ON HISTORY AND OTHER ESSAYS

By Michael Oakeshott

Foreword by Timothy Fuller

In five essays, including three on historiography, one of the greatest minds in English political thought in the twentieth century explores themes central to the human experience: the nature of history, the rule of law, and the quest for power that is intrinsic to the human condition. Michael Oakeshott believed, as Timothy Fuller observes, that “the historian’s effort to understand the past without ulterior motive [is the] effort which distinguishes the historian as historian from all who examine the past for the guidance they expect it to provide about practical concerns.” The essays on history are “Present, Future, and Past,” “Historical Events: The fortuitous, the causal, the similar, the correlative, the analogous, and the contingent,” and “Historical Change: Identity and continuity.” In “The Rule of Law,” Oakeshott takes the expression to mean a particular kind of ideal human relationship. In “The Tower of Babel”—in one of two essays he wrote by the same title and on the same subject—Oakeshott discusses the various versions in which the Bible story has been told and the different circumstances which it has been used to illuminate. *On History* was originally published in 1983.

220 + xx pages. Foreword, index.
