Patrons and Power

Creating a political community in metropolitan Lagos

Sandra T. Barnes

'Sandra T. Barnes's compelling study of patron-client relations . . . is not only an exemplary case study of the creation of a political community but also a significant contribution to the analysis of political patterns in contemporary Africa.'

'*Patrons and Power* challenges several fundamental tenets of contemporary African political studies.'

'Barnes's superb study . . . raises a host of questions . . . It is the mark of an exceptional academic work that it raises . . . new questions, thereby setting the parameters of an innovative research agenda. Sandra Barnes's analysis . . . is a rare example of such a study.'

Naomi Chazan, Hebrew University of Jerusalem
The Annals of the American Academy of Political and Social Science

' . . . a masterly and fascinating book which deserves a wide readership, and one by no means confined to Africanists.'

Robert Smith
Journal of African History

'This book is particularly worth reading for all those who want to gain an insight into social dynamics and the politically propulsive role of individuals with leadership potential.'
