

Coffee and Conflict in Colombia, 1886~1910

Charles W. Bergquist

“I suspect Colombian specialists will look on Bergquist’s study as the most important book to appear on Colombian history in either Spanish or English for some years. Other Latin Americanists will find that Bergquist has dealt with some fundamental issues that transcend the Colombian case, in particular with the political and economic consequences of Latin America’s increasing integration into the world economy. Thus, Bergquist’s book has the further potential to become a point of reference in discussions of Latin America as a whole.” David Bushnell, University of Florida

A section of this book was awarded the Robertson Prize for the best article to appear in *Hispanic American Historical Review* in 1976.

The African Religions of Brazil

Toward a Sociology of the Interpenetration of Civilizations

Roger Bastide

translated by Helen Sebba

“Incontestably the finest analysis of an Afro-American belief system ever done.” — *Sidney W. Mintz, The Johns Hopkins University*

In this long-needed translation of a French classic, Roger Bastide, one of France's most brilliant and creative anthropologists, develops a theory of the interpenetrations of the African and European, Christian and non-Christian, cultures in Brazil from the colonial times to the present. Addressing a remarkable range of topics from the history of slavery in Brazil to world-wide race relations, the book is a compelling study of the origins and growth of a native religious environment. \$28.50 hardcover; \$8.95 paperback

The Dominican Crisis

The 1965 Constitutionalist Revolt and American Intervention

Piero Gleijeses

translated by Lawrence Lipson

The Dominican revolt, argues Piero Gleijeses, “could have shown a new, non-Cuban road toward social change in Latin America. Instead,” he concludes, “the Pax Americana prevailed.” This lively, vivid, and thoroughly documented historical narrative unravels the many facets of the Dominican crisis — diplomatic intrigues, military maneuvers, negotiations, street fighting — and offers a controversial assessment of the United States' role in the conflict. \$22.50

Manchester and São Paulo

Problems of Rapid Urban Growth

Edited by John D. Wirth & Robert L. Jones. Nineteenth-century Manchester, the first great industrial city, and twentieth-century São Paulo, the premier industrial city of the Third World, are the two great paradigms of explosive urban growth under industrial capitalism. The nine papers in this book examine similarities and differences in the forces that shaped the two cities, in the process providing general insights into the conditions and consequences of rapid urbanization and industrialization. \$17.50

Class Conflict and Economic Development in Chile, 1958-1973

Barbara Stallings. This account of the interplay of politics and economics throughout three successive Chilean regimes (ending with the 1973 coup) documents the vital role played by social class in determining not only the types of economic policies followed in Latin America, but their outcome as well. The regimes are compared in terms of property relations, government expenditure, credit investment, wages, prices, employment, and foreign investment. \$18.50

Oil and Nationalism in Argentina

A History

Carl E. Solberg. A case study of YPF, the world's first state-owned oil company, this work traces the development of Argentina's nationalistic petroleum policy from the discovery of oil on state-owned land in 1907 to the present. The focus is on the period prior to 1930, when the institutions and ideologies that shaped Argentine petroleum affairs became firmly established. \$15.00

Dependency and Development in Latin America

By FERNANDO HENRIQUE CARDOSO and ENZO FALETTO

In this expanded and revised English edition, Cardoso and Faletto offer a sophisticated analysis of the economic development of Latin America. While heeding the unique histories of individual nations, they discern general stages in Latin America's economic development. In a postscript for this edition, they examine the political, social, and economic changes of the past ten years in light of their original hypotheses.

PITT LATIN AMERICAN SERIES

CUBA IN THE WORLD

edited by Cole Blasier and Carmelo Mesa-Lago

\$21.95

Cuba in the World is the most comprehensive and authoritative review of Cuban foreign policies to appear since the revolution. Using varying approaches, its thirteen essays address important questions concerning Cuba's expanded participation in world affairs since the early 1970s.

INTERVENTION, REVOLUTION, AND POLITICS IN CUBA, 1913-1921

by Louis A. Pérez, Jr.

\$12.95

The Platt Amendment of 1901 sanctioned U.S. intervention to protect the independence and stability of the Cuban regime. It also made such intervention inevitable. Working from archival materials, Professor Pérez examines in detail the critical Plattist period, when the evolving complexity of Cuban politics resulted in major modifications of U.S. control systems over the island.

THE POLITICS OF SOCIAL SECURITY IN BRAZIL

by James M. Malloy

\$11.95

The main purpose of this carefully researched study is to analyze the organization and reorganization of the relations between state and society as viewed through the evolution of social insurance policy in Brazil through four alternating periods of democratic and authoritarian governments (from 1889 to the present). Professor Malloy deals with the political perspective of Brazil's social protection program, an approach rarely used by Latin Americanists.

SOCIAL SECURITY IN LATIN AMERICA: PRESSURE GROUPS, STRATIFICATION, AND INEQUALITY

by Carmelo Mesa-Lago

\$19.95

"There is nothing else in the field which compares with this book in terms of the thoroughness of the analysis of the social security systems [in Chile, Uruguay, Peru, Argentina, and Mexico]. It will undoubtedly be a major reference work in the field of social security for decades to come."—Robert J. Alexander

THE OVERTHROW OF ALLENDE AND THE POLITICS OF CHILE, 1964-1976

by Paul E. Sigmund

\$14.95 cloth, \$5.50 paper

In this exhaustive and objective account, Paul Sigmund combines firsthand experience with a thorough knowledge of recent scholarship to provide a detailed analysis of Allende's socialist government in Chile and the regimes that preceded and succeeded it.

A History of Latin America

by

Robert Jones Shafer
Syracuse University

1978 Casebound
822 pages

A Better Explanation

Professor Shafer, after many years of dealing with university students, government personnel and people in private enterprises, knows that a complete understanding of Latin American History cannot be obtained through sketchy accounts of all the nations. That is why he chose to explain the area's development by presenting an intense discussion of a few major countries — Argentina, Brazil, Mexico and Chile with briefer treatments of the remaining nations expanded upon whenever major changes occur or disruption of old patterns is threatened.

A History of Latin America, as a comprehensive survey, explores political, economic, social, cultural and intellectual forces that shaped Latin American History from before the European conquest to the present.

The author's emphasis on socioeconomic history, his attention to the latest scholarship and historical interpretations, his use of "modernization" as a unifying theme for the period since independence — as well as his vivid writing style — convey to students the color and scope of the region's past.

The State and Society

Peru in Comparative Perspective

ALFRED STEPAN

"This is a highly significant and innovative attempt to apply arguments derived from theories of the state and theories of corporatism to the comparative analysis of authoritarian rule in Latin America. It is the first major book-length statement I know that presents a theoretically oriented, genuinely comparative analysis of the performance of authoritarian regimes in Latin America, and it is excellent."
