

GENERAL NOTES

ROYAL SOCIETY OF MEDICINE.

1 *Wimpole Street, London, W. 1.*

Section of Laryngology.—The next Meeting of the Section will be held on Friday, 6th May at 5 P.M. Members who are desirous of showing patients or specimens are requested to give notice to the Hon. Secretary, along with a short précis stating the more important facts.

President, Mr. Walter Howarth, 149 Harley Street, London, W. 1.
Hon. Secretaries, Mr. A. Lowndes Yates, 33 Weymouth Street, London, W. 1, and Mr. F. J. Cleminson, 32 Harley Street, London, W. 1.

Section of Otology.—The next Meeting of the Section will be held on Friday, 6th May at 9.30 A.M. The subject for discussion is Labyrinthitis. Papers will be read by Dr. Logan Turner and Mr. J. S. Fraser: "Labyrinthitis: Treatment and Results." Mr. J. S. Fraser: "A Case of Bilateral Labyrinthitis," with slides. Discussions on these papers will follow.

President, Mr. Norman Patterson, 82 Portland Place, London, W. 1.
Hon. Secretaries, Dr. T. B. Jobson, Netherwood, Epsom Road, Guildford, and Mr. C. Gill-Carey, 106 Harley Street, London, W. 1.

BRITISH MEDICAL ASSOCIATION.

CENTENARY MEETING IN LONDON, JULY 21-30, 1932.

The Section of Oto-Laryngology will meet under the Presidency of Sir St Clair Thomson on three days, viz: Wednesday, Thursday and Friday, 27th, 28th and 29th July. The subjects for discussion are: 27th July—"Otitis Media of Sucklings"; 28th July—"Intrathoracic New Growths and the value of Bronchoscopy in Diagnosis and Treatment"; 29th July—"End Results of the Tonsil and Adenoid Operation in Childhood and Adolescence."

* * *

The first award of the Logan Turner Prize will be made in June 1932. The subject is "To investigate the part played by Allergy or Sensitisation as a factor in predisposing the mucous membrane of the paranasal air sinuses to infection and its bearing upon the treatment of disease of these cavities." Papers should be sent in to the Secretary, Laryngological Section, Royal Society of Medicine, 1 Wimpole Street, London, W. 1.

Peroral Endoscopy Table

Designed and built at Chiron Works for King's College Hospital

This table is arranged for nasal and aural operations as well as for endoscopic work.

The back rest is adjustable from the dependant position shown in the illustration to one nearly at right angles to the top of the table for nasal operations, in which case a suitable head rest is attached.

The table is adjustable in height and can be tilted in either direction and is absolutely rigid in any position. Further particulars furnished on request.
