Physician – Infectious Disease/Hospital Epidemiology

Dartmouth-Hitchcock in Lebanon, NH and The Geisel School of Medicine at Dartmouth are seeking a Hospital Epidemiologist in the Section of Infectious Disease and International Health (IDIH). Dartmouth-Hitchcock is an organization committed to Population Health and Patient Safety. This is an opportunity for the right candidate to develop innovative programs both within the Dartmouth-Hitchcock Medical Center and regionally. This individual will dedicate 20% of his/her time to clinical care within the IDIH Section, at least 5% to teaching within the medical school, and the remainder to leadership, research, and practice of Hospital Epidemiology and Infection Prevention at Dartmouth-Hitchcock. The successful candidate will be board certified in Infectious Disease with active clinical and hospital epidemiology responsibilities, have an outstanding record of scholarly achievement and original research, and possess excellent interpersonal and mentoring skills as well as administrative ability and experience.

IDIH is a strong and stable clinical Section within the Department of Medicine. The core membership of the Collaborative Healthcare-associated Infection Prevention Program at Dartmouth-Hitchcock Medical Center currently includes two physicians, three infection preventionists, an operational leader, and a data manager. Candidates must be eligible to be licensed by the State of New Hampshire and qualify for a faculty appointment in the Department of Medicine at the Geisel School of Medicine at Dartmouth. Rank at the Geisel School of Medicine at Dartmouth will be at the level of Associate Professor or higher, commensurate with experience.

Dartmouth-Hitchcock Medical Center is a state-of-the-art facility located in the Upper Connecticut Valley of New Hampshire. This unique area of Northern New England offers excellent schools, lively arts and an unmatched quality of life in a beautiful, rural setting and because the area is also home to the prestigious Ivy League Dartmouth College, it offers a vibrant academic and professional community setting. It is located within 2-3 hours driving from Montreal, Boston and the Maine shore and 4.5 hours from New York City.

Dartmouth-Hitchcock Clinic is an affirmative action/equal opportunity employer and is especially interested in identifying female and minority candidates.

“An accessible and gripping narrative on a serious topic that manages to explain, in plain English, how viruses are changing the world.”—NATHAN WOLFE, founder and CEO of Global Viral Forecasting

A Planet of **Viruses** CARL ZIMMER

“*A Planet of Viruses* is an important primer on the viruses living within and around all of us—sometimes funny, other times shocking, and always accessible. Whether discussing the common cold and flu, little-known viruses that attack bacteria or protect oceans, or the world’s viral future as seen through our encounters with HIV or SARS, Zimmer’s writing is lively, knowledgeable, and graced with poetic touches.”

Address infection prevention and quality of patient care with this hands-on guide to epidemiologic principles and prevention strategies.

In recent years, issues of infection prevention and control, patient safety, and quality-of-care have become increasingly prominent in healthcare facilities. *Practical Healthcare Epidemiology* takes a practical, hands-on approach to these issues, addressing all aspects of infection surveillance and prevention in clear, straightforward terms. This fully revised third edition brings together the expertise of more than fifty leaders in healthcare epidemiology who provide clear, sound guidance on infection prevention and control for the full range of patients in all types of healthcare facilities, including those in settings with limited resources. A powerful resource for practitioners in any branch of medicine or public health who are involved in infection prevention and control, whether they are experienced in healthcare epidemiology or new to the field.

"A handy desk reference and an up-to-date primer for trainees and experts alike." — JAMA, The Journal of the American Medical Association

"An essential for anyone in the field." — Thomas R. Talbot, Chief Hospital Epidemiologist, Vanderbilt University Medical Center

"A much-needed response to the currently tough challenges posed to healthcare epidemiologists and infection preventionists ... highly recommended reading for trainees and professionals in infection control—and healthcare epidemiologists in particular."
