<b>Editorial</b>	
The epidemic of obesity publications, award to legend and more <i>A Yngve, M Tseng, I Haapala, A Hodge and G McNeill</i>	1
<b>Tribute</b>	
PAHEF and PAHO honour renowned Brazilian nutrition expert for Excellence in Leadership in Inter-American Health <i>A Gatewood</i>	3
Increasing consumption of ultra-processed foods and likely impact on human health: evidence from Brazil <i>CA Monteiro, RB Levy, RM Claro, IRR de Castro and G Cannon</i>	5
<b>HOT TOPIC – Overweight and obesity</b>	
<b>Monitoring and surveillance</b>	
Prevalence of overweight and obesity among 7–9-year-old children in Aveiro, Portugal: comparison between IOTF and CDC references <i>C Pedrosa, F Correia, D Seabra, B BMM Oliveira, C Simões-Pereira and MD Vaz-de-Almeida</i>	14
Waist circumference and waist-to-height ratio in Han Chinese children living in Chongqing, south-west China <i>F Xiong, SP Garnett, CT Cowell, C Biesheuvel, Y Zeng, C-L Long, Q Wang, D-G Wang, Y-H Luo and S-Q Luo</i>	20
Trends in the prevalence of obesity and overweight in English adults by age and birth cohort, 1991–2006 <i>D Howel</i>	27
Screen-time, obesity, ageing and disability: findings from 91 266 participants in the 45 and Up Study <i>E Banks, L Jorm, K Rogers, M Clements and A Bauman</i>	34
Identifying the energy gap in the German population using results from representative national health surveys (1985–2002) <i>N Stroebele, JO Hill and SN Willich</i>	44
Tracking excess weight and obesity from childhood to young adulthood: a 12-year prospective cohort study in Slovenia <i>G Starc and J Strel</i>	49
Serial cross-sectional analysis of prevalence of overweight and obese children between 1998 and 2003 in Leeds, UK, using routinely measured data <i>KL Edwards, GP Clarke, JK Ransley and JE Cade</i>	56
<b>Assessment and methodology</b>	
Dietary diversity score is related to obesity and abdominal adiposity among Iranian female youth <i>L Azadbakht and A Esmailzadeh</i>	62
Waist circumference percentiles for Kuwaiti children and adolescents <i>RT Jackson, N Al Hamad, P Prakash and M Al Somaie</i>	70
Receiver-operating characteristics of adiposity for metabolic syndrome: the Healthy Aging in Neighborhoods of Diversity across the Life Span (HANDLS) study <i>MA Beydoun, MT Fanelli Kuczmariski, Y Wang, MA Mason, MK Evans and AB Zonderman</i>	77
<b>Biological and behavioural determinants</b>	
Associations between weight perceptions, weight control and body fatness in a multiethnic sample of adolescent girls <i>JS Duncan, EK Duncan and G Schofield</i>	93
Breakfast skipping and its relation to BMI and health-compromising behaviours among Greek adolescents <i>E Kapantais, E Chala, D Kaklamanou, L Lanaras, M Kaklamanou and T Tzotzas</i>	101

Contents continued on backmatter

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at [phn@nutsoc.org.uk](mailto:phn@nutsoc.org.uk)

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a copy of the issue and a PDF of the published paper free of charge. Offprints are available to purchase and can be ordered before publication.

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: [kchristomanou@cambridge.org](mailto:kchristomanou@cambridge.org)).

## **Subscription information**

*Public Health Nutrition* is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at [journals.cambridge.org/PHN](http://journals.cambridge.org/PHN), with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 14, 2011 (12 issues):  
Internet/print package: £746/\$1430 Americas only/€1195 EU only  
Internet only: £613/\$1160 Americas only/€973 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to  
Public Health Nutrition  
Cambridge University Press  
100 Brook Hill Drive  
West Nyack  
New York 10994-2133

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Contents continued from outside back cover

Overall glycaemic index and glycaemic load of habitual diet and risk of heart disease <i>K Grau, I Tetens, KS Bjørnsbo and BL Heitman</i>	109
The duration of obesity and the risk of type 2 diabetes <i>A Abdullab, J Stoelwinder, S Shortreed, R Wolfe, C Stevenson, H Walls, M de Courten and A Peeters</i>	119
Sugar-sweetened beverage intake and overweight in children from a Mediterranean country <i>H Valente, V Teixeira, P Padrão, M Bessa, T Cordeiro, A Moreira, V Mitchell, C Lopes, J Mota and P Moreira</i>	127
<b>Social, economic, political and environmental determinants</b>	
Frequent use of staff canteens is associated with unhealthy dietary habits and obesity in a Norwegian adult population <i>MR Kjøllestad, G Holmboe-Ottesen and M Wandel</i>	133
Nutritional profile of schoolchildren from different socio-economic levels in Santiago, Chile <i>Y Liberona, O Castillo, V Engler, L Villarroel and J Rozowski</i>	142
Sociodemographic and lifestyle characteristics in relation to dietary patterns among young Brazilian adults <i>MTA Olinto, WC Willett, DP Gigante and CG Victora</i>	150
Prevalence of obesity and associated sociodemographic and lifestyle factors in Morocco <i>K El Rbazi, C Nejari, A Zidoub, R Bakkali, M Berrabo and PB Gateau</i>	160
<b>Interventions</b>	
Men participating in a weight-loss intervention are able to implement key dietary messages, but not those relating to vegetables or alcohol: the Self-Help, Exercise and Diet using Internet Technology (SHED-IT) study <i>CE Collins, PJ Morgan, JM Warren, DR Lubans and R Callister</i>	168
<b>Public policies</b>	
The global context for public health nutrition taxation <i>AM Thow, P Heywood, S Leeder and L Burns</i>	176
<b>Corrigendum</b>	
Association of BMI and nutritional habits with hypertension in the adult population of Croatia – Corrigendum <i>AI Ubernik, M Erceg and SM Milanovic</i>	187
Patterns in weight reduction behaviour by weight status in schoolchildren – Corrigendum <i>C Kelly, M Molcho and S Nic Gabbainn</i>	188
Anthropometric indices and their relationship with cardiometabolic risk factors in a sample of Turkish adults – Corrigendum <i>AS Can, TP Bersot and M Gönen</i>	189
