LONDON:—JOHN CHURCHILL & SONS, NEW BURLINGTON STREET.

8vo, pp. 309, price 9s.

THE GANGLIONIC NERVOUS SYSTEM; its STRUCTURE, FUNCTIONS, and DISEASES. By JAS. GEO. DAVEY, M.D. St. And., M.R.C.P. Lond., &c.

“A volume of peculiar interest to medical and physiological readers. The author appears to have studied minutely and exhaustively the special subject of the present treatise from the earliest period of his professional career.”—LEADER.

“We can safely recommend its perusal. The author draws ingenious inferences from the facts and premises set forth, and attempts to explain the resulting phenomena in a manner quite different from other writers.”—DUBLIN MED. PRESS.

“An interesting and important work.....Dr. Davey combats the anatomical views of Dr. M. Hall and Mr. Grainger, and very ably maintains the opinion that there is no necessity for any distinct division of the spinal nervous system for the production of the excito-motory phenomena.....The work is full of interesting and original matter, and will amply repay perusal.”—JOURNAL OF MENTAL SCIENCE.

By the same Author.

ON THE NATURE AND PROXIMATE CAUSE OF INSANITY. Post 8vo, pp. 77, cloth, 3s.

“It gives us much pleasure to state that the method of treatment inculcated is most judicious, and that the general statements which pervade the work are such as do honour to the head and heart of the writer.”—PSYCHOLOGICAL JOURNAL.

“The views themselves are, *practically*, of great importance, and we have great pleasure in urging them upon the attention of our readers.”—HALF-YEARLY ABSTRACT OF MED. SCIENCES.

JOHN CHURCHILL AND SONS, New Burlington Street.

Pulvis Jacobi Ver., Newbery's.

FRANCIS NEWBERY AND SONS,
45, ST. PAUL'S CHURCHYARD.

SPARKS AND SON, INVENTORS

of the INDIA-RUBBER URINALS for MALE and FEMALE RAILWAY TRAVELLERS, INVALIDS, and CHILDREN.

These Urinals are made on the most approved principles, and all are fitted with the recently-invented valve, which will not allow any return of the water by the upper part, by being placed in any position, and from their improved construction are better than any similar articles at present in use.

A liberal discount to the Medical Profession. Descriptive Circulars and Lists of Prices sent per Post.

Hospitals, Infirmaries, and Unions supplied on the best terms with every article for the use of the sick and invalided.

SPARKS AND SON,
