

# **AQUILA BOOKS**

is pleased to announce the acquisition of the entire remaining stock of the following reprint series:

**Bibliotheca Australiana, The Argonaut Press,  
and Theatrum Orbis Terrarum**

*Published by Nico Israel of Amsterdam*

## **Bibliotheca Australiana**

This extensive series of facsimile editions chronicles 400 years of Pacific exploration, from the beginning of the sixteenth century to highly organized scientific expeditions at the end of the nineteenth century. Forty different titles are available, including the following authors: Colnett, Hearne, La Pérouse, Vancouver, Bennet, Portlock, Krusenstern, Lütke, and Beechey.

## **The Argonaut Press**

Facsimile editions of classics of travel and exploration. All original 16 titles in the series are available, including the following authors: Dampier, Drake, Cabot, Columbus, Polo, Raleigh, and Best.

## **Theatrum Orbis Terrarum**

Facsimile editions of outstanding atlases and pilot books. Twenty-three different titles are available, including the following cartographers: Barents, Coronelli, Jefferys, Mercator-Hondius, Ptolemaeus, and Seller.

**All books in these series are printed on fine, durable paper and are sturdily bound. In addition to the above series, other important titles published by Nico Israel are available.**

**A detailed catalogue has been prepared and we would be pleased to send a complimentary copy to those interested. Please contact us by phone, fax, or mail, indicating your interests.**

## GLACIERS

Michael Hambrey and Jürg Alean

Now available in paperback, *Glaciers* presents a unique pictorial exploration of glaciers and the power of ice.

Using over eighty of the authors' own colour photographs to form the core of the book, a worldwide perspective is adopted to answer such questions as where exactly do glaciers exist, and why? How do they move? How have they created some of our finest and most dramatic upland landscapes? And how can their power be harnessed?

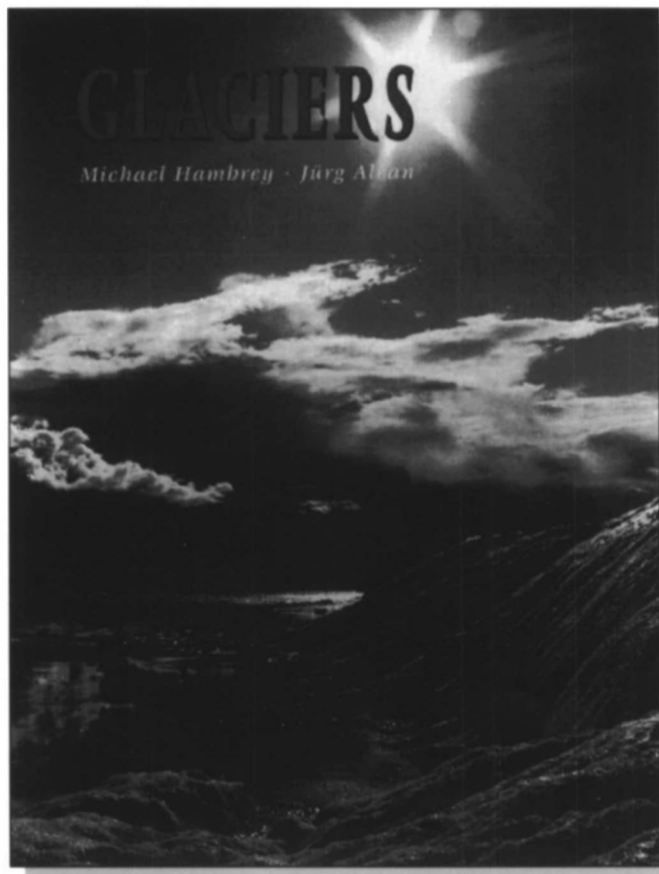

'The book is a fine introduction to the world of glaciers. It is authoritative and yet written in an appealingly straightforward manner...The specialist will dwell on the marvellous pictures. The general reader will enjoy the introduction to the realm of glacier ice.'

*The Times Higher Educational Supplement*

'...packed with the most beautiful photographs of glacial environments that show off their spectacular beauty ... the text is meaty and full of interesting facts'

Jane Francis, *Geoscientist*

£12.95 Paperback 0 521 46787X  
Publication date June 1994
