

Journal of
MATERIALS RESEARCH

VOLUME 33 • NO 18
SEPTEMBER 28, 2018

A publication of the

MRS MATERIALS RESEARCH SOCIETY®
Advancing materials. Improving the quality of life.

CAMBRIDGE
UNIVERSITY PRESS

Journal of MATERIALS RESEARCH

JOURNAL OF MATERIALS RESEARCH (JMR) is an interdisciplinary journal serving the materials research community through publication of original research articles and invited reviews encompassing the synthesis, processing, characterization, properties, and theoretical description of materials.

JMR publishes new research that demonstrates a significant impact or advance of scientific understanding of interest to the materials research community. Engineering studies and applications to commercial products are beyond the scope of *JMR* and should be submitted elsewhere. Manuscripts that report data without giving an analysis, interpretation, or discussion are only acceptable if the data are sufficiently important that publication is expected to lead to significant new studies or advancements in science or technology.

Manuscripts must be submitted to the *Journal of Materials Research* electronically via ScholarOne manuscripts, at the following website address: <http://mc.manuscriptcentral.com/jmr>. Electronic submission expedites the review process and also allows authors to track the status of their manuscripts at any time. Complete instructions are available on the ScholarOne site and authors will be prompted to provide all necessary information.

Manuscripts must be prepared in English, using a word processing program, formatted to fit 8½ x11 in. paper, and saved as .doc or .pdf files. Separate graphics files (.eps and .tif) must be uploaded for each figure. Authors may also upload .xls or .ppt supplemental files as part of the manuscript submission process. All of these files will be converted to .pdf format. Detailed instructions are available on the submission web site. During submission, authors must enter all coauthor names and e-mail addresses. Manuscripts will not be considered for peer review until this information is provided. Authors must also enter manuscript keywords using the *JMR* keyword list (located on the submission web site). Authors who are not fluent in English must have their manuscript edited for correct English grammar and sentence structure before submission.

Authors are expected to follow the conventional writing, notation, and illustration style prescribed in *Scientific Style and Format: the CSE Manual for Authors, Editors and Publishers, 7th edition, 2006*. Authors should also study the form and style of printed material in this journal. SI units should be used. Authors should use an identical format for their names in all publications to facilitate use of citations and author indexes.

Manuscripts are accepted with the understanding that they represent original research, except for review articles, and that they have not been copyrighted, published, or submitted for publication elsewhere. Authors submitting manuscripts to *JMR* who have related material under consideration or in press elsewhere should send a copy of the related material to *JMR* at the time of submission. While their manuscripts are under consideration at *JMR*, authors must disclose any such related material. To expedite the review process, authors may provide names and contact information for up to four possible reviewers.

Articles are original research reports that include complete, detailed, self-contained descriptions of research efforts. All articles must contain an abstract and section headings.

Commentaries and Reviews: *Journal of Materials Research* occasionally publishes commentaries on topics of current interest or reviews of the literature in a given area. If an author proposes a review, the title, abstract, and a brief outline should be submitted to the Editorial Office via e-mail for prior consultation on the appropriateness of the topic.

Color policy: It is not necessary for authors to indicate that a figure should be displayed in color online. *JMR* will assume that any author who submits figures in color wants and agrees to their being produced in color online. Figures may be printed in color at the author's request for an additional charge. Color figures must be submitted before the paper is accepted for publication, and cannot be received later in the process. Authors cannot submit two versions of the same figure, one for color and one for black and white; only one version can be submitted. Authors need to carefully consider the following when submitting figures in color that will

be published in color online only: 1) The colors chosen must reproduce effectively and the colors should be distinguishable when printed in black and white; 2) The descriptions of figures in text and captions must be sufficiently clear for both online and print copy. When submitting figures to be in color online only, authors should include the phrase <<color online>> in the figure captions. This is the author's responsibility. Authors will see these color figures when viewing their author page proofs on screen. Authors should always print their page proofs in black and white to see how they will appear in print. Authors will NOT be allowed to submit color figures to replace black and white figures in the page proof stage. To maximize the probability that figures will be published in color online and also print as good quality black and white or grayscale graphics, authors are encouraged to follow these figure submission guidelines: 1) Submit a color graphic in Tagged Image File Format (.tif); 2) Submit color graphics with a resolution of at least 300 dpi (600 dpi if there is text or line art in the figure); 3) Submit color graphics in CMYK format; 4) Submit figures sized to fit the actual column or page width of the journal so that reduction or enlargement is not necessary; 5) Submit multipart figures in one single electronic file.

Journal of Materials Research Subscription Prices (2018)

[includes on-line web access]

	USA and Poss.	Non-US	Online Only
MRS Regular and Student Members	\$287.00	\$351.00	\$110.00
Institutions	\$2218.00	\$2156.00	\$1946.00

Journal of Materials Research (ISSN: 0884-2914) is published twenty-four times a year by Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006 for the Materials Research Society. Periodical Postage Paid in New York, NY and additional mailing offices. **POSTMASTER:** Send address changes to *Journal of Materials Research*, c/o Journals Dept., Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to Subscription Fulfillment, *Journal of Materials Research*, Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA (for USA, Canada, and Mexico); or Cambridge University Press, University Printing House, Shaftesbury Road, Cambridge, CB2 8BS, England (for UK and elsewhere). Allow at least six weeks advance notice. For address changes, please send both old and new addresses and, if possible, include a mailing label from a recent issue. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price.

Reprints of individual articles in *Journal of Materials Research* may be ordered. For information on reprints, please contact Cambridge University Press. Reprints of complete back issues older than the prior volume year may be ordered on an individual basis via Cambridge Core. To determine availability, visit the appropriate page for the *JMR* back issue desired (cambridge.org/jmr).

Individual member subscriptions are for personal use only.

Cover: SEM image of gold nanoplates synthesized by hydrothermal method with 2.5 mM CTAC concentrations [Y. Liu, L. Yang, Y. Shen: Hydrothermal Synthesis of Gold Nanoplates and Their Structure-dependent LSPR Properties. p. 2671].

Journal of MATERIALS RESEARCH

Volume 33, Number 18, September 28, 2018

INVITED FEATURE PAPER

- 2647–2660 **Recent trends and open questions in grain boundary segregation** Pavel Lejček, Monika Všianská, Mojmír Šob

ARTICLES

- 2661–2670 **Microstructure and electrochemical properties of nanoporous gold produced by dealloying Au-based thin film nanoglass** Pierre Denis, Hans-Jörg Fecht, Yanpeng Xue, Eirini Maria Paschalidou, Paola Rizzi, Livio Battezzati
- 2671–2679 **Hydrothermal synthesis of gold nanoplates and their structure-dependent LSPR properties** Yanting Liu, Lijun Yang, Yajing Shen
- 2680–2688 **Fabrication of highly porous TiAl_3 intermetallics using titanium hydride as a reactant in the thermal explosion reaction** Xinyang Jiao, Peizhong Feng, Yanan Liu, Xiaoping Cai, Jianzhong Wang, Tomasz Czujko
- 2689–2699 **Dependence of microstructure characteristics and mechanical properties on nanosize SiC_p contents in Mg–9Al matrix composites fabricated by ultrasonic-assisted semisolid powder hot pressing** Gang Li, Ming Li, Hongxia Wang, Zengyao Zhang, Weili Cheng, Wei Liang, Changjiang Zhang

INVITED FEATURE PAPER

- 2700–2710 **Fabrication of nanocomposites through diffusion bonding under high-pressure torsion** Megumi Kawasaki, Jae-Kyung Han, Dong-Hyun Lee, Jae-il Jang, Terence G. Langdon

ARTICLES

- 2711–2720 **Improved strengthening efficiency of nanoreinforcements realized by a novel melt spinning process** Xiaojun Wang, Hailong Shi, Xiaoshi Hu, Linglong Meng, Kun Wu
- 2721–2727 **Scandium on the formation of in situ TiB_2 particulates in an aluminum matrix** Dan Huang, David Yan, Siming Ma, Xiaoming Wang
- 2728–2740 **Toughening mechanisms of solution-treated SiC_p /6061 aluminum matrix composites fabricated via powder thixoforming** Xuezheng Zhang, Tijun Chen
- 2741–2751 **Mechanical enhancement of an aluminum layer by graphene coating** Ahmet Semih Erturk, Mesut Kirca, Levent Kirkayak
- 2752–2762 **Selective laser melting manufactured CNTs/AZ31B composites: Heat transfer and vaporized porosity evolution** Jiaojiao Wu, Linzhi Wang
- 2763–2774 **Assessing elastic property and solid-solution strengthening of binary Ni–Co, Ni–Cr, and ternary Ni–Co–Cr alloys from first-principles theory** Zhi-biao Yang, Jian Sun, Song Lu, Levente Vitos
- 2775–2783 **Correlation between the atomic configurations and the amorphous-to-icosahedral phase transition in metallic glasses** Guihong Geng, Zhijie Yan, Yong Hu, Zhi Wang, Sergey V. Ketov, Jürgen Eckert

(Continued)

- 2784–2795 **Using differential scanning calorimetry to characterize the precipitation and dissolution of V(CN) and VC particles during continuous casting and reheating process**
Mujun Long, Tao Liu, Huabiao Chen, Dengfu Chen, Huamei Duan, Helin Fan, Kai Tan, Wenjie He
- 2796–2805 **Mechanical behavior of a DD5 single crystal superalloy with different misorientations under quasi-static and dynamic compression**
Zhenpeng Liu, Hong Zhong, Yumin Wang, Shuangming Li, Hengzhi Fu
- 2806–2816 **Development of Mg–Zn–Y–Ca alloys containing icosahedral quasicrystal phase through trace addition of Y**
Kaibo Nie, Xinkai Kang, Kunkun Deng, Yachao Guo, Jungang Han, Zhihao Zhu
- 2817–2826 **Hot deformation behavior and microstructural evolution of Mg–Zn–Ca–La alloys**
Jiqiang Qi, Yuzhou Du, Bailing Jiang, Mingjie Shen
- 2827–2834 **Grain refining and improving mechanical properties of AZ31 Mg alloy sheets by multi-pass warm rolling with falling temperature**
Yanchun Zhao, Hua Zhang, Jianfeng Fan, Lifei Wang, Qiang Zhang, Cheng Peng, Hongbiao Dong, Bingshe Xu
- 2835–2843 **Preparation and characterization of monosized Cu–Sn spherical alloy particles by pulsed orifice ejection method**
Ying-yan Hu, Wen Yue, Jian-qiang Li, Wei Dong, Can Li, Bing-qian Ma, Chao Liu, Jian-jun Han
- 2844–2852 **Microstructure evolution and hot deformation behavior of spray-deposited TiAl alloys**
Yandong Jia, Long Xu, Pan Ma, Konda Gokuldoss Prashanth, Chenghui Yao, Gang Wang
