

Subject Index to Volume 45

A

Africa 361
Angelman syndrome 179, 255

B

Beckwith-Wiedemann syndrome 179, 245
Behaviour 325
Birth weight 439

C

C-Fos 289
C-Jun 289
Chromosomal nondisjunction 265
Chromosome 14, 15, 169
Cognitive development 325
Conceptualization 449
Controls 405
Coping ability 405
Couple effect 449
Cyclic variation 397
Cystic hygroma 387

D

Development 439
Discordance 439

Dizygotic rate 397
Dizygotic twinning rate 317
Dizygotic twins 431
Doppler ultrasound 383
Down syndrome 265
Duplication 11p15 245

E

Earnings 417
Epidemiology and Malformations 461
Equal environment assumption 349
Ethnic variation 361

F

Fecundity 317
Fetal death 333
Field dependence 449
Fragile X syndrome 165
FRAXA locus 165

G

Genetic factors 431
Genomic 145
Genomic imprinting 245, 265

478 Subject Index

H

H19 179
Heredity-environment influences 405
Human 289
Human growth 111

I

Immunohistochemistry 289
Imprinting 111, 145, 169, 179, 213
In vitro fertilization (IVF) 361
Individual development 405
Isochromosome 213
IUGR 333

L

Language 325
Longitudinal life situation 405

M

Maternal age 317
Methylation pattern 273
Microsatellite analysis 273
Monozygotic twinning rate 317
Monozygotic twins 431
Multifetal pregnancy 361
Multiple births 317
Multiple pregnancy 361

N

Non-radioactive PCR 165
Nonimmune hydrops fetus universalis
387

O

Oral contraceptives 317
Ovulation induction 361

P

Periodicity 397
Prader-Willi syndrome 213, 273
Prenatal ultrasound diagnosis 387
Preterm 439

Q

Quadruplet pregnancies 361

R

Retinoblastoma 289
Risk 439
Robertsonian translocation 169, 255
Robertsonian translocation 15q15q 213

S

Schooling 417
Seasonality 397
Secular trend 317
Self reported health 405
Single fetus demise 383
Socio-economic status 325

T

Temperament 439
Transgenerational effects 111
Translocation (11;21) 245

Triplets 333

Trisomy 11p 245

TSC2 gene 63

Tuberous sclerosis complex (TSC) 63

Twin births 397, 431

Twin births in southeastern Brazil 397

Twin doppler 383

Twin pregnancy 383

Twinning 461

Twinning rate 317, 361, 431

Twins 325, 333, 405, 417, 439

U

Uniparental disomy 145, 169, 213, 255

V

Very low birthweight (VLBW) 325
