## SUBSCRIPTION REQUESTS/CHANGES

**Thanks to the financial support of our advertisers, this publication is sent free to microscopists in the U.S. and, thanks to MSA, free to MSA members worldwide.**

Due to the relatively few, non-MSA member, international readers (and the resulting lack of advertising income) plus the very high postage costs, we must charge non-MSA subscribers for subscriptions as follows:

**Canada, Mexico, Latin America:** \$80 for one year and \$140 for two years.

**Other International:** \$110 for one year and \$190 for two years.

Individuals requesting subscriptions, or wishing to change/correct their current address, are requested to do so via our www site:

<http://www.microscopy-today.com>

or under "Publications of the Society" on the MSA www site:

<http://www.msa.microscopy.com>

## MICROSCOPY TODAY

**The objective of this publication is simply to provide material of interest and value to working microscopists!**

The publication is owned by the Microscopy Society of America (MSA) and is produced six times each year in odd months, alternating with MSA's peer-reviewed, scientific journal *Microscopy and Microanalysis*. We greatly appreciate article and material contributions from our readers—"users" as well as manufacturers/suppliers. The only criteria is that the subject matter be of interest to a reasonable number of working microscopists. *Microscopy Today* has authors from many disparate fields in both biological and materials sciences, each field with its own standards. Therefore *MT* does not have a rigid set of style instructions and encourages authors to use their own style, asking only that the writing be clear, informative, and accurate. Length: typical article length is 1,500 to 2,000 words plus images. Longer articles will be considered. Short notes are encouraged for our Microscopy 101 section.
