2003 CAEP/ACMU Scientific Abstracts Key Word Index

Key Word	Abstract No.	diagnostic imaging	1, 34, 46, 50,	N-Q	
			96, 98, 99	number needed to treat	79
		dihydroergotamine	40	opioid overdose	100
А-В		dysrhythmia	19	outcomes	14, 23, 93
acute coronary syndromes	5, 8	• •		overcrowding	12, 41, 49,
airway management	66, 67	E			51, 77, 92, 94
allergic reaction	71	ectopic pregnancy	56	patient satisfaction	91
appendicitis	34, 58, 97	emergency medical serv	vices 2, 11, 13, 41,	pediatrics	59, 68
asthma	69, 75		58, 59, 61, 64,	peritonsillar abscess	72
atrial fibrillation	19, 30		65, 67, 86	physician order entry	23
bronchiolitis	35	emergency workload	47	pneumonia	45, 68, 70
buckle fracture	33	ethanol	57	procedural sedation	55
		ethylene glycol	57	propafenone	54
C		, ,,		public access defibrillat	ion 62, 63
C reactive protein	9	F_1	ſ	pulmonary embolism	44
cardiac arrest	6, 10, 11,	fibrinolysis	84, 85	quality	12, 14, 21, 23, 26,
	20, 63, 82	HIV	18		43, 77, 78, 91, 93
cellulitis	38	information systems	21, 24, 26, 28, 64		
cervical spine injury	46, 50	injection drug user	55	R–T	
chest pain	13, 98	injury prevention	73, 88	scaphoid fracture	42
chronic obstructive lung dis				sputum culture	45
clinical practice guideline	22, 38, 78	.J–M		subarachnoid hemorrha	ge 3, 60
clinical prediction rule	1, 31, 46,	length of stay	51	substance misuse	53
1	50, 60, 99	low-molecular-weight h	neparin 83	suicide	89
computed tomography	1, 31, 34,	magnesium	75	survey research	80
1 217	58, 97, 99	malaria	76	toxicity	54
corneal abrasion	87	medical education	27, 81	trauma	2, 43, 86, 95
corticosteroids	32, 36, 69, 90	methanol	57	triage	15, 16, 17, 29
critical appraisal	79	methodology	80	troponin	7
		metoclopramide	37		
D		migraine	37, 40, 90	U	
deep vein thrombosis	83	mononucleosis	36	ultrasound	56
diagnosis	7, 9	myocardial infarction	4, 5, 7, 9, 39, 84, 85	utilization 1	8, 24, 27, 52, 74, 95
