The Medical Value of Psycho-analysis

By **FRANZ ALEXANDER, M.D.**

10s. 6d.

The author, the first person to hold a Professorship of Psycho-analysis in an American University, shows the necessity for a closer relationship between the psycho-analyst and the doctor. This book is not only practical for individual use, but provides a survey of the whole subject of psycho-analysis.

EPILEPSY

Is so uniformly and so remarkably benefited by the use of

GELINEAU'S DRAGEES

(Pot. Brom.; Antim.-Arsen.; Picrotoxin)

that no case should be considered hopeless until these Dragees have been thoroughly tried. RELIEF—AND A GREAT DEAL MORE—is usually obtained even when routine treatment fails completely.

GELINEAU'S DRAGEES

are successfully prescribed by leading Physicians, and are used in Hospitals and Epileptic Colonies. *Their use is also indicated in the nervous and painful crises of Menstruation and in the varying manifestations of Shell Shock.*

In tins of 50 and 150. Full particulars from the general Agents for the British Empire (except Canada, Australia and New Zealand):

FLUCTUATIONS IN HUMAN OUTPUT

BY

S. J. F. PHILPOTT, M.C., D.Sc.(Lond.)

Royal 8vo. 12s. 6d. net.

No one can "attend" continuously to a task; with the best of intentions output fluctuates; it is the problems of these fluctuations or oscillations in uninterrupted mental work which are here discussed.
