A book which will review the discussions at the seminar and include relevant material from the research papers is in preparation under the editorship of Professor Samir Amin.

#### *Institute of African Studies, University of Ghana, Legon*

An interdisciplinary seminar on the theme *Rural and Urban Family Life in West Africa* was held at the Institute of African Studies of the University of Ghana, Legon from 21 to 25 June 1972. Over thirty participants, working in the fields of anthropology, sociology, economics, demography, law, linguistics, education, home science, psychology, and social welfare made contributions. An important function of the meeting was to bring together a number of people who have recently been working on similar kinds of research problems. It is envisaged that the papers will be grouped for publication into a number of sections including Reform and Welfare, Descent and Property, Residential Patterns, Migration and Change, and Attitudes and Expectations. Guest participants were drawn from the Institut National de la Recherche Scientifique and ORSTOM Lomé and from the Universities of Lagos, Manchester, Edinburgh, and Cambridge.
