PRICE ONE SHILLING AND THREE PENCE.

Prepaid Annual Subscription, Twelve Shillings, or Three Dollars.

Post free, Thirteen Shillings.

The Best Antiseptic for both Internal and External Use.

LISTERINE.

**ANTISEPTIC, PROPHYLACTIC, DEODORANT,
NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC,
ABSOLUTELY SAFE, AGREEABLE, & CONVENIENT.**

FORMULA.—LISTERINE is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gautheria, and Mentha Arvensis, in combination. Each Fluid Drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE.—Internally: One Teaspoonful Three or more times a day (as indicated), either full strength or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an anti-zymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all the parts of the human body, whether by spray, irrigation, atomisation, or simple local application, and therefore characterised by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

We bring **Listerine** to the attention of the Physicians, Surgeons, and Dentists of Great Britain, not as a new and untried preparation, but as a definite and uniform pharmaceutical product, that has acquired an enviable reputation in the United States and Canada.

Medical Men interested in **Listerine** will please send their address to our Agents, and receive by return mail Specimen and a Pamphlet of 36 quarto pages, embodying:—

A Tabulated Exhibit of the action of **Listerine** upon inert laboratory compounds.

Full and Exhaustive Reports and Clinical Observations from all sources, confirming the utility of **Listerine** as a general antiseptic for both internal and external use; and particularly—

Microscopic Observations, showing the comparative value and availability of various antiseptics in the treatment of diseases of the oral cavity, by W. D. MILLER, A.B., Ph.D., D.D.S., Professor of Operative and Clinical Dentistry, University of Berlin, from whose deductions **Listerine** appears to be the most acceptable prophylactic for the care and preservation of the Teeth.

Further information regarding the products of the LAMBERT PHARMACAL CO. may be had by application to the Company at St. Louis, U.S.; or to our

Wholesale Agents for Great Britain:—

MAYER & MELTZER.

IMPROVED MOUTH GAG,

Suggested by Y. H. WYATT WINGRAYE, M.R.C.S.

Its Advantages are—

1. It is automatic, opening by means of the spiral spring, and locking by reason of the curved form of the bar.
2. It swings out of the operator's way.
3. Its simplicity.
4. Is quick of application and removal.
5. Its adaptability to any size of mouth.
6. No lateral motion.

Price 12s. 6d.

Sole Makers: MAYER & MELTZER, 71, Great Portland St., London, W.
Branches: MELBOURNE; CAPE TOWN.

"NET OF HEALTH"

UNDERCLOTHING FOR LADIES, GENTLEMEN, AND CHILDREN.

Registered.

MEDICAL PRESS AND CIRCULAR writes:—"This underclothing, manufactured by Messrs. STRUTHERS & Co., 83, Finsbury Pavement, E.C., is exceedingly comfortable to wear, and its open porous structure allows of free perspiration, but interposes a barrier of air between the skin and atmospheric vicissitudes. The advantages of an open, as compared with a closely-woven material for underclothing, have come to be generally recognised, but we have never seen anything to surpass the softness and comfort of these materials, the use of which is as appropriate in the hot as in the cold weather."

LONDON MEDICAL RECORDER says:—"The best general rule for clothing is to wear underclothing of a thoroughly hygienic character. There are several kinds to select from. We have tried them all, and are in favour of the 'Net of Health,' the especial form for the weaving of which was suggested to Messrs. STRUTHERS & Co., the manufacturers, by a London physician, and is founded on the dictum of such high authorities as Sir ERASMUS WILSON, Count RUMFORD and Sir BENJAMIN BRODIE."

PRICES, Carriage Paid, throughout the United Kingdom:

Cotton Vests for Ladies and Gentlemen, 1s. 6d.; Pants, 2s. 6d.; Combinations, 4s. 6d.
 Pure Wool " " " 4s. 6d.; " " " 6s. 6d.; " " " 8s. 6d.

In ordering send size of chest, waist, and height. Patterns of Material, with Illustrated Price List, post free. Can only be obtained DIRECT from

STRUTHERS & COMPANY, 83, FINSBURY PAYEMENT, LONDON, E.C.

MB!

In the Recent epidemic of "INFLUENZA" in France, the Medical Profession there recognised "VIN MARIANI" as being the best Tonic and Restorative, and one which could be absolutely relied upon to hasten convalescence. When prescribing the Medical Profession are strongly advised to specify "VIN MARIANI," in order to avoid the substitution of imitations, often worthless, and consequently disappointing in effect.

VIN MARIANI

From the "LANCET," October 4th, 1890.

"'VIN MARIANI' is in all respects an excellent product. Its composition and character may be fairly judged from its taste. It is that of a generous Burgundy combined with the peculiar flavour characteristic of the leaf of erythroxyton coca. Our analytical notes are as follows: Alcohol, 13.23 per cent. by weight, 16.33 by volume, equal to 28.62 per cent. proof spirit; extract dried at 100°C. 9.25 per cent.; mineral matter (containing phosphate), 0.52 per cent. Boiling for some time, with the addition of a little carbonate of soda, resulted in the production of a green sediment, probably the coca extractives. (One bottle contains the equivalent of two ounces of leaves.) At the same time a characteristic odour not unlike that of choice tea evinced itself. When the alkaline fluid was allowed to cool it was shaken up with ether, and after a time the ether decanted. On evaporation this yielded a residue, which imparted to the tongue a distinctly numbing sensation. Another portion of the residue with a little hydrochloric acid, gave the characteristic crystals of cocaine hydrochlorate. The virtues of erythroxyton coca are now generally recognised. M. Mariani gives an account of the plant in an illustrated pamphlet. Therein he states that 'VIN MARIANI' has never produced cocainism. This is an important point, and is probably one of those examples in which the alkaloid in its state of natural combination differs in some respects in its physiological action from the free alkaloid chemically prepared."

On application, we will post free of expense, to the Medical Profession, a complete Essay and Treatise (Illustrated) on Erythroxyton Coca, by ANGELO MARIANI.

Price 4s. per Bottle; or 45s. per Dozen. The Medical Profession, Clergymen, and Vocalists, either for their own use or for experimenting, can, upon enclosing their Card and P.O.O. to either of the London Wholesale Depôts, have **delivered them Free to Address**, any quantity at the Professional Price of 42s. per dozen.

MARTINDALE'S INHALERS.

THE ozonizing effect produced by the volatilization of many Essential Oils has a soothing and curative action in irritated, congested, and unhealthy conditions of the Respiratory Organs. When the sufferer can inhale freely and frequently an atmosphere impregnated with the vapour of these Essential Oils, either hot and moist, or in other cases cool and dry, or sometimes cool and moist, the respirations become more free, the tracts and cavities are cleared from germs of disease which may have lodged in them from the atmosphere, and from adherent and blocking mucous expectoration, which become easily detached and removed; granulations may be stimulated, a tickling cough is allayed, and at night a calm sleep is induced.

PRICE, with Thermometer, 6s. 6d.
For Medicated Hot Moist Air.

The accompanying diagrams illustrate apparatus designed to meet the above requirements.

PRICE, 2s.;
With Thermometer, 3s. 6d.

MARTINDALE'S PORTABLE INHALER is adapted for the inhalation of medicated hot moist air in many affections of the air passages.

MARTINDALE'S POOR MAN'S INHALER embodies the same principles in a cheaper form.

MARTINDALE'S OZONIC INHALER is a portable means of applying dry inhalation where there is excessive secretion, in catarrh, influenza, and hay fever, and of relieving the depression and frontal headache produced by coryza, or cold in the head. A few drops of the medicament should be poured into the wider end, and inhaled by the mouth-piece.

MARTINDALE'S NASAL OZONIC INHALER consists of the above fitted with a removable branched india-rubber attachment and plugs for the nostrils. It is indicated where the nasal passages are most affected.

The medicament generally supplied with the Ozonic Inhalers, unless otherwise prescribed, is a mixture of Menthol, Camphor, and Eucalyptus.

THE OZONIC.

For Medicated Dry Inhalation.
With Medicament, 1s. 6d.

KEPLER SOLUTION OF COD LIVER OIL IN MALT EXTRACT.

"Taste of the oil agreeably disguised, its nutritive powers greatly increased, and it is rendered easy of digestion."—BRIT. MED. JOUR. Patients grow fat upon it when other forms of oil cause distress and pain.

KEPLER EXTRACT OF MALT.

A delicious, concentrated, nutritious, digestive food for dyspeptics, invalids, and infants. THE

LANCET says: "It is the best and most largely used. The consumptive's best resort. It is the best substitute for cod liver oil."

Kepler Extract of Malt with Cod Liver Oil (Kepler Solution) and Kepler Malt Extract supplied to the Medical Profession in $\frac{3}{4}$ -lb. and $1\frac{1}{2}$ -lb. bottles, at 1s. 8d. and 3s. each.

VOICE "TABLOIDS."

Composed of COCAINE, Chlorate of Potash and Borax.

Impart a clear and silvery tone to the voice. Easily retained in the mouth while singing or speaking. Now used by the leading singers and public speakers throughout the world.

DIRECTIONS.—A single "Tabloid" may be slowly dissolved in the mouth to remove huskiness or hoarseness.

Supplied to the Medical Profession in beautifully graven white metal boxes, blue silk label, at 8d. and 1s. 4d. each.

Retail prices, 1s. and 2s. per box.

WAFER MEDICINE CACHETS (B., W. & CO.). (E. Gorlin's Patent.)

An ingenious yet simple method of taking disagreeable medicines in the form of liquid, powder, or "Tabloids." To charge a Cachet, which is composed of pure rice starch, it is spread out in the folder, as shown in the accompanying illustration, and the contents placed in the cap. The lid of the Cachet is then wetted and brought over by means of the lid of the folder. When pressed on the top of the cap it is completely sealed, and prevents an egress of the contents into the mouth. Just prior to taking the Cachet, it should be dipped in water and then placed on the tongue, and may be easily swallowed with a little water.

The BRITISH MEDICAL JOURNAL says they are "well adapted for the administration of unpalatable powders or liquids."

The LONDON MEDICAL RECORDER reports: "They will be welcome to medical men and to their patients, and also to pharmacists, whose labours they will lighten."

Supplied to the Medical Profession in boxes of 100, at 1s. 2d. per box.

CHLORIDE OF AMMONIUM "TABLOIDS."

The solvent and discutient as well as antiphlogistic powers of Chloride of Ammonium are well known, and have led to its extensive employment in cases of sore throat and bronchitis, attended with abundant secretion of thick and tough mucus or phlegm. The "Tabloids," slowly dissolving, secure direct and continuous contact with the inflamed surface. They quickly mitigate irritation, and lessen expectoration.

Two or three of the "Tabloids" will sometimes entirely relieve coughs that have long resisted treatment with ordinary remedies.

Supplied to the Medical Profession in bottles at 5d. and 9d. each. Retail prices, 6d. and 1s. each.

HAZELINE.

A colourless distilled product, containing the volatile active principles of the fresh green twigs and leaves of the Witch Hazel.

PROPERTIES — *Hæmostatic, Anodyne, and Astringent.*

Prescribed in cases of hæmorrhage from the nose, lungs, womb, rectum, etc. Is a valuable agent in the treatment of bruises, sprains, inflammation, peritonitis, piles, fistula, anal fissures, ulcers, varicose veins, eczematous surfaces, tonsillitis, pharyngitis, nasal and post-nasal catarrh, stomatitis, leucorrhœa, nasal polypi, &c.

Witch Hazel Plant.

Supplied to the Medical Profession in 4-oz. and 16-oz. bottles, at 1s. 2d. and 3s. 6d. each.
