FORTHCOMING PAPERS

The next issue of the British Journal of Nutrition will appear in September 1973. It is hoped to publish in it the following papers:

CLINICAL AND HUMAN NUTRITION

Response to oral administration of pteroylmonoglutamic acid or pteroylpolyglutamate in newborn infants of low birth weight. By Pamela D, Samuel and W. L. Burland

Experimental protein-energy malnutrition in baby baboons. 2. Liver pathology. By R. S. PATRICK, A. M. MACKAY, DOROTHY G. COWARD and R. G. WHITEHEAD

Studies on the composition of food, 4. Comparison of the nutrient content of retail white bread made conventionally and by the Chorleywood Bread Process. By R. A. KNIGHT, A. A. CHRISTIE, C. R. ORTON and JEAN ROBERTSON

Metabolic balance of zinc, copper, cadmium, iron, molybdenum and selenium in young New Zealand women. By Marion F. Robinson, Joan M. McKenzie, Christine D. Thomson and Anita L. van Rij.

Feeding trials with lysine- and threonine-fortified rice. By Sheila M. Pereira, Sheila Jones, G. Jesudian and Almas Begum

A pilot study of vitamin B12 in the treatment of tiredness. By R. F. ELLIS and S. NASSER

Circulating 'big' insulin in protein-calorie malnutrition. By DOROTHY J. BECKER, PENELOPE J. MURRAY, J. D. L. HANSEN and B. L. PIMSTONE

GENERAL NUTRITION

Morphological and functional aspects of oxytetracycline administration to conventional rats. By E. J. RUITENBERG, E. H. KAMPELMACHER, LUCRETIA M. VAN NOORLE JANSEN and PH. COHEN

Amino acid composition of hen's egg. By P. Lunven, C. Le Clement de St Marco, E. Carnovale and A. Fratoni

The energy cost in adult cattle of standing and lying. By J. E. VERCOE

Changes in lipid metabolism in genetically different types of calves during chronic hyperthermia. By J. C. O'KELLY

Rate of passage of digesta in sheep. 2. The effect of level of food intake on digesta retention times and on water and electrolyte absorption in the large intestine. By W. L. GROVUM and J. F. HECKER

Rate of passage of digesta in sheep. 3. Differential rates of passage of water and dry matter from the reticulo-rumen, abomasum and caecum and proximal colon. By W. L. GROVUM and V. J. WILLIAMS

Urinary aromatic acid excretion by fed and fasted sheep in relation to protein metabolism in the rumen. By A. K. MARTIN

Carbohydrases of the bovine small intestine. By N. B. COOMBE and R. C. SIDDONS

Comparison of the development of proteolytic activity in the abomasum of the preruminant calf with that in the stomach of the young rabbit and guinea-pig. By M. J. HENSCHEL

The chemical nature of the bound nicotinic acid of wheat bran: studies of nicotinic acid-containing macro-molecules. By J. B. MASON, NORAH GIBSON and E. KODICEK

Rate of passage of digesta in sheep. 4. Passage of marker through the alimentary tract and the biological relevance of rate-constants derived from the changes in concentration of marker in faeces, By W. L. GROVUM and V. J. WILLIAMS

Absorption of glucose and galactose and digesta and absorption of lactose by the preruminant calf. By N. B. Соомве and R. H. Sмгтн

Proteolytic enzyme activity in the gut of doe-suckled and hand-reared rabbits. By M. J. HENSCHEL

The effect of bypassing the rumen with supplements of protein and energy on intake of concentrates by sheep. By E. R. Ørskov, C. Fraser and R. Pirie

The effect of inhibitors of methane production on fermentation pattern and stoichiometry in vitro using rumen contents from sheep given molasses. By R. J. MARTY and D. I. DEMEYER

Rate of passage of digesta in sheep. 5. Theoretical considerations based on a physical model and computer simulation. By W. L. GROVUM and G. D. PHILLIPS

The British Journal of Nutrition

Volume 30 No. 1 July 1973

CONTENTS

CLINICAL AND HUMAN NUTRITION	
Independent jejunal mechanisms for glycine and glycylglycine transfer in man in vivo. By G. C.	
Cook .	13-19
The effects of supplements varying in carotene and calcium content on the physical, biochemical and skeletal status of preschool children. By R. RAJALAKSHMI, S. S. SAIL, D. G. SHAH and S. K. AMBADY	77-86
The effect of work level and dietary intake on water balance and the excretion of sodium, potassium and iron in a hot climate. By ERICA F. WHEELER, HAMAD EL-NEIL, J. O. C. WILLSON	.07 .07
and J. S. Weiner	127-137
GENERAL NUTRITION	
Conversion of lutein into dehydroretinol by the freshwater fish, Saccobranchus fossilis. By A. B. Barua, H. Tombi Singh and R. C. Das	1-12
The effects of environmental temperature and plane of nutrition on heat loss, energy retention and deposition of protein and fat in groups of growing pigs. By M. W. A. VERSTEGEN, W. H.	21.26
CLOSE, I. B. START and L. E. MOUNT	21-35
Influence of meal-feeding on some of the effects of dietary carbohydrate deficiency in rats. By S. S. AKRABAWI and J. P. SALJI	37-43
Protein requirements of growing lambs. By J. L. BLACK, G. R. PEARCE and D. E. TRIBE	45-60
Iron metabolism in the yeal calf, 2, Iron requirements and the effect of copper supplementation.	
By I. Bremner and A. C. Dalgarno	61-76
The effect of frequency of feeding on the flow and composition of duodenal digesta in sheep given straw-based diets. By F. THOMPSON	87-94
Importance of palatability in determining the feed intake of sheep offered chopped and pelleted	1200
hay. By A. I. van Niekerk, J. F. D. Greenhalgh and G. W. Reid	95-105
Allantoin excretion in the rat. By Nelly Pak, G. Donoso and María A. Tagle	107-112
The protein requirement of the ruminant calf. 4. Nitrogen balance studies on rapidly growing calves given diets of different protein content. By I. J. F. Stobo and J. H. B. Roy	113-125
Metabolic studies of [76Se]selenomethionine and [76Se]selenite in the rat. By Christine D. Thomson and R. D. H. Stewart	139-147
The measurement of total body water in living pigs by deuterium oxide dilution and its relation	149 156
