## Ancient Philosophy from Oxford

### Rationality in Greek Thought

Edited by **MICHAEL FREDE** and **GISELA STRIKER**

*Rationality in Greek Thought*, a collection of specially written essays by leading international scholars, fundamentally re-examines ancient ideas of reason and rationality. The application of changing notions of rationality down the ages has led to consistent misinterpretation of standard ancient philosophical texts: the contributors here redress the balance, clarifying how the great thinkers of antiquity themselves conceived of rationality.

### Form and Argument in Late Plato

Edited by **CHRISTOPHER GILL** and **MARY MARGARET MCCABE**

Why did Plato put his philosophical arguments into dialogues, rather than presenting them in a plain and readily understandable fashion? A group of distinguished scholars here offer answers to this question, by studying the relation between form and argument in his late dialogues. These penetrating studies show that the literary structure of the dialogues is of deep importance to the philosophical enterprise of interpreting Plato.

### The Sceptic Way

**Sextus Empiricus's**  
*Outlines of Pyrrhonism*

Translated with introduction and commentary by **BENSON MATES**

A study of Pyrrhonian scepticism, consisting of a new translation of Sextus Empiricus' *Outlines of Pyrrhonism*, accompanied by an analytic introduction and an in-depth, section-by-section commentary — the first of its kind available.

### Oxford Studies in Ancient Philosophy

Volume XIV, 1996

Edited by **C. C. W. TAYLOR**

*Oxford Studies in Ancient Philosophy* is an annual publication which includes original articles, which may be of substantial length, on a wide range of topics in ancient philosophy, and review articles of major books.

0-19-823870-0, 322 pp, line drawings, Clarendon Press, £35.00

### Sextus Empiricus: *Against the Ethicists*

Translated with an introduction and commentary by **RICHARD BETT**

This volume contains a translation into clear modern English of an unjustly neglected work by Sextus Empiricus, together with introduction and extensive commentary. Sextus is our main source for the doctrines and arguments of ancient Scepticism; in *Against the Ethicists* he sets out a distinctive Sceptic position in ethics.
