Information about the College's publications is available at <http://www.rcpsych.ac.uk>.

psychiatric Bulletin

The Journal of Psychiatric Practice
<http://pb.rcpsych.org>

Notice to contributors

The *Psychiatric Bulletin* publishes original and scientific papers, brief review articles and opinion pieces dealing with treatment of mental disorders, administration, audit and management of psychiatric services and training in psychiatry. The *Psychiatric Bulletin* focuses on matters relevant to everyday clinical practice and management in psychiatry. The *Psychiatric Bulletin* will prioritise articles that are of practical clinical relevance, topical and accessible.

All original articles are peer reviewed. Manuscripts for publication must be submitted online at <http://submit-pb.rcpsych.org>. A unique account will be created for each contributor using his or her email address as identification (note: ensure you use the same email address whenever logging on to the manuscript submission website). Contributors may track the progress of their submissions at any time via this website. For assistance with online submission, please email pb@rcpsych.ac.uk or telephone +44 (0)20 7235 2351. Papers should be typed double-spaced with wide margins. A good length is 1500 words. Longer papers are likely to be returned to the authors for editing before being sent to referees. A structured abstract of 100–120 words should be included with all original scientific papers. A summary of approximately 100 words should precede review articles. Authors are encouraged to limit the number of tables/figures to a maximum of three. Photographs and illustrations are welcome. For more detailed advice on referencing (Harvard system), presentation of statistical information and the style of tables and

figures, please refer to instructions to authors in the *British Journal of Psychiatry*.

A Declaration of Interest must be given and should list fees and grants from, employment by, consultancy for, shared ownership in, or any close relationship with, an organisation whose interests, financial or otherwise, may be affected by the publication of your paper. This pertains to all the authors of the study.

Papers on audit must demonstrate a completed audit cycle. Correspondence is welcome; letters should be no longer than 250 words (please give word count) and include no more than three references, and no tables or diagrams. Letters should be emailed to pb@rcpsych.ac.uk and signed copies must follow by post or fax. The correspondence editor will use a standard email to inform authors if their letter is to be published or not.

If an individual patient is described, the patient should read the report before submission, and written consent must be obtained from the patient or an authorised person. Contributors should be aware of the risk of complaint by patients in respect of defamation and breach of confidentiality.

Manuscripts accepted for publication are copy-edited to improve readability and to ensure conformity with house style. Contributions are accepted for publication on the condition that their substance has not been published or submitted elsewhere.

Published articles become the property of the *Bulletin* and can be published elsewhere, in full or in part, only with the written permission of the Royal College of Psychiatrists.

The *Bulletin* is indexed by volume. Indexes are available approximately 2 months after the closure of each volume. They are appended to the last issue of the relevant volume of the online journal, and printed copies may be obtained free of charge upon request to the publisher.
