

10th Workshop on Logic, Language, Information and Computation (WoLLIC '2003), Ouro Preto (Minas Gerais), Brazil, July 29–August 1, 2003	295
Notices	297

Articles should be expository or survey papers of broad interest that are accessible to a wide audience of logicians. They may deal with any areas of logic including mathematical or philosophical logic, logic in computer science or linguistics, the history or philosophy of logic, and applications of logic to other fields.

Communications should be announcements of important new results and ideas in any aspect of logic; they may be short papers in their final form or preliminary announcements (extended abstracts, position papers) of longer, full papers that will be published elsewhere. In any case, they should include, in addition to a description of the new results or ideas, enough history, background, and explanation to make the significance of the work apparent to a wide audience. *Communications* will be quickly refereed and published within six months of the submission of final versions.

Articles should be submitted to **Akihiro Kanamori**, *Department of Mathematics, Boston University, Boston, MA 02215, USA* (aki@math.bu.edu); *Communications* may be submitted to the Managing Editor **Rod Downey**, *Department of Mathematics, Victoria University of Wellington, Box 600, Wellington, New Zealand* (rod.downey@vuw.ac.nz); or to any of the other editors: **Matthew Foreman**, *Department of Mathematics, University of California, Irvine, CA 92697, USA* (mforeman@math.uci.edu); or **Phokion Kolaitis**, *Department of Computer Science, University of California Santa Cruz, Santa Cruz, CA 95064, USA* (kolaitis@cse.ucsc.edu); or **Manuel Lerman**, *Department of Mathematics, University of Connecticut, Storrs, CT 06269, USA* (mlerman@math.uconn.edu); or **H. Dugald Macpherson**, *Department of Pure Mathematics, University of Leeds, Leeds LS2 9JT, England* (pmthdm@amsta.leeds.ac.uk); or **Penelope Maddy**, *Department of Logic and Philosophy of Science, University of California, Irvine, CA 92697, USA* (pjmaddy@uci.edu).

Books for review in the BULLETIN should be sent to **ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, NY 12604, USA**. The Managing Editor for Reviews is **Alasdair Urquhart**, *Department of Philosophy, University of Toronto, 215 Huron Street, Toronto, Ontario, Canada M5S 1A1* (urquhart@cs.toronto.edu). The other editors of reviews are **Lev Beklemishev** (lev@phil.uu.nl), **Mirna Džamonja** (M.Dzamonja@uea.ac.uk), **David Evans** (d.evans@uea.ac.uk), **Erich Grädel** (graedel@informatik.rwth-aachen.de), **Geoffrey Hellman** (hellm001@umn.edu), **Denis Hirschfeldt** (drh@math.uchicago.edu), **Julia Knight** (knight.1@nd.edu), **Michael C. Laskowski** (mcl@math.umd.edu), **Roger Maddux** (maddux@iastate.edu), **Volker Peckhaus** (peckhaus@hrz.upb.de), **Wolfram Pohlers** (pohlers@escher.uni-muenster.de), and **Stawomir Solecki** (ssolecki@math.uiuc.edu).

Submitted manuscripts should be typewritten with wide margins and with double spacing between the lines, or prepared with a word processor, such as L^AT_EX or Microsoft Word. Two copies of the manuscript should be sent to the editor, and the author should also keep a complete copy and the electronic file from which the submitted copy was prepared, if a word processor was used. After the paper is accepted in its final form, an electronic copy will be appreciated and will advance the final publication date of the paper, especially if it is in L^AT_EX or A_MS-L^AT_EX. The JOURNAL and the BULLETIN OF SYMBOLIC LOGIC are typeset in a version of A_MS-L^AT_EX, using a stylefile which is posted on the ASL Website, <http://www.aslonline.org>, along with instructions for its use. Fifty offprints of each article are supplied at no charge, and additional offprints may be purchased if desired.

Postscript files of articles published in the BULLETIN may be downloaded using a Web browser from <http://www.math.ucla.edu/~asl/bsltoc.htm>. All volumes of the BULLETIN also are available online in the JSTOR database.

Requests for information, applications for membership, orders for back volumes, business correspondence, and notices and announcements for publication in the BULLETIN should be sent to the Secretary-Treasurer of the Association, **Charles Steinhorn**, *ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, NY 12604 USA*. The electronic mail address of the Association's business office is asl@vassar.edu. The ASL Website is located at <http://www.aslonline.org>.

All back volumes of the BULLETIN are available, from the Office of the Secretary-Treasurer who has information on prices and discounts to individual and institutional members.

The paper used in this BULLETIN is acid-free and falls within the guidelines established to ensure permanence and durability.

TABLE OF CONTENTS

COMMUNICATIONS

Predicative fragments of Frege Arithmetic, by ØYSTEIN LINNEBO	153
Asymptotic cones and ultrapowers of Lie groups, by LINUS KRAMER and KATRIN TENT	175
Erdős graphs resolve Fine's canonicity problem, by ROBERT GOLDBLATT, IAN HODKINSON, and YDE VENEMA	186

(Continued on inside back cover)

THE BULLETIN OF SYMBOLIC LOGIC (ISSN 1079-8986) is published quarterly, in the months of March, June, September, and December, by the Association for Symbolic Logic, Inc., 124 Raymond Avenue, Poughkeepsie, NY 12604-0001, USA. Periodicals postage is paid at Poughkeepsie NY and at additional mailing offices. The BULLETIN is distributed with THE JOURNAL OF SYMBOLIC LOGIC; the 2004 annual subscription price for the two journals is \$475. Online subscription is available from Project Euclid: visit <http://projecteuclid.org/bsl>. Postmaster: Send address changes to *The Bulletin of Symbolic Logic, Journals Division UIP, 1325 South Oak Street, Champaign, IL 61820-6903, USA*. Business correspondence should be sent to the Secretary-Treasurer of the Association, Charles Steinhorn (address on inside back cover).

The BULLETIN and the JOURNAL are the official organs of the Association for Symbolic Logic, an international organization for furthering research in symbolic logic and the exchange of ideas among mathematicians, philosophers, computer scientists, linguists, and others interested in this field. The BULLETIN invites submission of *Articles* and *Communications* and publishes reviews of publications in logic.
