**WHEN  
PUBLIC  
HOUSING  
WAS  
PARADISE**

**Building Community  
In Chicago**

**J. S. FUERST**

with the assistance of D. Bradford Hunt

This is a collection of 79 oral histories of former public housing residents and staff in Chicago. These first-hand participants in Chicago's early public housing experiments recall a time between 1938 and 1960 when public housing offered low-income families desirable and attractive housing, a strong sense of community, and a supportive environment for children and families. Public housing also served as an engine of upward mobility into the middle class and beyond, particularly for African Americans. Former residents and administrators describe positive experiences, communal feeling, and real gain from project life. They attribute much of this success to careful management by the program's early administrators, whose voices are also included in the collection.

*Female Gladiators* is the first book to examine legal and social battles over the right of women to participate with men in contact sports. The impetus to begin legal proceedings was the 1972 enactment of Title IX, which prohibited discrimination in educational settings, but it was the Equal Protection Clause of the U.S. Constitution and the equal rights amendments of state constitutions that ultimately opened doors. Despite court rulings, however, many in American society resisted—and continue to resist—allowing girls in dugouts and other spaces traditionally defined as male territories.

## **DEFENDING AMERICA**

Military Culture and the Cold War Court-Martial

**Elizabeth Lutes Hillman**

While the U.S. military fought to defend the Constitution, the Cold War court-martial punished those who wavered from accepted political convictions, sexual behavior, and social conventions, threatening the very rights of due process and free expression the Constitution promised. In examining criminal prosecutions of servicemen, *Defending America* opens a new window on American social issues after World War II, including attitudes toward class, gender, and race.

**“With *Defending America*, Elizabeth Hillman confirms her place as one of the preeminent military law and history scholars of her generation.... [She] has tapped a valuable mass of case law and organized it in a new and thought-provoking way. Three cheers.”**

—Eugene R. Fidell, President, National Institute of Military Justice
