MATHEMATIKA is published by the Department of Mathematics, University College London. It contains original notes and memoirs on mathematics and its applications. Any diagram submitted with manuscripts should be of a size not exceeding 1.5 times the final size for printing. Authors are requested to submit a copy with their original manuscript. Each author of each article published will receive 50 reprints free.

Two parts of MATHEMATIKA are published each year. The parts normally appear in June and December, but are sometimes delayed.

The editors regret that the subscription price has had to be increased beyond the normal inflationary increase since the Department of Mathematics is no longer able to subsidize this publication. Such an increase will not be necessary next year. The subscription price for the volume of two parts for 1987 is £34.00. Cheques and Bankers' drafts should be made payable to University College London and should be sent to

MATHEMATIKA

University College London
Gower Street
London WC1E 6BT
England.

Overseas subscribers must arrange to pay by Bankers' Draft drawn in Sterling on London, otherwise bank collection charges absorb a substantial proportion of the total payment, money we can ill afford to lose.

A special subscription rate of £26.00 applies to members of some national Mathematical Societies requiring MATHEMATIKA for their personal use.

Back numbers are available. Please write stating your requirements and asking for a quotation.
