghe & for Red de Malnutrición en Iberoamérica – Ciencia y Tecnología para el Desarrollo (Red MeI – CYTED) 950–960

Short Communication

- Probiotic yogurt in the elderly with intestinal bacterial overgrowth: endotoxaemia and innate immune functions.
E. J. Schiffrin, A. Parlesak, C. Bode, J. C. Bode, M. A. van't Hof, D. Grathwohl & Y. Guigoz 961–966
- Anti-carcinogenic soyabean Bowman-Birk inhibitors survive faecal fermentation in their active form and do not affect the microbiota composition *in vitro*.
M. C. Marín-Manzano, R. Ruiz, E. Jiménez, L. A. Rubio & A. Clemente 967–971

Molecular Nutrition

- Effects of ascorbic acid, phytic acid and tannic acid on iron bioavailability from reconstituted ferritin measured by an *in vitro* digestion–Caco-2 cell model.
F. Jin, C. Frohman, T. W. Thannhauser, R. M. Welch & R. P. Glahn 972–981
- Attitudes toward genetic testing and personalised nutrition in a representative sample of European consumers.
B. J. Stewart-Knox, B. P. Bunting, S. Gilpin, H. J. Parr, S. Pinhão, J. J. Strain, M. D. V. de Almeida & M. Gibney 982–989
- Reduced growth and integrin expression of prostate cells cultured with lycopene, vitamin E and fish oil *in vitro*.
T. Bureyko, H. Hurdle, J. B. Metcalfe, M. T. Clandinin & V. C. Mazurak 990–997

Metabolism and Metabolic Studies

- Effects of dietary supplementation with an expressed fusion peptide bovine lactoferricin–lactoferrampin on performance, immune function and intestinal mucosal morphology in piglets weaned at age 21 d.
Z. Tang, Y. Yin, Y. Zhang, R. Huang, Z. Sun, T. Li, W. Chu, X. Kong, L. Li, M. Geng & Q. Tu 998–1005
- Effect of calcium salts of a mixture of conjugated linoleic acids containing *trans*-10, *cis*-12 in the diet on milk fat synthesis in goats.
K. J. Shingfield, J. Rouel & Y. Chilliard 1006–1019

Developmental Biology

- Intergenerational programming of impaired nephrogenesis and hypertension in rats following maternal protein restriction during pregnancy.
M. Harrison & S. C. Langley-Evans 1020–1030

Nutritional Endocrinology

- Ethanol extract of *Psoralea corylifolia* L. and its main constituent, bakuchiol, reduce bone loss in ovariectomised Sprague–Dawley rats.
S.-H. Lim, T.-Y. Ha, S.-R. Kim, J. Ahn, H. J. Park & S. Kim 1031–1039

Nutritional Immunology

- Dietary fish oil decreases secretion of T helper (Th) 1-type cytokines by a direct effect on murine splenic T cells but enhances secretion of a Th2-type cytokine by an effect on accessory cells.
D. H. Petursdottir & I. Hardardottir 1040–1046

Human and Clinical Nutrition

- Effects of food energy on cognitive performance: no support from event-related potentials (yet?).
E. A. de Bruin & M. B. Gilsenan 1047–1051

(Contents continued facing inside back cover)
