

Proceedings of the

CAMBRIDGE PHILOSOPHICAL
SOCIETY

(MATHEMATICAL AND PHYSICAL SCIENCES)

VOLUME 55

PART 4

CAMBRIDGE UNIVERSITY PRESS

BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1
AMERICAN BRANCH: 32 EAST 57TH STREET, NEW YORK 22, N.Y.

Price Thirty-eight Shillings Net (U.S.A. \$6.50)

Subscription price per volume £6. 10s. net post free (\$23.50 in U.S.A.)

October 1959

CAMBRIDGE PHILOSOPHICAL SOCIETY

FOUNDED 1819; ROYAL CHARTER 1832

Session 1958–1959

President: F. P. BOWDEN

Vice-Presidents: E. J. H. CORNER, F. J. W. ROUGHTON, F. P. WHITE

Treasurer: R. C. EVANS

Secretaries: (Mathematical) H. P. F. SWINNERTON-DYER

(Physical) T. E. FABER

(Biological) S. SMITH

The publications of the Society consist of the *Proceedings* and of the *Biological Reviews*. The publication of *Transactions* was suspended at the end of Volume XXII.

Orders should be sent to: THE MANAGER, CAMBRIDGE UNIVERSITY PRESS, BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1. Enquiries from the U.S.A. should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, U.S.A.

For the purchase of early parts of the *Transactions*, *Proceedings* and *Biological Reviews* application should be made to the Secretaries. All parts of the *Proceedings* and *Biological Reviews* are available, and prices of sets or single parts will be quoted on application.

Fellows and Associates of the Society are particularly requested to inform the Secretaries of any change of postal address, and to send their subscriptions to the Treasurer, CAMBRIDGE PHILOSOPHICAL SOCIETY, FREE SCHOOL LANE, CAMBRIDGE.

All correspondence regarding library exchanges and Fellows' copies should be addressed to the Secretaries at the Society's office.

PROCEEDINGS of the CAMBRIDGE PHILOSOPHICAL SOCIETY

edited by

H. P. F. SWINNERTON-DYER

in consultation with

P. C. CLEMMOW

D. V. LINDLEY

F. URSELL

T. E. FABER

F. SMITHIES

E. C. ZEEMAN

E. R. LAPWOOD

1. Four parts of the *Proceedings* are issued each year.
2. Communications for the *Proceedings* should be sent to *The Librarian, Cambridge Philosophical Society, Free School Lane, Cambridge*. Papers by Fellows and Associates of the Society should be communicated directly by the author. Other papers must be communicated by a Fellow, who in doing so should give his opinion on the suitability of the paper for publication.
3. Papers occupying more than twenty pages of print can only very rarely be accepted.
4. It is recommended that each paper be prefaced by a short abstract. Copies of a *Guide for the Preparation of Synopses*, prepared by the Abstracting Services Consultative Committee and issued by the Royal Society, may be obtained from the Librarian.
5. Drawings for illustration and diagrams should be on a large scale and on smooth white Bristol board in Indian ink.
6. References should be listed at the end of each paper. World List abbreviations for titles of journals should be used and first and last page numbers given where relevant.
7. Authors are particularly requested to prepare their manuscripts in a form suitable for printing, with adequate margins. A pamphlet on the preparation of papers may be obtained from the Librarian. If a large number of corrections are required in the proofs, the Council reserves the right to make a charge towards the cost.
8. Authors may receive, on request, fifty offprints of a paper in the *Proceedings* without charge.

Trigonometric Series

A. ZYGMUND

An expanded version of Professor Zygmund's *Trigonometric Series* of 1935. The first volume contains the original material, completely rewritten; the second volume includes much that has not been available in book form.
Second Edition. *Each Volume, 84s. net*

Solid State Theory

G. H. WANNIER

A clear and logical introduction to the basic concepts of solid state physics for postgraduate and final year undergraduate students. It can be used both as a class text and for private study. Each chapter includes a short bibliography and a number of problems. *35s. net*

THE JOURNAL

MONTHLY. Subjects of general interest, as apart from the specialised papers and discussions appearing in Parts "A" and "B" of the Proceedings, are treated in the monthly JOURNAL which is distributed free to members of the Institution but is also on sale to non-members.

THE PROCEEDINGS

Part "A". Contains papers and discussions concerning the specialised spheres of power generation, transmission, meters and instruments... and applications of electricity. Published in February, April, June, August, October, and December.

THE PROCEEDINGS

Part "B". Contains papers and discussions concerning the progress and developments in the fields of telecommunication, radio, electronics and the many allied interests. Published in January, March, May, July, September, and November.

JOURNAL OF THE SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS

1959

VOLUME 7, NUMBER 1 (MARCH)

- Decoding Nets and the Theory of Graphs.* ZDZISLAW PAWLAK
Integral Equations, Biorthonormal Expansions, and Noise. ROY LEIPNIK
Linear Recurring Sequences. NEAL ZIERLER
Error Bounds in Finite-Difference Approximation to Solutions of Symmetric Hyperbolic Systems. H. F. WEINBERGER
Transformations Useful in Numerical Integration Methods. EMIL GROSSWALD
The Method of Characteristics for Isoenergetic Supersonic Flows Adapted to High-Speed Digital Computers. F. EDWARD EHLERS
On the Stability Intervals of the Hill Equation. C. R. PUTNAM
Sequential Reduction to Tridiagonal Form. F. L. BAUER
The Present Theory of Turing Machine Computability. HARTLEY ROGERS, JR.
A Remark on a Paper of R. T. Gregory. MORRIS WEISFELD

VOLUME 7, NUMBER 2 (JUNE)

- On the Convergence of an Algorithm for Best Tchebycheff Approximations.* J. R. RICE
A New Derivation of Newton's Identities and Their Application to the Calculation of the Eigenvalues of a Matrix. GEORGE A. BAKER, JR.
Matrix Inversion by the Annihilation of Rank. HERBERT S. WILF
Parameter Estimation for Waveforms in Additive Gaussian Noise. P. SWERLING
Approximate Solutions of Parabolic Equations. MILTON LEES
On an Explicit Method for the Solution of a Stefan Problem. WILLIAM F. TRENCH
On the Bias Errors of Least Squares Digital Filters. MARVIN BLUM and HIRSCH GOTTSCHALK
The Optimization of Trajectories. JOHN V. BREAKWELL

The Journal is published quarterly. Subscriptions are \$8.00 per volume (\$8.50 overseas). Single numbers \$2.00 per copy from 1954, \$3.00 per copy for 1953. Orders should be placed with the

SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS

Box 7541, Philadelphia 1, Pennsylvania, U.S.A.
