

Engineering

Books and Journals from
Cambridge University Press

Cambridge publishes a range of high-quality books and journals on the theory and practice of engineering, in communications, information theory, signal processing, networks, RF and microwave, circuits and devices, materials science and polymer research, applied photonics, thermal-fluids, mechanics, aerospace, and chemical engineering.

THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 73, 2020, which includes print and electronic access, is £701 (USA, Canada and Mexico US \$1265) and includes delivery by air; single parts are available at £127 (USA, Canada and Mexico US \$229) plus postage. The electronic-only price available to institutional subscribers is £543 (USA, Canada and Mexico US \$990). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

THE JOURNAL OF NAVIGATION

VOLUME 73 • NUMBER 1 • JANUARY 2020

CONTENTS

The Effectiveness of Acceleration Matching According to the Sensor Performance in Shipboard Rapid Transfer Alignment	1
<i>Hojin Ju, SeongYun Cho and Chan Gook Park</i>	
Micro Aerial Vehicle Navigation with Visual-Inertial Integration Aided by Structured Light	16
<i>Yunshu Wang, Jianye Liu, Jinling Wang, Qinghua Zeng, Xuesong Shen and Yueyuan Zhang</i>	
Indoor Scene recognition for Micro Aerial Vehicles Navigation using Enhanced SIFT-ScSPM Descriptors	37
<i>B.Anbarasu and G.Anitha</i>	
An Improved ICCP Matching Algorithm for use in an Interference Environment during Geomagnetic Navigation	56
<i>Jing Xiao, Xiusheng Duan, Xiaohui Qi and Yifei Liu</i>	
Methodology for Estimating Waterway Traffic Capacity at Shanghai Estuary of the Yangtze River	75
<i>Jinxian Weng, Shiguan Liao and Dong Yang</i>	
Performance Bounds for VDES R-mode	92
<i>Jan Šafář, Alan Grant, Paul Williams and Nick Ward</i>	
Inter-Satellite Link Enhanced Orbit Determination for BeiDou-3	115
<i>Yufei Yang, Yuanxi Yang, Xiaogong Hu, Jinping Chen, Rui Guo, Chengpan Tang, Shanshi Zhou, Liqian Zhao and Junyi Xu</i>	
Assessment of the Influence of Offshore Wind Farms on Ship Traffic Flow Based on AIS Data	131
<i>Qing Yu, Kezhong Liu, A.P.Teixeira and C. Guedes Soares</i>	
Body-fixed SLAM with Local Submaps for Planetary Rover	149
<i>Bo Zheng, Zexu Zhang, Jing Wang, Feng Chen and Xiangquan Wei</i>	
AccessVOR: A Semantically Enriched Voronoi-Based Approach for Navigation Assistance of Wheelchair Users in Indoor Environments	172
<i>Reda Yaagoubi, Yehia Miky and Ahmed El Shouny</i>	
Fusion of Ship Perceptual Information for Electronic Navigational Chart and Radar Images based on Deep Learning	192
<i>Muzhuang Guo, Chen Guo, Chuang Zhang, Daheng Zhang and Zongjiang Gao</i>	
A User Requirement-driven Approach Incorporating TRIZ and QFD for Designing a Smart Vessel Alarm System to Reduce Alarm Fatigue	212
<i>Fan Li, Chun-Hsien Chen, Ching-Hung Lee and Li-Pheng Khoo</i>	
A Discrete Artificial Potential Field for Ship Trajectory Planning	233
<i>Agnieszka Lazarowska</i>
